FROM ALL OVER THE MARITIME PROVINCES

FREDERICTON

Fredericton, N. B., Nov. 25—Chief of Police McCollum has put a stop to Sunday liquor selling and for the first time in months the lid was on tight yesterday. This was the result of a warning issued by the chief some days ago.

In the Methodist church last evening, Rev. Neil MacLauchlan preached a strong sermon on the evils of dancing.

Miss Flewwelling, a normal school student, is ill at the Victoria Hospital.

Joseph Alexander, of the U. N. B., is much worse today, and only slight hopes are held for his recovery. He was taken ill with typhoid fever last week and was conveyed to the Victoria Hospital on Friday.

The net receipts of the fair held by St. Dunstan's Catholic church congregation at St. Dunstan's hall last week amounted to $2,125. The amount is the largest on record for the church fair, and goes towards the reduction of the debt on the new St. Dunstan's school building on Regent street.

Four inches of snow fell here last night.

Fredericton, N. B., Nov. 26—The annual session of the senate of the University of New Brunswick was concluded here this afternoon, when a conference was held in the Arts building with the various professors.

Six hundred dollars was voted for instruments and equipment. The greater part of this amount is to be expended in the departments of civil, electrical and mechanical engineering.

The senate also discussed the matter of leases of university lands. The opinion was expressed that sufficient revenue was not being obtained from the properties of the college, which are under lease. A committee composed of Judge Barry and Dr. W. C. Crocket of Fredericton, was appointed to consider the matter.

Dr. W. S. Carter presided, and those present were Judge McLeod, Dr. Murray MacLaren, Dr. H. S. Bridges, Dr. Thomas Walker, Dr. W. W. White, and W. H. Harrison, St. John; W. A. Park, Newcastle; and Dr. W. C. Crocket, Dr. C. C. Jones, the chancellor, and Havelock Coy, the registrar.

The financial reports showed gross expenditure of about $29,000 and a surplus of about $1,500, which will be more than taken up by increases in salaries of professors which are to go into effect. The senate granted $200 additional towards the new grandstand at the college field and $75 towards a tennis court for the young women students.

A law course had been inaugurated at the university and there were ten students taking the law lectures. A report was also submitted showing the progress made towards having an agricultural college in connection with the university. A standing committee on finance was appointed composed of Dr. Murray MacLaren, Judge Barry and Dr. W. C. Crocket.

A letter was read from Dr. A. Pierce Crocket, St. John, in which he expressed a wish to donate for five years at least the sum of $100 annually to be competed for by members of the freshman class in Latin and Greek, Chancellor Jones was instructed to write Dr. Crocket and thank him for his generosity.

The senate decided that the scholarship would be known as the William Crocket scholarship in honor of the doctor's father, formerly chief superintendent of education and for many years connected with the work of the university.

Dr. Jones made his annual report and was authorized to secure the services of three outside lecturers to give lectures during the year before the engineering students.

Fredericton, Nov. 27—The young bachelors of Fredericton entertained this evening at a ball held at the Queen Hotel. Upwards of 150 were in attendance, many coming from St. John. The chaperones were Mesdames W. H. Steeves, Hugh Calder, R. W. McLellan, J. C. Allen, A. T. Murray and H. L. Alcorn.

William McVerreach, who was tried before Judge Wilson of the York county court under the speedy trials act on charge of stealing two watches and articles of clothing from Jonah's Hotel, Cross Creek, was found not guilty this afternoon and was discharged. In discharging the accused Judge Wilson said that no proof that McVerreach had committed the alleged theft had been adduced.

The season for big game hunting in New Brunswick will close upon the last day of November and present indications are that the revenue derived from it by the province will be considerably below the average. This is on account of the marked falling off in the number of non-resident sportsmen, particularly those from the United States. The returns will not be in for some weeks.

From all sections comes the story that cow moose are very plentiful but that bull moose are decreasing in numbers. This is generally recognized as an undesirable state of affairs but the remedy is not easily found. An open season for cow moose as far as residents are concerned is suggested and it would not be surprising to see it put into effect.

Joseph F. Alexander, of the junior class, died in the Victoria Hospital this morning after a few days' illness from typhoid fever. He was a son of John L. Alexander, of Fredericton Junction, and was aged twenty-three. He was a bright student, popular with his associates, and his death has occasioned great regret. The body was taken to Fredericton Junction this evening and interment will be made there. A special funeral service was held in the Brunswick street Baptist church this afternoon. Chancellor Jones and other members of the university faculty and fellow students of the deceased attended. A short address was made by Rev. Dr. J. H. MacDonald, pastor of the church, and Chancellor Jones made a few remarks appropriate to the occasion in which he expressed appreciation of the worth of Mr. Alexander as a student. The body was followed to the C. P. R. train by students of the university.

MONCTON

Moncton, Nov. 25—At a meeting of the city council tonight it was decided to widen Church street extension where the street car line is expected to run. The aldermen reported that the Petitcodiac River bridge was in a dangerous looking condition and it was decided to have the city engineer and Structural Superintendent Forbes visit and report on it. The natural gas pipes cross the river on the bridge and if the bridge should fall it would be a serious matter for the citizens of Moncton, in view of the large number now depending on gas for fuel.

It is probable that the I. C. R. will soon be using natural gas in the shops as well as for the cars. Experiments with natural gas have been made to take the place of Pintch gas, or used with it, the result being satisfactory. An agreement has not yet definitely been entered into but documents in the matter have been forwarded to the minister for his approval.

C. W. Price has been appointed chief train dispatcher of the I. C. R. at Moncton in place of H. B. Fleming, recently appointed assistant district superintendent.

Moncton, N. B., Nov. 26—Thomas Best of Lewisville while coming to work in Moncton this morning was struck by an I. C. R. train and nearly killed. He was walking on the track. Apparently he noticed the express coming into Moncton and stepped out of its way but did not notice a freight train eastbound going out of Moncton. He stepped right in front of the freight, and the cowcatcher caught him, throwing him into a ditch. Both trains were stopped and the injured man was picked up unconscious and taken to the home of his brother James Best here.

The management of the Moncton Victoria Hockey Club was considerably surprised this morning to receive a telegram from a member of last year's Victoria team stating that he would play in Moncton this season for $1,200. Word is received here that Tommy Smith, Ras Murphy, Billy Hague, upper Canadian players who were members of the Victoria hockey team last year had signed with the Socials of Halifax for this season.

As a result of the change of the I. C. R. system of accounting several transfers of I. C. R. employes from Moncton are being made including the following:—Walter Morton, Charles Hannigan and Charles Brown to New Glasgow; Fred Sears, J. A. McDonald, Joseph McLure and Loyal Belyea, to Truro; F. J. King, Graham Swetnam and A. R. Thibodeau, to Campbellton; J. J. Belanger, William Walsh and James Stewart, to Levis.

The funeral was held on Sunday afternoon from St. Mathew's Episcopal church, where services were conducted by Rev. W. H. Ivers.

Miss Amy C. Peck returned today from St. John, where she spent the past four weeks.

RACE SUICIDE EVERYWHERE

Birth Rate Going Down in Europe and in United States.

People thought that Germany had but to sit tight and hold on and France, in perhaps a couple of generations, would cease to be a menace. The falling birth rate in France was expected to take care of any danger from her.

But the official statistics of the medical department of the Prussian ministry of the interior that have just been made public shed an entirely new and alarming light, says Health Culture, on the matter as far as Germany is concerned.

So much so that the government has decreed a thorough investigation into the causes that are responsible for the decline in the birth rate and the methods by which it may be restored to normality.

The figures made public show that while in 1875 the births in the German Empire were 42.6 for every 1,000 of the population, in 1910 they had fallen to barely 31 per 1,000. That the conditions were still worse in 1911 may be inferred from the fact that in that year in the kingdom of Prussia there were 34,000 less births than in 1910, 65,000 less than in 1909, and 86,000 less than in 1908.

Last year the deaths exceeded the births in France by almost 35,000. The total number of births in 1911 was 263,000 less than the annual number of births during the second period of the Second Empire.

In Great Britain and during 1910 and 1911 the birth rate came perilously close to the death rate, and it is said on good authority that the current year shows no improvement, but rather the reverse in the condition. From 1876 to 1885 the births to 1,000 of population were 34.2; from 1886 to 1895, 30.9; from 1906 to 1911, 28.6—a sufficiently depressing showing.

The birth rates for the years 1901 and 1911 respectively for the countries named follow, the figures emphasizing the scope and increase of the evil: Holland, 31.1-30.5; Belgium, 31.7-28.8; Norway, 31.6-29.2; Sweden, 29.7-26.4; Finland, 36.1-31.0; Austria, 38.4-36.5.

Space will not allow of quoting figures at length as far as the United States are concerned, but it may be said that since 1880 the increase to the thousand of population in all the states east of the Missouri, and especially in Connecticut, Massachusetts, New Hampshire and Maine, has declined steadily.

JUDGE LINDSEY AND THE BOY

Denver Man Tells Boston Audience How to Handle the Youthful Criminal

Boston, Nov. 25—"Giving the Boy a Square Deal" was the topic of a talk by Judge Ben B. Lindsey, of Denver, given Sunday evening in Ford Hall. The judge said that what is needed is knowledge of how to prepare children to resist evil; how to build character—a duty which falls to the home, the school and the church. Homes often have no chance to do this, so there is even more need in such instances for knowledge of the conditions which affect the lives of children. After reviewing briefly the old common law ideas of England, when boys were hanged for trival offences, the speaker said that it was with great difficulty changes were brought about. He said that his aim is to bring business and society to a recognition of their duties and that then there will be far fewer cases of being forced to commit wrong for self-preservation.

"Even virtues," he said, "are not inherited—they are acquired. So here in these United States we have given the first great square deal to childhood. The danger is that we will go too far the other way. Under the action of the square deal law for children we don't attempt to protect the gunnysack the child may have stolen—we attempt to protect the boy rather than the gunnysack. Of course, there will be mistakes made under the law. That is natural. In the twelve years I have been on the bench I have tried about 15,000 children, and only one of this number got into the penitentiary. That one case was made a great deal of by my opponents, but they forgot the other 14,999 children."

"We ask: Why do boys and men do bad things? Well, these bad things are very often like a disease. They attack people who are exposed and the great disease to which many of them are exposed is poverty. So poverty and crime, looked on as diseases, must be treated as physicians have learned to treat the physical diseases of the body by eliminating the cause. When we make a fight for a square deal for the boy we very often find we have to make a fight for a square deal for the boy's father. We soon find we have a fight on for a square deal for all men and women—a fight with politics and with special privilege. For the troubles of boys are like the troubles of men.

"It's a dangerous thing to feed children mostly on fear, whether in the houme, the school or the Sunday school. Thou shalt not steal!—certainly not—a railroad franchise or a gas franchise any more than a dime. I hope to see the time when it will be considered cruelty to children to keep a child seated in a schoolroom for hours at a desk and forbidden to whistle or to giggle. Remember the child is the most valuable asset of the State."

FREDERICTON LAD'S HAND SHOT AWAY BY COMPANION

Ferdericton, Nov. 26—Bernard Briggs, the eight-year-old son of George Briggs, of Victoria Mills, was accidentally shot yesterday by a gun in the hands of another boy.

Aside from the danger of fatal results from blood poisoning his wound is so serious that it is believed the use of his right hand has been impaired for life.

Young Briggs went out on a shooting trip yesterday with a number of other boys. They were about a mile and a half from home when a boy named George Blizzard, aged about 15 years, discharged his gun at a partridge and accidentally shot the Briggs boy, the discharge blowing away part of the little fellow's right hand.

"Of these 1,013 have come in through the central church, and 275 through the branches"—of which there are four. "In the six revival meetings held the pastor has preached." The church is said now to have "the largest Sunday school in the central part of the city, the largest young people's society and the largest congregations. The total contributions during the five years have amounted to $112,558.69. Of this sum $49 680.81 have been expended for local work, and $62,877.88 for missions and beneficence."
