CLOW'S 60 Colborne-st. BENSLER HOUSE, EXHIBITION VISITORS

TET NASHITH'S ICe. LUNCH, Corner Jarvis and Adelaide-Sts. WITHECK & RALSTON.

It comprises 58 acres, and lies on the east side of "The Annex." It is bounded on the east by the old Yorkville limit, on the west by Huron-street, on the south by Lowther-avenue, and on the north by the Davenport-road, as shown on accompanying diagram. St. George-street, 80 feet wide, is continued northward through its centre. This property, as well as "The Annex," are now being annexed to the City, so that purchasers are sure of sewers, water, gas and other advantages of the City. It is but a short distance from the business centre, and is easily accessible by street cars. Close by are the Queen's Park University, colleges, new Parliament buildings, and our handsomest private residences. It is high and level and has a sandy subsoil. This district is des-

tined to be the choicest residential part of Toronto, with St. George-street as its handsomest avenue.

The property is divided into lots, each having a frontage of 50 feet with a depth of from 140 to 195 feet. The title is under the Torrens' system, making transfers expeditious, inexpensive and absolutely indefeasible. Reasonable building restrictions are imposed, to prevent the erection of inferior houses, business places and terraces.

As wholesale dealers in land, it is in our interests, and it is our policy, to offer our patrons only such investments as are sure to yield large profits.

In March last, a client purchased from us a parcel of land in "The Annex" at \$3,400, paying \$1,000 in cash and giving a mortgage for the bal-ance. We have since resold the parcel at \$4,462. Allowing for interest on the mortgage, the \$1,000 has exactly doubled itself within 5 months.

Another client purchased from us in April last a parcel in "The Annex" at \$3,740, paying \$1,200 in cash and giving a mortgage for the balance. In August we resold this parcel for our client at \$5,100. Allowing for interest on the mortgage, the investment of \$1,200 has within 4 months yielded a profit of \$1,310, or 109 per cent.

Toronto is fast becoming the commercial and social centre of the Dominion. Its growth was never so rapid. At the present time over \$5,000,-000 worth of public works and buildings are projected, and it is estimated that over 3,000 dwelling houses are being erected during the present sea-son. Remember also the prices of land in Toronto are low---they rule about half the prices of land in American cities of equal size.

We now offer the best opportunity to secure a desirable homestead, or to purchase a few lots for investment. Terms easy. First comes gets the choice. For further particulars apply at our office.
