Man And Woman Dead In City Hotel; Carbolic Acid Used

Each One Leaves a Note; His Assumes The Blame

Herbert Macintosh of Newburyport and Miss A. Findlay Who Has Sister in Haverhill—Here Few Days and Fail to Pass Immigration Inspectors When Seeking to Return

Herbert Macintosh of Newburyport, Mass., is dead and a young woman named A. Findlay, who is thought to belong to Haverhill, Mass., is lying in a critical condition in the hospital as the result of drinking carbolic acid in a room in the Park Hotel sometime last night or early this morning.

That it was a case of double suicide was evident from information on an envelope which was pinned on the side of the bed.

On the other side of the envelope was a note written by the woman as follows: "Give my pin to Gladys Thompson, my sister's daughter, A. Findlay."

The man and woman arrived in St. John last week on the Eastern Steamship line and started back to the States on the Boston train on Sunday night.

When they were held up at Vancouver on Sunday night they met two other passengers who had also been denied admission into the States.

Mrs. Myatt told the following story of their movements from the arrival in the city.

After supper I returned to the hotel light in our room was burning, but she was not in it.

When asked if she knew the woman she said she never met her before in her life until they met in Vancouver.

At that time she did not appear to have much money and I asked her to room with me when we got to St. John.

When asked about Mr. Macintosh, she said he was a man about thirty or thirty-three years of age of medium height and slim.

General Currie Praises Canadian Branches of Service For Close Co-operation in Recent Fighting

Ottawa, Oct. 2.—The close co-operation of all branches of the Canadian corps is the general order to Brigadier-General E. W. B. Morrison, D.S.O., general officer commanding Royal Artillery, Canadian Corps from Lieut.-General A. W. Currie commanding a copy of which has been received in Ottawa.

"The following communication has been received by the general officer commanding Canadian corps:

"I would like if you would convey to the gunners under your command my sincere appreciation of their splendid work in our recent and most successful operations."

"The assaulting infantry maintain that the artillery preparation has never been more complete, that the support has never been better, and that the liaison has never been so nearly perfect."

"I am assured by them that S. O. S. calls were repeatedly answered within thirty seconds. This indicates a discipline and vigilance most commendable."

"I also learn that on occasions when the batteries were being heavily gassed, gunners discarded their masks in order better to serve their guns, for whose help the infantry were signalling. This indicates especially close operation on the very highest quality. F. O. O's signaller and runners did extremely well."

"Success must ever be ours when the co-operation between all services is so marked and when the devotion to duty is so outstanding. I desire most cordially to congratulate all concerned."

"A. W. Currie, Lieut.-General, commanding Canadian Corps."

Russian Turkestan is composed of four provinces in Central Asia, extending westward to the Caspian Sea. It has an area of 490,000 square miles and a population of about 6,685,000.

MATTERS BEFORE THE MUNICIPAL COUNCIL

The most important matter to come before the quarterly meeting of the municipal council this afternoon is the recommendation that authority be given for the erection of a wing at the county hospital for the use of tubercular soldiers.

The joint committee of the county council and the hospital board reached an agreement with the military hospitals committee for the erection and maintenance of the wing and have recommended the plans to the council.

All that is needed is their approval to permit the work to proceed.

Another matter which will come up and which may cause some discussion is a recommendation of the finance committee that \$3,000, the balance of the patriotic grant, be used for sending Christmas presents to the soldiers at the front.

An amendment to the law prohibiting cattle from running at large on the roads will be introduced. At present the law does not apply to certain sections, but the exemptions have been so vague as to cause confusion.

The amendment provides that no such exemption shall be granted in any part of the county, except on the petition of at least ten ratepayers, the recommendation of the parish councillors and the majority vote of the council.

McGill Has Done Well. Montreal, Oct. 2.—McGill University has sent almost 2,500 men overseas, so Principal Peterson said yesterday in an address to the students enrolled for the winter season.
