

Use Goodyear Non-Chip, Rot-Proof Hose

A Few of the Lines We Manufacture

Don't tie up money in hose that begins to need repairs after a *few weeks'* use.

Buy the only dependable, never-mend hose—

GOOD YEAR Water Hose

Built by World's Greatest Hose Experts for Pulp and Paper Mills, Manufacturers, Boiler Rooms, Flushing and Garden Use and All Uses Where Cold Water is Carried

The strongest, longest lasting hose made. Goodyear Hose is built on principles that years of experience have proved most practical. The fabric is cut on right bias to give greatest strength and endurance and to resist expansion and elongation—one of the prevailing faults of common hose.

Only highest grade material used. Rot-proof because specially treated and covered with heavy, durable canvas that can't chip off and expose tube to weather.

Can be furnished with round, half-round or flat wire winding or Marlin wind.

Steam Hose—Air Hose—Suction Hose

We manufacture highest grade hose for every purpose. Used throughout the Dominion. Wherever used, is *saving money*.

All Goodyear products built according to same methods employed by Goodyear Tire &

Rubber Co., Akron, Ohio—one of the best known and most successful rubber goods manufacturers in the United States.
