The Steel Lined "SPEED SHELLS" For Velocity and Accuracy

Sportmen are willing to take their chances of sport but they want certainty in their shells. Get the Remington-UMC "Arrow" and "Nitro Club"—the steel lined "Speed Shells."

The steel lining grips the powder—puts all the force of the explosion back of the shot. Shorter lead, less guess-work about angles—easier to get the "fast ones." Go to the dealer who shows the Red Ball Mark of Remington-UMC—he can save you 10%.

The Eureka Vacuum Cleaner Draws The Air Clean Through

In order to thoroughly clean a carpet, portier, etc., the electric cleaner must draw the air clean through and not merely skim the surface.

The Eureka makes cleaning rapid and thorough because it does exactly draw the air right through the thing cleaned.

It does this because it has such a powerful motor—the most powerful in any cleaner, and in this way it dislodges the imbedded dirt at its SOURCE, having neither nap nor warp nor fabric.

Glady show this modern appliance in full working order if you will but call.
