## WESTERN UNION MESSENGER IS SEVERELY HURT

Wm. Bourque, on Bicycle, in Collision With Auto.

HEAD IS INJURED; MAY BE FRACTURE

Collided With Car Driven by J. B. Patchell, at Market Sq.

William Bourque, about 18 years of age, a messenger boy with the Western Union Telegraph Company, collided with an automobile, driven by Joseph B. Patchell, proprietor of the Avenue Service Station, Douglas avenue, about 11 o'clock this morning at the corner of Dock street and Market Square, opposite the Ogilvie building, and received very severe injuries to his head. In the impact he was thrown from his bicycle, hurled several feet in the air and landed forcibly on his head on the cobble stones. He was picked up unconscious and taken to the General Public Hospital where his condition is causing grave anxiety to relatives.

### DRIVER'S STATEMENT

According to eye witnesses of the accident young Bourque was riding his bicycle down Dock street. Mr. Patchell had just come out of the western section of Dock street and was heading into Dock street. He said that he saw the messenger boy coming down Dock street, apparently "hugging" the street car track. The front section of his car had practically passed the boy and he gave him no more thought.

A second later he was surprised to hear a crash and felt a third against his car. He immediately stopped the car which, he says, was not proceeding at any extraordinary rate. The boy was lying several feet away from his car alongside his bicycle. He was picked up and Policeman Young, who is on traffic duty at the foot of King street, hurried to the scene of the accident.

### PERHAPS FRACTURE

Young Bourque was placed in Mr. Patchell's car and taken to the hospital. It was said this afternoon that he had received three severe cuts about the head in addition to bruises about the mouth. It had not yet been determined whether or not he had suffered a fractured skull but the belief is that he has. He was still unconscious this afternoon.

Conversation that Policeman Young had with L. J. Fenech, auto-truck driver for the C. N. R. express, and John Connolly, eye witnesses of the accident, led him to the belief that the young Bourque, who is said to have been riding his bicycle with his head down, suddenly became content with the automobile and was too late to swing out. He struck the rear mud guard of the car, damaging it considerably and also smashed in the left hind glass window of the car.

Young Bourque is said to be a native of Moncton and had been with the Western Union as messenger boy for two years. A sister, Mrs. J. C. Lumley, resides at 48 Elm street.

## SCOUT TROOPS AWAY TODAY UP RIVER TO CAMP

St. George's and St. James' Boys Start Holiday Outing

The St. George's Boy Scouts left this morning for their summer camp at Crystal Beach. They will be under canvas for 10 days and during that time will carry out several scouting projects. The camp will be run on the Gillwell lines, using the patrol system, and will be under the leadership of Rev. J. Cunworth, D. W. Colwell and Fred McIntyre. Rev. A. L. Gardiner of St. Mary's church will also be present to assist in the work. The 4th Patrol will be under the leadership of Patrol Leader Leslie Weaver, while Patrol Leader Frank Lord will have charge of the White Throat Song Sparrow Patrol. An interesting feature of the camp will be an all-day adventure hike, each patrol setting out under sealed orders. Visitors' day will be Thursday, Aug. 12, and it is planned to carry out a program of an interesting nature for the benefit of the visitors. It is expected that some of the Rover Scouts will visit the camp during the week-end. Scoutmaster S. G. Olive, who is unable to attend the full 10 days expects to spend a few days in camp next week.

Stagg will be in charge until Saturday, Aug. 14, when he will be assisted by William E. Hoyt, district secretary of Saint John. The St. James' boys plan on a fortnight's good and instructive scouting.

### IN WITH 261 PASSENGERS

The Eastern Steamship Company's S. S. Prince Arthur arrived in port this morning direct from Boston with 261 passengers. She also had on board one Rolls Royce automobile.

### SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and forces its way through the gorge of the Falls, creating a "faller" running up river.

At half tide, when the level in the Bay and River are about equal, the Falls disappear entirely, and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

Half Tide	11:52 A. M.

## CLAIMS TAXES ON LANCASTER LANDS TOO HIGH

Commissioner Presents Bills and Council Will Pay Under Protest

VALUATION SET IS UNDER CRITICISM

Chamberlain Figures Out Tax Rate of Over 5 Per Cent.

The Common Council, sitting this morning in committee of the whole, decided to pay under protest the tax bills rendered by the Parish of Lancaster and to appeal to the Board of Assessors of the parish from the valuation placed on these lands.

Commissioner Bullock said he wished to pay the bills in order to get the discount. One bill, that on the school lot (so-called) was \$1,501.20, an increase of \$188.00 over last year, and this in spite of the sale of 35 lots, most of them in this area, last year. Two other bills, one for \$335.94 and the other for \$2,047.40, a grand total of \$3,884.54 were also presented by the commissioner. Last year he said the amount of taxes was \$8,071.65 and the city received in rentals \$2,502.25 and the city had to charge \$3,577.60 to cover and under-expended balances.

### SOME VALUATIONS

The total valuation placed in the city lands in Lancaster was \$174,700 and the chamberlain figured out that the tax rate was in excess of 5 per cent. A lot which had been sold to the parish for the fire station at \$800 was valued by the assessors at \$1,000 while the councilors of the parish claimed it was not worth the \$800 asked by the city. The site on which the Wilson Box Factory was located was valued at \$5,000, the Firemen's Park at \$8,000 and Park Place at \$75,000.

Commissioner Bullock there should be some way to get this matter before the assessors of the parish. It looked like the city was being short-changed on the city as a good market from which to obtain revenue and was acting accordingly.

Commissioner Harding asked if the city commissioners by reason of the councilors of the parish could not control expenditures in the parish calling for payment by bond issue.

Commissioner Prink: "Absolutely."

Commissioner Harding: "Then I can see where we are ourselves at fault."

## WOMAN WRITER ENTHUSIASTIC OVER MARITIMES

Mrs. Madge McBeath in City Gathering Material for Publication

Mrs. Madge McBeath, of Ottawa, one of Canada's most successful authors, now in the Maritimes gathering material for publication work for the Maritime Provinces, is so enthused with what she has seen, that she asserts that only a realization of what we have to offer, is required to bring tourists here in Canadian numbers. Speaking to a Times-Star reporter this morning, Mrs. McBeath, who is at the Royal Hotel, spoke most enthusiastically of her trip, which has included visits to the principal points in Nova Scotia and New Brunswick. She will leave this afternoon for St. Andrews on her return to Montreal.

Mrs. McBeath has made many notable contributions to Canadian literature, and hopes to publish in the near future a novel, which is entitled "Shackles." Among the most widely read of her books is "The Patrons Limit," an intensely interesting story, with an underlying thought of forest conservation. "Kleath," her story of the Yukon, has recently been dramatized and shown on the picture screen under Robert Service's title, "The Law of the Yukon." Mrs. McBeath was also the author of the first radio play, entitled "The Super Woman," which was broadcast last spring by the Ottawa Dramatic League. She was the guest yesterday of Hon. L. P. D. Tilley and Mrs. Tilley at Rothway.

## Evidence In Case Is Contradictory

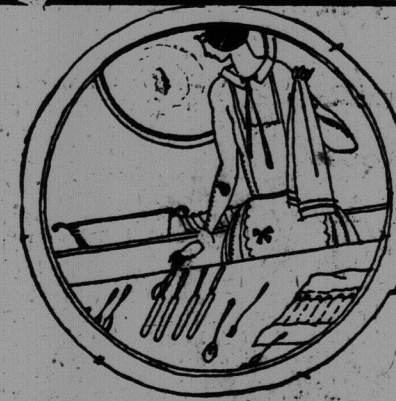

Contradictory evidence was given in the Police Court this morning as to whether Fred O'Dell was under the influence of liquor when arrested on Saturday night in Prince Edward street. O'Dell asserted he was not intoxicated, but Policeman Leard, who made the arrest, testified that the man was drunk. O'Dell pleaded guilty, however, to resisting the police.

His father, Charles O'Dell, arrested on charge of interfering with the police when his son was being arrested, said that he was trying to get into his own house but was prevented from doing so as his son had hold of his arm and would not let go.

The magistrate said that apparently the arrest of the two men had caused considerable excitement in Prince Edward street Saturday night as he had heard several reports of the affair. He remanded both men until further evidence could be secured.
