GEO. S. DE FOREST & SONS

ST. JOHN, N. B.

an eclipse of 3 seconds. In each lens lantern there will be a 100 candle power incandescent electric light. The focal plane of the lights will be 57 feet above the sea, and the lights will be visible :3 nautical miles in clear weather, the observer's eye 15 feet above the sea. If the electric light apparatus should become inoperative, the lights will be fixed white without eclipses and will be less brilliant than the electric lights. Light vessel No 69 has a flush deck, two masts, schooner rigged, and has no bowsprit, she has a smokestack and a fog signal between the masts. At each masthead, under the lens lanterns, there is a circular gallery. The hull is painted red, with the words "Diamond Shoal" in large white figures. During thick or foggy weather a 12-inch steam chime whisele will sound blasts of 5 seconds duration, separated by silent intervals of 55 seconds. The approximate geographical position of the light vessel is lat 35 04 45 N, lon 75 19 20 W, about 5½ nautical miles from easterly point of Outer Diamond Shoal. Cape Hatteras Main Light bearing NW½N (magnetic.)

REPORIS.

Vineyard Haven, Mass, Sept 18—The sch. John Stroup, Capt Richardsen, from Shulee, NS, for New York, arrived at this port today and reports that when approaching Poliock. Rip at about 4 o'clock this morning, the mate, Walter Richardson, a brother of the captain, fell from the spanker boom and was drowned. The vessel's year boat was at once cut clear, and as the man was not able to swim, he sank before he could be rescued. He was 25 years old and a native of Sackville, NB.

confined to the inferior kinds thrust on the market regardless of consequences. At the presen: moment in London Quebec spruce continues in good demand, which the realisations at the recent auction sales sufficiently demonstrate. The dock returns give a full average stock, but the quantities here in the merchants' lists we have every reason to know are particularly light.

The high freights and insurance are having a beneficial effect on the deal market by removing the fears of a heavy import which the summer business was leading up to. The inrush of wood goods all round the coast, it is now understood, will gradually subside with a healthy result on prices.

Berk Cedar Croft, Capt. Ffeet, from Betfast, arrived here yesterday to load for the River Platte.

Tug Right Arm, Capt. Magee, arrived in port yesterday and left again for Boston. The Right Arm is a powerful tug and is used for wrecking purposs. She towed the ship Law Hill from New York to Grindstone Island. The ship was left there Monday morning.

The Right Arm is a powerful fug and is used for wreeking purposs. She towed the ship Law Hill from New York to Grindstone feland. The ship was left there Monday Morning.

The following charters are reported: Schs. Sabrins. Edgewater to Canso, ccal, \$1.25; Annie Bliss, Richmond to St. John, lumber, \$5.50; brig Scud, 300 tens. Port Johnson to Halifax, coal, \$1; schs. Maggie Todd, Edgewater to St. Andrews, coal, 90 cents; W. H. Waters, Perth Amboy to St. John, coal, 90 cents; Viola, Edgewater to Bridgewater, coal, \$1; Beaver, Edgewater to Sydney, coal, \$1. Capt. J. David Horn died Saturday afternoon at Hulifax. Deceased was for many years selling out of provincial ports, and lately was captain of the Pictou ship Gazolle, which he left at Liverpool, G. B., two monhts ago. His son James, his first mate; went to Para in the vessel as captain, and was there only one day when he caught yellow fever and died. Capt. Horn's disease was diabetes. He took a paralytic stroke a year ago. He leaves a family, including three daughters. Deceased was very highly respected in every relation of life.

Steamer Strathdown, Capt. Philip, from Quebec, and Maratha, Capt. Kerr, at Liverpool from Bachingt, N. B., both report lost a portion of deckload of timber during bad weather on the voyage.

Ship Kingsport, Capt. Mulcaby, from Buenos Ayres for St. John, N. B., before repogied returned to former port dismasted, had dragged ashore on Orit: Bank during a gale, and cut away spars. She is seriourly damaged and will probably be a total loss.

John G. Hall & Co. of Boston have chartered the British bark St. Paul, Capt, Jackson, to load 400,000 feet of lumber at Dorchester, N. B., for Buenos Ayres or Rosario. To the former port she will receive \$8.50 per thousand, while if the vessel goes to Rosario she will receive \$8.50 per thousand, while if the vessel goes to Rosario she will read a fully control of the firm of Hulifax.

Bark Belmont of Yarmouth, N. S., which arrived at Tacoma August 21 from Shanghai, made the passage.

A despatch from Pa

Sir-We up-river people have read with much interest all that has been published in regard to the proposed mill for the manufacture of wood pulp, and we cannot but rejoice in the enter-

in contemplation must add greatly to the demand for farm produce, as all employed in or about the mill would have to live and would naturally look up river for their wants in that line.

The lumbermen also would be benefited in the shape of a new market for spruce, while the money coming in om abroad in payment for the manu-So far well and good; but there is people wish to know more about, and which, apparently, has slipped the attention of all interested. I mean in regard to the acids and other refuse which will likely be drained into the river from the mill. I understand the acid used in the manufacture of pulp is very powerful and has destroyed the fish in other rivers and streams where the manufacture has been carried on. If this is true, and if the refuse from the proposed mill is going to kill the salmon, shad, herring and other useful inhabitants of the river waters, it is time to sound the mote of warning before the thing has gone I would, therefore, very respectfully

draw the attention of the city council and of the board of trade to this phase of the question; and would also ask anyone who knows, to give us some facts on the matter through your

Yours, etc., Gagetown, Sept. 17.

THE ODDFELLOWS.

Springfield, III., Sept. 19.—The city is gally decorated today in honor of the members of the sovereign grand lodge, Independent Order of Odd-fellows, which holds its annual section have the most properties from the control of the most properties from the control of the contr sion here this week. Delegates from every state and many from Europe, Canada, Australia and other foreign places are present. The opening ses-sion was held this morning. This afternoon the sovereign grand lodge held a session and a reception was tendered the visiting Rebekhas.

The smell of perfumes is said to prolong life.

Potatoes in Greenland never grow larger than a marble.

Japan has a written history extending over 2,500 years.

Horses succumb to cold quicker than any other animal. When once filled in, a Moslem grave is never reopened on any account. To remove the faintest chance of it thus

being defiled, a cypress tree is planted after every interment, so that the cemetries resemble forests more than anything else. Until the discovery of the gold mines in California, Russia was the greatest gold-producing country, mining about
