

Local News.

REMARKS OF CITY AND PROVINCIAL NEWS

H.M.S. Egeria is to make a survey of the waters in which the steamer Prince of Wales found a submerged rock some time ago.

John William Austin, of Van Anda, Texas Island, died Thursday at the Royal Jubilee hospital. Deceased was 42 years of age and a native of England. He was a member of the Miners' Union.

Thursday afternoon the funeral of Dorcas Mary, the infant daughter of Mr. and Mrs. West, took place from the family residence, No. 80 Kane street. Rev. H. J. Wood conducted religious services.

The inland revenue for the port of Victoria during the month of August amounted to \$18,724.21, as compared with \$16,446.52 collected during the same period last year. The returns for the month just ended follow: Spirits, \$12,688.77; malt, \$1,945.34; cigars, \$2,008.11; raw leaf tobacco, \$268.14; cigars, \$766.30, and other receipts, \$207.05.

The library returns for August are as follows: Books issued, 1,546; to ladies, 750; to gentlemen, 796; highest number issued in one day, 92; average number, 57; new members, 17; ladies, 9; gentlemen, 8. Books added: "Casting of Nets," by Bageot; "Platform Echoes," by Gough; "Year Book of Canada, 1903," proceedings and transactions of Royal Society of Canada, Journal Legislative Assembly, B. C.

D. B. Bogle, of the Flathead Valley Oil Company, is leaving for Southeastern Ontario, preparatory to getting the machinery in for the drilling he will go over the country to ascertain the best and cheapest methods by which to take the outfit in. He will visit the oil fields of Alberta and Montana contiguous to the property of his company. The purpose of the Flathead Company is to get to work on development work just as soon as possible.

In connection with the official reception to be tendered to Their Excellencies the Earl and Countess of Minto on Monday evening, it is requested that each person attending the reception will bring two cards on which his name is legibly written, one to be given up at the entrance to the Legislative Chamber, and the other to be handed to the A.D.C. in waiting, who will issue a ticket for their Excellencies. Those who wish to be presented are expected to appear in evening dress, as civilians, and in full dress as officers of the army, navy and militia.

The death of Mrs. Mary E. Whittaker, wife of Wm. Whittaker, occurred Thursday at the family residence, No. 10 Chambers street. Mrs. Whittaker was a native of Stockport, Cheshire, Eng., where she was born 64 years ago. She came to Victoria in 1878 and had been a resident here ever since. In addition to her husband there survives her five sons and four daughters. They are Sam. Whittaker, Mrs. John Irvine, W. H. Whittaker, Mrs. George S. Russell, A. E. Whittaker, Miss F. Whittaker, A. B. Whittaker, Mrs. J. W. Moore, of Nicola, and D. E. Whittaker, of this city.

The conference of employed officers of Young Men's Christian Associations of the Northwest, held in Seattle on Wednesday and Thursday, was most successful. It was attended by W. B. Fisher, secretary of the local branch, and H. W. Northcott, and both report that the sessions were most profitable. Quite a number of instructive papers were read, among the best being one on "How to Conduct a Bible Class," by R. Hutchinson, and "Enlisting and developing workers from among the prominent and influential men of the community," by O. W. Stone. Messrs. Fisher and Northcott returned from the Spout Wednesday.

A shipment of 2,500 pounds of ore from Lepine creek, in the White Horse district, has been made to Spokane, where an experiment is to be made of the best and most economical method of handling the rock. The White Horse Star says: "From tests already made here it is assumed that the values can be better and more cheaply extracted by the cyanide process than by any other. The latest appliance in that direction is known as the Dr. Hendrick cyanide mill, which consists of a agitator and a double electrical arrangement by which the reduction that formerly required a day or two is now accomplished in three hours."

Mr. Patterson has made arrangements with "The Pierrots," two English society entertainers, to give one of their performances at the Dallas hotel, Monday, September 5th, at 8.30 p.m. These artists are returning to the Old Country from Australia, where they have completed a successful tour. They come with much praise from the Australian press. Their entertainment consists of refined recitals and sketches and all the latest songs. The Sydney Mail says: "They are clean, refined, and charmingly amusing." Sydney Morning Herald: "Eminently versatile and refined, bright and humorous. The evening was a sparkling little thing, brimming over with fun and novelty." Brisbane Courier: "Thorough artists."

The little barkentine Ruth, which has been lying in the mill-race at Oakland creek, California, for years, has been purchased by the Western Fuel Company, of Nanaimo and St. Francis. The purpose of that concern in acquiring possession of the vessel is to endeavor to partially relieve the great need of coal barges. "She has been moved from her long resting place to the Howard bunkers, at Oakland, and the work of stripping her will commence immediately. The barkentine Ruth, which has an iron hull, was built in England 44 years ago. While under the British register some years ago, she met with disaster off the coast of Mexico. A towboat went to Guaymas, where she lay disabled, and

towed her to San Francisco, where she was purchased by local parties."

Chief of Police Murchison, of Stevenson, is in the city. Mr. Matheson, fishery inspector on the Fraser, is also here.

W. Williams, the Yates street clothier, has returned from an extended tour of the States. He visited the World's Fair at St. Louis and other Eastern cities.

Mayor Keary, of New Westminster, received a telegram on Friday night from Major Minto, A. D. C. to Governor-General Lord Minto, to the effect that the visit of the vice-regal party to New Westminster to-day would have to be cancelled as the train is over nine hours late.

D. Bosowitz left for Tacoma Friday evening to institute extradition proceedings against J. J. Schmidt, former proprietor of the Imperial, who is being held for the theft of furniture from the hotel. Schmidt's son-in-law, is also under arrest. An effort will be made to extradite both of them.

The Daughters of St. George have removed their lodge room to the Sir William Wallace hall, and on Monday, September 19th, will give an "At Home" to their friends between the hours of 8.30 and 11 o'clock. Music and dancing will be provided and other forms of entertainment will be furnished, assuring a pleasant evening.

Staff-Captain Alice Goodwin, who has just returned from the International Congress, held in London, will address a meeting in the Salvation Army hall on Monday evening at 8 o'clock. The staff-captain will give an account of the gigantic gatherings, where in one meeting alone in the Crystal Palace there were over 70,000 persons gathered.

A quiet wedding was held at Christ Church, Vancouver, at noon on Wednesday, Mr. Samuel Bruce Clement and Miss Charlotte Denis, both of that city, being the contracting parties. The wedding party consisted of Mr. and Mrs. Clement left at 1 o'clock for Victoria and the Sound, and on their return will take up their residence in Vancouver.

August was rather a poor month from a business standpoint in the customs department. The total revenue collected amounted to \$70,244.13, made up as follows: Duties, \$70,206.28; Chinese revenue, \$23, and other revenue \$14.85. The imports for the month are as follows: \$184,428, and free, \$84,852; total, \$269,280. The exports aggregate in value \$49,443, of which \$41,438 represented domestic goods and \$8,005 foreign articles.

Twenty or thirty hunters arrived on Thursday evening's train from up the E. & N. railway, after having spent the first day of the hunting season in the woods. They report that birds are scarce, particularly grouse, and the appearance of their game bags is certainly not encouraging. A number of the party had seven birds, but others, and they were in the majority, had no more than three. Hunters attribute the lack of game to the early start in the shooting that was done before the season opened.

An Indian who arrived here from Masset, Queen Charlotte Islands, a week or so ago, carried with him what he and a number of his tribesmen considered a piece of ambergris. He carried about with him about ten pounds of a white looking substance which he had found on the northern coast of the Northwest. The stuff has been examined, and a number of the party had seen chunks of it until he has grown weary of its appearance. The supposed ambergris is bluish white, but of this fact the Indian is still not convinced.

Rev. Father J. Nicolay, of St. Joseph's church, Esquimalt, accompanied by Rev. Father Stens, left Thursday on the steamer Queen City for Clayoquot to take charge of the Christie Industrial school. Father Nicolay spent 13 years on the West Coast of Vancouver Island, and is conversant with the language and customs of the Indians. His departure is regretted by the parishioners of St. Joseph's church and a large circle of friends in this city and Esquimalt. It is probable that Father Nicolay will return before the close of the year.

Present indications point to an unusually busy term at St. Ann's academy this fall and winter. Already applications for admission have been received from many students residing at different points in British Columbia and Washington. The other day, Miss Catherine Bryne, daughter of Dr. Byrne, ex-mayor of Spokane, has entered St. Ann's academy to study the higher branches of fine arts. Misses Margaret Skinner and Marie Sherwood arrived from Vancouver yesterday, and are enrolled for another term. Miss Nina Priger, of Seattle, came over yesterday for the same purpose.

Rabbi Montague N. A. Cohen, formerly of this city, but who has been pastor of Temple Beth Israel, Tacoma, for the past 12 months, and who was only recently elected for another term, has tendered his resignation to the congregation of Temple Beth Israel, of Sacramento. Rabbi Cohen's resignation comes both as a surprise and a disappointment to the many friends he has won during his stay in this city, all of whom regret to see him depart. "The Sacramento church, whose call he has accepted, has the reputation of possessing the most intellectual congregation west of Chicago. The old temple has recently been sold and a handsome new modern structure is now being built."

Friday evening a conference of Presbyterian ministers of British Columbia, which has been in progress since Tuesday week at Chicago, adjourned. The program, consisting of papers on theological and Biblical subjects was carried through, and a profitable and instructive to all attending. This convention is not an annual event, having been organized last summer in order that the pastors might

meet each other and discuss matters of interest to all. At the final meeting yesterday everyone expressed the pleasure it had given them to meet together to attend the conference, and it was the unanimous opinion of those that an informal meeting during the summer months would be both enjoyable and beneficial.

PROPOSAL TO REPAIR CABBORO BAY WHARF

Mainland Stock for Exhibition Will Likely Be Landed Near the Show Grounds.

Negotiations are in progress between the transportation committee of the British Columbia Agricultural Association and the C. P. R. for the repair of the old wharf at Cabboro Bay in order to allow Mainland stock, entered for the exhibition to be landed there, instead of being brought around to the inner wharf. The proposal is generally considered feasible, and it is understood that Capt. Troup has taken the matter up with other officials. It is therefore probable that the suggestion will be adopted, the wharf repaired and arrangements made to have inbound C. P. R. steamers stop there with all stock of freight for the exhibition.

The advantages of the proposal are too evident to need explanation. Cabboro Bay is only a short distance from the fair grounds, and the road leading from the wharf is reported to be in splendid repair. Therefore if consignments for the show were landed at that point, besides being a great convenience, it would make the saving of considerable time and expense. Heretofore all stock has been taken to the inner wharf, and afterwards driven out to the exhibition grounds. It is not unusual, however, to suppose that the elimination of this difficulty would attract more entries from outside points, and members of the transportation committee are particularly anxious to make a satisfactory arrangement with the C. P. R. if possible.

Not only are members of the local association interested themselves in this matter, but outside associations, recognizing the advantages of the proposal, offer their support. In this connection the following communication from the Delta Agricultural Society is of interest:

Sir:—The members of the Delta Agricultural Society respectfully request your co-operation to petition Capt. Troup that he should be authorized to make arrangements to land the stock at Cabboro Bay, which is close to the fair grounds, as it is a hard, steep, and unsafe to land stock from Victoria streets, a distance of three miles, and Cabboro Bay being only one-half mile from grounds.

Yours, A. DE R. TAYLOR, Secy. Delta Agricultural Society.

Another letter from J. Henderson, secretary of the Chilliwack Agricultural Society, refers to the same question as follows: "I hope we can arrange to land more stock at Cabboro Bay, and that the transportation committee will help us out." Last evening a meeting of the Victoria Amateur Boxing Association took place, when arrangements for the tournament in connection with the exhibition was discussed. There was a good attendance and entries were reported for almost every event included on the programme.

DUTIFUL DAUGHTER'S MISTAKE.

She opened the door of her father's den, but hesitated on the threshold. "Well?" he growled inquiringly. "What's the trouble?" She entered and stood before him with downcast eyes.

"I have a confession to make," she said slowly. "Fire away!" he said. "I guess it's nothing serious." "Oh, but it is," she protested. "It's very serious, indeed. You know George?"

"Well, what about George?" "He's been coming to see me for quite a long time," she said, looking down at her feet. "He's been coming to see me for quite a long time," she said, looking down at her feet.

"I refused," she replied promptly and proudly. "I refused absolutely, and told him that I must ask you for my hand." "The old gentleman?" he asked. "That's all very pretty and creditable," said he, "but far from business-like. It seems to me you might have given your old father the best of it just once, and saved him the cost of a wedding when, just at present, business in the stock market is at a standstill. If he brings the subject up again, just have your hat ready to that you can make a quick trip to the parson and let the old man down easy."—New York Press.

RIFLEMEN IN EAST.

To the Editor:—I beg to notify you that the Victoria team has done well, especially Capt. Major Owen and myself, Lettie Carr and Brayshaw, winning quite a number of money prizes. Capt. Carr was on three occasions within two points of top place, and am pleased to state that I was fortunate enough to get within the magic circle and won out the champion of Ontario. I was also fortunate enough to break all previous records, making in three shoots at 50 yards 102 points out of 105; at 600, 128 points out of 135; at 800, 34 out of 35. I am very pleased to state that with Perry's victory and my own, the British Columbia interest revived and made another British Columbia future. This is the second time in three years I have won. We are going to Ottawa in the morning, and I trust you will hear good things from all members of the Victoria team. All are in good spirits and good training, and I hope to be in the central office, for which a new location may be secured. The silver medal which I won at the rifle club came to grief Wednesday night, and a serious accident was narrowly averted.

WASHING WOOLLEN AND FLEECES, Lovers Dry Soap (in powder) will be found very satisfactory.

PROVINCIAL NEWS.

YMIR.

"On Labor Day, September 5th, the new Catholic church, recently erected in Ymir, is to be dedicated. The exact cost of the church up to this date is \$1,130. It is hoped that the collections on that day will substantially assist in reducing the debt still remaining on the church."—Mirror.

REVELSTOCK.

After the lapse of five or six weeks the mystery attending the disappearance of Anderson, the time-keeper at Clanwilliam, has been cleared up by the finding of the body floating in the lake. It was at first supposed that it was a case of murder, and that the body had been buried in the lake. In order to finally set at rest all suspicion of foul play Dr. Cross, coroner, and Provincial Constable Upper, went to Clanwilliam on Thursday evening and held an inquest. There being no marks on the body other than natural, a verdict of accidental death by drowning was recorded.

PHOENIX.

A number of railway men are of the opinion that when the wreck of the long train that went to destruction on the Phoenix hill near the Oro Denoro mine is cleared away, the remains of two men will be found. It is said that two men were noticed by passersby stealing a ride on the train after it left Hartford Junction. It would have been a simple thing for one of these men to have kicked the angle cock that shut off the air after the train started from the damage he had done. It is actually what caused the wreck and the loss of some \$50,000 in rolling stock to the C. P. R. It will, however, be known until the wreck is fully cleared away.

ASHCROFT.

A Japanese section hand was killed on the railway about six miles east of Ashcroft, a few days ago. He, with several of his countrymen, under Section Ross Thomas, were on a hand-car going east, when they suddenly met a freight train, and the engine of the freight train, backing, his back toward the approaching train. When his feet touched the ground he fell on his back, and the freight train, which was moving at a few feet farther and came to a standstill over the unfortunate Jap. Foreman Thomas called to the other Japs to lift the body of the dead man from about 50 feet away. With them he was unable to move the car before the train was upon them, and they had to leave the unfortunate Jap lying on the tracks. Everything that the engine could do to stop the train was done, but the engine and several cars passed over the unfortunate Jap before the train was stopped.

PHOENIX.

Last week a boiler was installed on the Silver Cloud, one of the high grade chulins in Sklar's camp, which has only been working for a couple of months, but with the best of results. The claim was bonded by James McCroeth, Chas. Johnson, Alex. Robinson and Alex. Smith. The boiler was installed by D. Ross, H. Hallett, A. S. Black and John Nelson, and the work since has shown it to be a property of great promise. The shaft has been drilled 60 feet and spoked out excepting a tier, which runs \$470 per foot. A test shipment will shortly be made.

The Mother Lode is pushing work at its Deadwood camp, and a piece of machinery for the new ore crusher, which recently arrived at the property.

At last week's meeting of the city council a petition was signed by 50 ratepayers and residents, asking that the council make a grant of \$50 per month to the Phoenix general hospital. A unanimous vote was given for the grant, and it was asked for till the end of the year 1904, the amount to apply on the charge for any patients that the city might find it necessary to send to the hospital.

NEW WESTMINSTER.

Lord Minto and Lady Minto will arrive in the Royal City on Saturday afternoon at 5.30 o'clock, and will leave again at 6.30 p.m. Their Excellencies will be accompanied by an address in the city hall, where a short reception will also be given. After the reception they will be taken for a drive over the new bridge. There will be a guard of honor supplied by A and B companies, Sixth B.

In the police court on Wednesday, an important decision was reached in the case of the City of Vancouver vs. the City of Seattle. The case was brought on by a Japanese merchant, for keeping his store open on a night not preceding a holiday. The case was up and argued several days ago, and was left over for consideration, and the magistrate dismissed the case. It was held that it is not within the jurisdiction of the city to finally say when a person may keep his place of business open, and when he must close the same, hence the result. Magistrate Corbould held his finding on the result of a similar case in the Manitoba courts, where Judge Taylor decided in favor of the prosecuting corporation, but on the matter being taken to the full court this decision was reversed.

ROSSLAND.

The inspection of the militia here will probably take place on September 19th, when Colonel Holmes, D.O.C., is expected here to make his annual report on the efficiency of the local corps. It is thought that the ranges will be used as inspecting grounds again, the area available giving ample room to test the usefulness of the militiamen along the coast. The inspection of the training has been directed for the past year or two.

Work will probably start to-day on the installation of the new telephone system for Rossland. The company has a number of poles in storage and these will be put in place as a starter. The company has 250 poles in the city, carrying 118 miles of wire and cable. Practically all of this will be replaced with new material, and a complete new outfit is to be placed in the central office, for which a new location may be secured. The silver medal which I won at the rifle club came to grief Wednesday night, and a serious accident was narrowly averted.

The train was speeding along on time between Castlegar and Smeeth Junction when a point near Waterloo was reached where the track crosses a filled-in trestle. The roadbed sank under the heavy engine and threw almost the whole train off the track. Alex. Dow was on the engine and brought it to a standstill quickly. Frank Rasmussen, express messenger, was shaken up pretty severely, but not injured, and no one was hurt.

GRAND FORKS.

A lot of ore is dumped and 26 freight cars and an engine smashed up as a result of the air brakes not operating on an ore train on the Phoenix branch of the C.P.R. The train, with its 26 cars loaded with ore was coming down "the hill," and three miles from the Emma mine the speed got a little faster than was pleasant and the engineer tried to put on the brakes. Unfortunately he was not working to some defect. The engineer saw the train was going at a terrific speed and realized that at the first curve there would be a derailment. In order to give warning to the train hands he blew a loud blast on the whistle, which had its effect, as all the men jumped from the train. Fortunately no one was injured. The train continued on its wild course and on reaching a high trestle jumped the track and fairly sprang into the air, falling to the bottom, 140 feet below. The preliminary survey in connection with the proposed North Fork extension of the Kettle Valley Railroad Company has reached Lynch creek, 18 miles north of this city. Following the first corps of engineers is a second party, which is making the permanent location of the line. The line is to be completed for 12 miles to the Volcanic and Golden Eagle mines. H. W. Warrington, general superintendent of the Kettle Valley road, states that the survey will be extended north this fall 45 miles to Franklin camp, and that the work of construction will be started early next spring.

KAMLOOPS.

The school trustees have made arrangements to use the old I.O.O.F. hall as temporary quarters for the high school. The premises are now being fitted up for this purpose. The selection of a teacher has not yet been made. On Sunday morning William Coulter died at the Provincial Home, aged 74 years. He was admitted to the home last May from the Kootenay district, where he had acted as cook in the mining camps. He was originally a baker in Toronto and came to this province some years ago.

James Wilson died at the Provincial Home Monday night, aged 85 years. He was a native of Ireland and was admitted to the home in 1901, coming here with several others from the Comox district. He was originally a baker in Toronto and came to this province some years ago.

The annual meeting of the Inland Rod and Gun Club the following officers were elected: J. R. Viana, president; D. J. McDonald, vice-president; L. Gordon, treasurer; B. Gordon, secretary. The object of this club is for the propagation of wild game and fish and to encourage the strict enforcement of the Game act, and also to assist as far as in their power to prevent the destruction of fens and other property.

VANCOUVER.

A reception to Private Perry was discussed at a public meeting held in the rooms of the Tourist Association, when it was decided that the winner of the King's prize at Blaisy should be given a purse of gold. The address was: The vital statistics for the past month were as follows: Births, 50; marriages, 27; deaths, 33 (33 whites and five Orientals).

The fire department had an unusually large number of calls during the past month, but the loss by fire was light. The majority of the calls being to put out bush fires which were threatening buildings. At a congregational meeting of the First Presbyterian church it was decided to extend a call to Rev. Dr. Fraser, of Oakland, Cal., to the pastorate of the church. The call includes an annual salary of \$2,000 a year and a free manse. Rev. Dr. Fraser preached in the First Presbyterian church about six weeks ago, and made a most favorable impression.

Three Indians named Willie Baker, Nerrie Julian and Antoine John, were each fined \$5 and costs by Judge Magistrate Alexander on Thursday morning for shooting grouse out of season. The Indians said they were very sorry, and asked for a reduction in the fine. The magistrate said that the Indians had gone to Bowen Island, and on Tuesday morning shot the grouse, which they had been hunting for some time. They said they had been offered 40 cents apiece for all the grouse they could bring in by a local dealer, and being very poor, they had accepted the offer. Chief Constable Campbell asked the court, under the circumstances, to be as lenient as possible. The magistrate, in imposing sentence, told the Indians that they could shoot grouse to eat, but not to sell, and warned them against breaking laws that had been made for their own benefit.

NELSON.

"Real estate agent's report a very brisk and growing demand for dwellings, furnished or unfurnished," says the News. "This may be due partially to the return of the people who had left their homes for the summer, and partly to the fact that the city is becoming more attractive. They said they had been offered 40 cents apiece for all the grouse they could bring in by a local dealer, and being very poor, they had accepted the offer. Chief Constable Campbell asked the court, under the circumstances, to be as lenient as possible. The magistrate, in imposing sentence, told the Indians that they could shoot grouse to eat, but not to sell, and warned them against breaking laws that had been made for their own benefit."

The city engineer states that the Whitewater flume, which was almost totally destroyed by recent fires, is again in use. Temporary repairs were quickly made so that the flume is again carrying water, but for a certain number of hours each day the water is shut off while permanent repairs are continuing. Thus the flume will soon be in perfect condition again, without its use as a conductor of water being seriously interrupted in the meantime.

FROM HIS DIARY.

Monday—Did not smoke to-day. Feel better without it. Waste of time and money to smoke. Tuesday—Did not smoke to-day. Feel better without it. Wednesday—Did not smoke to-day. Feel better without it. Thursday—Did not smoke to-day. Shall never smoke again. Threw away my pipe and gave away my cigars. Tobacco is a filthy weed. Never felt better in my life. Feel like a new man. Cannot see why I ever smoked. Friday—Not smoking yet. Wish I had kept my pipes for old remembrances. Am feeling lighter. Think digestion out of gear. Saturday—Bought a few cigars to-day from a man who had smuggled them. May

Kootenay Steel Range

Expert Workmanship

The Kootenay Range is made in the largest and best equipped stove foundry in Canada. In this factory a big staff of experts devote their entire time to improving the Ranges, and their greatest skill has been given to the "Kootenay."

It is equipped with many special features not found on any other make of range. You should examine them carefully before buying any other.

Sold by all enterprising dealers. Booklet free.

READY WITTED.

A certain gentleman was once made

the subject of a little pleasantry by

Hugo, in the latter's younger days.

During a performance of "Les Bur-

graves," by Hugo, Dumas saw a man

asleep in the stalls, and wishing to tease

his friend, said:

"There, Hugo, watch the effect of your

verses."

A little nettled, Hugo waited for his

opportunity, and a week later, while

acting a part, he called Dumas's

attention to him.

"Yes," said Dumas, "but that's the

same man who went to sleep the other

night; it has been impossible to wake

him!"
