## IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of "Salo" take this important in a glass of water before breakfast for a few days and your kidneys will thank you.

"Salo" is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Just Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

## Are Your Taxes too High?

Many persons are paying a greater tax on their income than they need to, merely because they don't know what Income Tax exemptions and deductions they are entitled to.

We have prepared a booklet showing how every man, whose income or earnings are \$1,000 a year, or more, should make up his income tax returns.

You don't have to read the whole book to find out. It's all classified according to the amount of income.

Get a copy today. It's your money.
