

## CHAP. VI.

Testimonials—Medical, Ministerial, and Miscellaneous.

### VALUABLE MEDICAL TESTIMONY.

We, the undersigned, are of opinion—

I. That a very large portion of human misery, including poverty, disease, and crime, is induced by the use of alcoholic or fermented liquors, as beverages.

II. That the most perfect health is compatible with Total Abstinence from all such intoxicating beverages, whether in the form of ardent spirits, or as wine, beer, ale, porter, cider, &c. &c.

III. That persons accustomed to such drinks, may, with perfect safety, discontinue them entirely, either at once, or gradually, after a short time.

IV. That Total and Universal Abstinence from alcoholic liquors and intoxicating beverages of all sorts, would greatly contribute to the health, the prosperity, the morality, and the happiness of the human race.
