MAYOR BULLOCK'S RINK

IN SPLENDID CONDITION

Boys are Enjoying Themselves on the Weldon Lot—Cold Weather Has Made Kool Ice.

The boys of the city and especially those living near Lower Cove are having a great time these days on the open air rink on the Weldon lot. A splendid sheet of ice has been formed and the latest spell of cold weather has put it in perfect condition. Every day and evening the youngsters use the rink to its capacity and enjoy themselves immensely. The idea was first brought forward by the High School boys, who petitioned the Mayor to have the lot flooded by the city to provide them with a free rink. Mayor Bullock considered that it would take too long and might involve too much discussion to put such a matter through the council, and so decided to grant the boys' request at his own expense.

Arrangements were made to have the lot sprinkled and flooded, and since then he has had men engaged frequently keeping the lot in condition. This winter the Mayor, with his own supervision with the assistance of his brother, John F. Bullock.

The Mayor is desirous of the great credit for the display of public spirit, and he is today a popular man with the boys of St. John.

PREPARATIONS FOR THE

RELIGIOUS CENSUS

Arrangements are About Made for Covering the Entire City.

Thursday, January 28th, has been set apart as the day for "House to House Visitation" of the city of St. John. The purpose of the work is to gather accurate information as to where each and every family and individual stands in relation to the several churches of the city. It can readily be seen of what great value such a census will be, both for the church workers and for the people of the city generally. The work has been organized jointly by the St. John Sunday School Association and the Evangelical Alliance, and is thoroughly interdenominational. It has the hearty co-operation of all the Protestant Churches in the city as well as the endorsement of Bishop Casey of the Roman Catholic Church. Plans are being matured to have the work carried out in as thorough and effective manner as possible. Rev. J. E. Ganong, field secretary of the Provincial S. S. Association, has been chosen to superintend the entire work. There is a general committee in charge of which Rev. D. Lang is chairman. For the purpose of visitation the city has been divided according to wards and a supervisor has been appointed for each ward. The supervisors for the various wards are as follows: Sydney—E. W. Rowley; Dalrymple—Andrew Malcolm; Queen's—Alexander Watson; King's—E. M. Sippell; Prince—F. R. Murray; Guy's—R. Hunter Parsons; Wellington—A. H. Patterson; Victoria—W. J. Parks; Dufferin—W. A. Stupler; Lansdowne—Percy Steel; Stanley—L. H. Thorne; Clave—R. Hunter Parsons; Brooks—Norman P. McLeod.

Each supervisor will map out his ward for the visitors, making each pair of visitors responsible for not more than 50 families. The church and Sunday schools are being asked to furnish the staff of visitors, who shall go out two and two in their work of visitation on the day appointed. Cards are being prepared containing the questions to be answered in each case. When the work is completed these cards with the information they contain will be handed to about 200 volunteer visitors who will be required, and the names of these are being handed in to Rev. D. Lang not later than Monday, the 28th inst., by the pastor and S. S. superintendent in each congregation.

It is a noble undertaking, but with an efficient committee and staff of supervisors and visitors, it is hoped that a reliable religious census of the city will be the immediate outcome, and that as an ultimate result the churches and the people will come into closer touch and more systematic and aggressive religious work effected. The visitation idea has been carried out with good results in several cities of the United States, as well as in such Canadian cities as Toronto and Hamilton.

COLDEST WEATHER OF THE

SEASON PREVAILS TODAY

Ten Below Was Recorded Last Night—Wind Makes the Frost Seem Even Sharper

St. John people are today enjoying the coldest snap of the season. Following the extremely mild spell of Thursday night and Friday, the mercury began to fall yesterday afternoon, and kept on going down at such a clip that sometime during the night it reached ten below, which is six degrees colder than anytime this winter. On December 23rd a temperature of four below was recorded, which was the coldest up to last night. At 10 o'clock this forenoon eight below was recorded, and there will be but slight variation through the day.

It was a hard night for people who had little fuel.
