**CARRY THE POWER BY LAW THAT IS THE DUTY WHICH RESTS WITH TORONTO NOW**

## FARR HAS COME BACK

### "JERRY" COLLINS

**Got Liberal Money to Leave Canada; Promised \$500 to Return and "Split." He Says—Jerry Collins Goes Into Fresh Details.**

James Farr of Goderich, the man who took so important a part in the Holmes-MacLean by-election in West Huron that he had to skip to Detroit, took the stand at the London conspiracy trial yesterday afternoon, and said that he understood, when he came back to Canada, that he would receive \$500 from the Conservative party if he would give the whole game away. As yet he had not received the money.

Jerry Collins, the crown's chief witness in the box nearly all day. He told his police court story with a few new points, which tended to draw Reid and Mulloy deeper into the game in London.

Farr was very amusing in his evidence. Led by Mr. Stanton, Farr identified Pritchett as the man who taught him to switch ballots in Goderich. He could not tell to whom he gave the good ballots after the election.

The statement that was printed in the Globe shortly after the election, which was purported to be sworn to by Farr, was read over clause by clause by Mr. Johnston. The witness said that the greater part of it, dealing with his actions when deputy returning officer, was true, he had not made the statements which were hatched up by Jim Vance, who also got him the money to get out of the country.

In this affidavit Farr denied that he had found a ballot on the floor of the polling booth and torn it up; that he had referred to a crowd from the "black" "there is a crowd" and that he had gone to Goderich on a certain Friday and that he had affirmed to a crowd from the "black" in a true and straight manner as deputy returning officer in that election.

The cross-examination of Collins was not finished. It is expected that the crown's case will be finished to-day, when an adjournment will probably be made until Monday.

**Was to Buy Votes.**

Raphael MacNab, a linen living in Belleville, testified that during the White-Conservative election, he was furnished with \$50 to buy votes. Mr. Gorman gave him the money. He was told that George Taylor, the man who had received the letters with money enclosed, "bribery on both sides" was Mr. Johnston's comment.

John Stevely said he received \$20 from Reid for election expenses. He also got \$150 in envelopes from some parties, who told him that he did not know where the money came from, how many envelopes he got, or who made up the list of doubtful voters. The money was left on his desk, that's all he knew.

"This happened two years and a half ago," said the witness as an excuse for his poor memory.

"The money, like the list, must have dropped down the chimney," remarked Mr. Stanton.

Stevely's testimony yesterday morning differed from that given in the police court, and as a reason he said, "I knew better now."

"Been talking to someone, eh?" "Only my wife."

"She knows about these matters?" "As much as I do."

**Collins in Box.**

Jerry Collins was the next witness. He told of his part in bringing up London voters in several elections, and of his crooked work as deputy returning officer. He went into details as to the

**MR. TORONTO: LOTS OF TIME TO TALK, BOYS, AFTER I'VE VOTED.**

## MINISTER AND DRUNKEN OFFICER

**Did Messrs. Fielding and Clouston Conclude Some Relief Measures?**

MONTREAL, Nov. 21.—(Special).—The Hon. W. S. Fielding, minister of finance, was here for about a quarter of an hour this forenoon, on his way to Halifax, and during that time he had what is believed to be a very important interview with E. S. Clouston, the vice-president and general manager of the Bank of Montreal.

That the conference, brief that it was, had great significance, as bearing on the present financial situation, can hardly be doubted, as there was an exchange of documents and the conversation was carried on with great earnestness until about five minutes after the usual time for the starting of the I. C. R. maritime express, the train being held for the minister to finish his conversation.

Mr. Clouston drove up to the station a few minutes before the Grand Trunk train from Montreal was due, and his interview with Mr. Fielding he drove back to the bank. It is understood that the conference marked the completion of arrangements that were under discussion when Mr. Fielding was here on Monday, the minister having in the meantime had time to discuss with the premier and other members of the government the proposals then under consideration for the relief of the situation.

**The Financial Situation.**

A prominent bank man said yesterday: "Things in Canada will begin to mend when we get over the next three weeks. In that time the grain of the west on the C.P.R. and in elevators at Port William can, a lot of it, be got to market and the proceeds distributed in Canada. Each day of marketing improves the situation on the day preceding. If we have good weather, and the harbors keep open for a few days more, we will have turned the corner, and a lot of the wheat will be sent to the States. We must also keep clear of all entanglements with the situation in the United States; we must let the people of the States know that our conditions are different in Canada from the United States."

### AN ELECTIVE COMMISSION TO MANAGE CITY SCHOOLS

**To Consist of 3 Paid Members—Suggestion Made By Trustee Shaw—Inquiry Proposed Into Manual Training.**

Dr. Embree's report on the high school system of Toronto was brought before the board of education last night and referred back to the legislative committee on a vote of 5 to 1, the minority being Trustees Parkinson, Dineen, Hunter, Ogden and Chairman Kent.

Dr. Ogden supported the appointment of a supervising principal, while Dr. Embree moved that the report be referred back to receive further consideration, as he would prefer, by a select committee.

Following this, on motion of Trustee Shaw, the legislative committee was requested to consider and report at their next meeting on the advisability of seeking legislation to enable the city to place the entire city school system under an elective commission consisting of not more than three salaried members, who should devote their entire time to school interests with full power of control and direction. It seems that a number of shoes sold by retailers and called by certain registered names are sometimes made in different factories. Some of these factories use the union label and others do not. The complaint is that the clerks in some stores are in the habit of saying that the label has been left off by accident when the reality is the shoe has been made in a non-union shop.

An amendment was moved to the report of the educational committee to the effect that council expressing itself strongly in favor of having occasional teachers, who spend a great deal of their time waiting for an opportunity to help out other teachers, paid regular salaries and not only for the time they worked.

### GIRL ATTACKED ON THE STREET

Fifteen-year-old Muriel Hurley, daughter of Francis H. Hurley, 33 Wellesley street, was the victim of a daring assault at the very door of her house Wednesday afternoon.

She with her 8-year-old sister, had gone out to see the fall of the leaves along Wellesley street they noticed a man following them.

When they reached their home the lights at the front of the house were extinguished and the man advanced upon the children. He seized the elder girl, while the younger fled down the street.

The cries of the girl brought her father to the aid, and at his approach he assaulted the man for his wheel and mounting, rode east, the father pursuing.

He caught the man at Amelia street, and there held him for several minutes while a crowd collected, attracted by the cries of the mother and the younger child whom the man had overtaken and knocked down in his flight.

He was finally released giving his name as Fred Hall, 14 Frederick street. He said he was a telegraph messenger. A complaint was laid at the Wilson-avenue Police Station. Enquiry disclosed the fact that the man's address is to be found on Frederick street, and that he is employed by either the C.P.R. or G.N.W. Telegraph Companies.

He is described as about 30 years of age and 5'6" high, heavily built.

### PROTECT WINDOW CLEANERS

**Council Asked to Enact Protective Provision.**

Accidental death with riders holding "a certain amount of negligence" against the Toronto Window Cleaning Company, and calling upon the city council to provide for the greater safety of window cleaners, were the subjects of a letter last evening by the coroner's jury enquiring into the death of William J. Adams. He was killed as he was falling from a fifth storey window of the Equity Chambers, Victoria and Adelaide streets.

The evidence showed that the weighting of the lower sash of the window which Sturdy was cleaning allowed the sash to descend rapidly, and it was in grasping this that the man's hand slipped and he fell.

### MONTREAL MEN ASPHYXIATED

**Smothered by Gas as they Slept in Room at New York.**

MONTREAL, Nov. 21.—(Special).—Two old Montreal boys, Walter Stewart Lishman and Arthur Alexander Lishman, were accidentally killed by gas suffocation at New York on Monday afternoon. They had come to Montreal for the two brothers had lived in New York for the past seven years and boarded together on West Twenty-third street. They had a small gas stove in their room and had evidently been using it on Sunday night before going to bed. The two Lishmans were brought back to Montreal yesterday morning and were buried in the afternoon. They were sons of the late James Lishman, who twenty years ago was a well-known Montreal business man, and were well connected in Montreal and Toronto, amongst their brothers being John H. and William H. Lishman, of Toronto, both of whom attended the funeral.

### FATHER CAPTURED YOUNG MAN AFTER CHASE, BUT LETS HIM GO AGAIN.

Arnold Hinton writes: "The World again to say that his difficulties have not been removed.

"Indeed," he says, "you seem to me to be rather than clear the issue. You tell me that the tax is not a benefit of investment, yet you say that it is simply the credit of the city that is required. The worst of the tax is the onerous sound; I think I have said it before. It smacks of deals, speculations, risks—in short, of investments. Suppose the whole scheme is grossly mismanaged (and between you and me the lamp post, like Herbert Spencer, I harbor a deep mistrust of all governmental meddling with boards, councils, commissions and what not), will not that somebody cry out for cash as well as credit?"

"I willingly admit my ignorance of these matters, yet, in spite of your reasoning I cannot help thinking that not who are taxed with benefit. A sewer benefits everybody. But there must be thousands of people by whom the very last thing needed is power. If there is nothing unique or peculiar about the commodity called

**Still in Trouble.**

Arnold Hinton writes: "The World again to say that his difficulties have not been removed.

But there must be thousands of people by whom the very last thing needed is power. If there is nothing unique or peculiar about the commodity called

### PLATE BLAME ON THE DEAD

**Jew-baiter Sent to Asylum.**

BREILIN, Nov. 21.—Count von Pu reker, the well-known Jew-baiter, who at various times has come into collision with the law owing to his excessive anti-semitic agitation, has been sent to an asylum for the insane at Dulten.

**PLATE BLAME ON THE DEAD**

PEMBROKE, Nov. 21.—(Special).—That Engineer Hendrie, now dead, was guilty of criminal negligence in running his light engine on the time of No. 8 (the Soo express), was the verdict of the jury to-night.

Engineer Hendrie was running without orders on No. 8 and

### SEVERAL TEACHERS SHOULD BE ON SALARY

**So Trades Council Say—Will Support an Aldermanic Candidate.**

At a meeting of the Toronto District Labor Council last night at the Labor Temple, it was decided to give Wm. Worrell the endorsement of the council in his coming campaign for alderman in the first ward. He will enter this election as a trades unionist.

Mr. Worrell's endorsement was made in the chair in the place of J. Kennedy, the president, who was absent. Recording Secretary R. R. Elliott handed in his resignation and W. J. Hovey was elected to fill the vacancy.

Mr. Odell as a delegate from the Boot and Shoe Workers' union explained to the council some interesting facts concerning the union label on boots and shoes manufactured by local factories. It seems that a number of shoes sold by retailers and called by certain registered names are sometimes made in different factories. Some of these factories use the union label and others do not. The complaint is that the clerks in some stores are in the habit of saying that the label has been left off by accident when the reality is the shoe has been made in a non-union shop.

An amendment was moved to the report of the educational committee to the effect that council expressing itself strongly in favor of having occasional teachers, who spend a great deal of their time waiting for an opportunity to help out other teachers, paid regular salaries and not only for the time they worked.

### SILVER CENTREPIECE

**PRESENTED TO STRATHCONA**

Anglo-Canadians in London Make Gift Thru a Former Governor.

LONDON, Nov. 21.—The Duke of Argyll, who was governor-general of Canada from 1878 to 1883, to-day, on behalf of the Anglo-Canadians in London, presented Lord Strathcona and his mission, with a large silver centre-piece, illustrative of the various phases of Lord Strathcona's life.

Replying to the presentation address the high commissioner said he hoped soon to resign his office into younger hands, but before so doing he desired to see the proposed all-Canada route by way of Canada to the far east an accomplished fact.

### SHOT COW MOOSE.

**Game Inspector is Searching for Wm. Overland.**

SAULT STE. MARIE, Nov. 21.—(Special).—T. A. Hand, game inspector at the Soo, is looking for William Overland, supposed to have left the country and cannot be located. Overland is charged with shooting a cow moose before the opening of the season. The charge is a heavy one, as cow moose are protected in any season and cannot be legally shot under any conditions.

The offence was committed on Goulias Bay road ten miles from the Soo, Township of Pennyfather. Hand heard of Overland through those who told Overland had boasted of his prowess as a marksman, and visited the place Saturday.

Part of the carcass and hide of a moose were seized. A member of Overland's family stated that he had killed the moose.

### NEW CHARGE WAS LAID.

**Troubles of Alleged Yeggmen at Montreal Increasing.**

MONTREAL, Nov. 21.—(Special).—Another charge was laid this morning against Thomas Hudson and John Brown, alleged yeggmen, who were arrested at St. Lambert Sunday after a running sun fight with Detective Overland.

The new charge is that they brought goods stolen in the United States into Canada, and the complaint in this case is E. W. Keith of Moore's Point N.Y., manager of the Bohoover Grocery Co.'s store in that place. He alleges that boots, socks and overcoats found on the prisoners, along with jewelry not yet located, were stolen from his establishment on Nov. 12.

### HAVE JUST WHAT YOU WANT.

The purchase of a fur-lined coat for a lady is a particular matter in which the lady who is to wear it should be given every opportunity to have the garment of her choice exactly the way she wants it. A few in a Christmas gift destroys its gift value, so is it Ditsen's soon, see their offerings and if you can't get the fur-lined coat exactly the way you want it at Ditsen's you don't get it elsewhere.
