Troops Needed for an Advance.

The Daily Mail's Tien Tsin correspondent telegraphing July 5th says:
"The situation is about as bad as it can well be. I only trust that we shall not soon want relieving ourselves. A forward movement is impossible. From 30,000 to 40,000 troops are wanted and there are only 10,000 here. The foreign troops ward movement is impossible. From 30, 000 to 40,000 troops are wanted and there are only 10,000 here. The foreign troops are working well together but it is inconvenient that there is no supreme commander. In some quarters the feeling is "Leb" us rescue Pekin and then clear out in favor of Russia."

"If it is impossible for us to continue this protection, let it be represented to the powers that we must be held blameless for the anger of our people grows with the rising of each sun that sees more and yet more foreigners and soldiers comming to overrun and lay waste our country and slay our people."

Washington, July 11-Aside from the lespatch from Admiral Remey made public by the navy department this morning, here was no news received today by the administration from the representatives of the government in China. Washington, July 11—Admiral Remey, the commander-in-chief of the United States naval forces on the Asiatic station, having arrived in Chinese waters, is in command over the head of Admiral Kempff, whom he ranks. It is believed that his cablegram this morning relating to the landing of the 9th Infantry, has lost a date line, for it is not doubted that the troops were landed at Taku instead of at Che Foo as his message reads. Admiral Kempff has scored another credit through the formal statement by the Chinese government that the bombardment of the forts at Taku, which was done over his protest and without his participation, precipitated the crisis at Pekin.

China's Excuse.

London, July 12, 3.30 a. m.—The Chinese situation again bears a most ominous aspect. Eighteen days ago Sir Robert Hart despatched his last message, declaring that the situation was desperate and since then no word has come from the Europeans in Pekin.

According to the Daily Mail's Shanghai correspondent Li Hung Chang has received an imperial decree ordering his immediate departure for Pekin, presumably to break the news of the Pekin tragedy to the European powers and, in his usual things and accordingly cannot lay the views of the government before the min-isters for foreign affairs of the respective-powers to which they are accredited. Now we take this opoprtunity of going fully into the matter for the information of our representatives aforesaid.

"In the first place there arose in the-provinces of Chih Li and Shantung a kind of rebellious subjects, who had been in the habit of practicing boxing and fencing in their respective villages and at the same time clothing their doings with spiritualistic and strange rites. The ocal authorites failed to take due notice of them at the time, Accordingly the inection spread with astonishing rapidity: Within the space of a month it seemed to make its appearance everywhere and fin-ally even reached the capital itself. Everyone looked upon the movement as super natural and strange and many joined it. Then there were lawless and treacherous persons who sounded the cry of 'Down with Christianity.' About the middle of the fifth moon these persons began to create disturbances without warning. Churches were burned and converts were

killed. The whole city was in a ferment.
A situation was created which could not tended to pave the way for a final lifting of the veil over the recent history of Pelin.

Berlin Has Nothing to Offer.

Berlin, July 11—The government regards the Chinese situation today as virtually unchanged. No authentic news has been received from Pekin and the news from Tien Tsin is, if anything, worse.

According to the Semi-official Post, Emperor William's trip to Norway will last tended to enter the capital for the protection of the legations. The imperial government, having in view the comparative urgency of the occasion, granted the request—an extraordinary mark of courtesy beyond the requirements of intercourse. Over five hundred foreign troops were sent to Pekin. This shows clearly how much care the Chinese exercised in the maintenance of the troops and reoccupied the Chinese east-troops and reoccupied the Chinese the papers here of the tardy action of Japan in sending troops since it is known that the was ready and willing to send them and that Russia raised no objection to her doing so. It is hinted that a difficulty arose as to the manner in which Japan was to be recouped for her heavy outlay. Rumors are current that Japan demands the cession of a Chinese port.

The Russian papers report that the Boxers are ravaging Manchuria and have damaged sixty miles of the railway, threatening Telin and Kirin, while Port Arthur and New Chwang are said to be endangered. Russia therefore has notified the powers of her intention to despatch a large military force to Manchuria.

Berlin, July 11—The government regards visualized to today as virging the Chinese situation today as virging and the casion, grantically unchanged. No authentic neves the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin and the request—an extraordinary mark has been received from Pekin form land th sometimes patrolled the streets everywhere. tian converts. "The powers, thereupon, attempted to reinforce the foreign troops in Pekin, but the reinforcements encountered resistance and defeat at the hands of the insurgents and defeat at the hands of the insurgents on the way and have not yet been able to proceed. The insurgents of the two provinces of Chih Li and Shantung had by this time effected a complete union and could not be separated. The Imperial government was by no means reluctant to issue orders for the entire suppression of

this insurgent element.
"There was a great fear that due protection might not be assured to the legations tion might not be assured to the legations if the anarchists should be driven to extremes, thus bringing on a national calamity. There also was a fear that uprisings might occur in the provinces of Chih Li and Shangtung at the same time with the result that both foreign missionaries, and Chinese converts in the two provinces might fall victims to popular fury. It was therefore absolutely necessary to consider the matter from every point of view. the formal statement by the Chinese government that the bombardment of the forts at Taku, which was done over his protest and without his participation, precipitated the crisis at Pekin.

Quartermaster General Ludington has been making inquiry as to the character of the weather to be expected in that portion of China where hostilities are in progress with a view to ascertaining the needs of the soldiers in the matter of clothing.

Rejorts show that the climate in the fall and winter is even more rigid than the formal statement by the Chinese government had originated at Shanghai and other places.

The minister believed that 20,000 Japan can demanded his surrender of the forts motifying him that failing to receive compliance they would at 2 o'clock the next lay take steps to seize the forts by force. Lo Jung Kwang being bound by the duties of his office to hold the forts, how could he yield to the demand?

this stage and will not materially affect the military programme laid down by the American government. Such forces as we can land in China will be pushed forward with rapidity to Pekin. The only consideration that would induce the administration to relax that programme at any point found be the re-opening of comunication with Minister Conger and his release from any sort of duress or restraint. Possibly now that the Tsung In Yamen is communicating with the outer world it will permit the foreign ministers in Pekin, if they are alive, to do the same. Our government probably will suggest to the Tsung Li Yamen through Minister Wu here that this be done. Much will depend upon the response.
