Goodyear Tubes Can't Leak

They Outlast Any Tire

Inner tubes are made to hold air. Those that are made of one thick piece of rubber are apt to be porous. Neither can foreign matter be detected. 5 So the air escapes and your tires run into trouble. Tubes that are colored contain much mineral matter. That heats up under friction and destroys the tube before its time.

Goodvear Inner Tubes are made of thin sheets of pure natural gray rubber. So the slightest flaw is detected and eliminated. Then these perfect sheets are wrapped layer on layer and vulcanized into an inseparable unit. The valve patch, too, is made part of the tube. It is not stuck on. And so our method makes the tube proof against inherent leaks.

14 Per Cent Heavier

Countless tests have proved that Goodyear Laminated Inner Tubes outlast, on the average,

Buy Fewer Tubes No matter what tires you use. get these Goodyear Laminated Tubes and you will buy fewer tubes than in the past. For they outlast any tire that's made. And these leak-proof tubes are sold, remember, at about the prices of ordinary tubes.

Let Goodyear Tubes reveal Goodyear standards to you. Then you will want the famous Goodyear Fortified Tires that embody those standards, too. Any dealer can supply you. If he hasn't them in stock he can get them from our nearby branch.
