## FRIENDS ADVISED AGAINS

Sending to Dr. Sproule for Treatment. Said he was a Humbug who would take People's Money and do no good.

DR. SPROULE, B.A.

On I do feel grateful to you for what you have done and also for writing me as you did, for if you had not encouraged me I do not think I would have taken your treatment. The people around here thought that I was running a great risk in sending you money, and advised me not to try any one away from home. They said you were just like the others, that take people's money and give no benefit in return, but how glad I am now that I did not take their advice and I think God directed me to you.

I could not say too much in favor of your treatment and, I would like you to use my name as a testimonial, as it will be a great pleasure for me to help any of my fellow beings. We should not live for ourselves only in this world, and from what you have done for me, I know and believe that you can cure any case of catarrh. May God's blessing ever rest upon you, from your grateful friend,

Her throat was swollen and so badly discased that it had affected the tongue and made speech at times almost impossible and always painful. Her voice also had become harsh and unnatural. About six years before she had had a very bad ulcerated ear, which had not been properly treated and groun which she had never fully recovered; so that whenever a draught of wind struck her it sent a sharp and almost unbearable pain throughout her whole head. There was a constant disagrecable discharge of muous from the head and nose, had this of course aggravated the trouble. Indeed the disease there made it impossible for her to go out into company, as whenever she scame back she suffered for hours from a splitting head.

My Dear Doctor,—I know that you will be wondering about me. I have tried your medicine and proved it to be all right. I have been for over four years suffering with Catarth in different ways. I used to be stopped up in my head with scales and musous discharge, and some times my throat, and could not use a handkerchief any more than twice, and I took cold easily and my head was stuffed up. I used to have head aches between the eyes, and my hearing was directing others where they can get cured.
