

FARMER'S INSURANCE.

THE AGRICULTURAL MUTUAL ASSURANCE COMPANY OF CANADA.

HEAD OFFICE, - - LONDON, ONTARIO.

Capital, - - \$284,996.67.

The pioneer of cheap Farm Insurance in Canada. The first company that ever attempted successfully to place insurance on ordinary farm property at the rate of twenty-five cents for \$100 per annum.

This old reliable Company continues to take the lead of all others in the amount of business done; it has now, 1st Nov., 1875, nearly 40,000 members, chiefly of the Agricultural class, and is continually increasing.

The affairs of the Company are conducted on the purely mutual plan, by a Board of Directors, who are all themselves Farmers.

Since the formation of the Company over half a million of dollars have been distributed in the payment of losses.

Detached Private residences are taken at liberal rates.

For insurance apply to any of the agents, or address the Manager, London, Ontario.

CUT No. 5

Represents the Wilson Single Thread Machine. We, as manufacturers, having had unprecedented success with our Family and Manufacturing Sewing Machine, and having extensive experience of the wants of every market in the world, have decided to introduce a Single Thread Sewing Machine with capacity sufficient for any kind of work that a First-Class Family Machine is able to perform. We will not hazard our already established character and reputation as manufacturers of first-class machines, but will make our Single Thread Machine another exponent of the character and confidence we now possess.

CUT No. 6

Represents our Heavy Manufacturing Machine, suitable for either cloth or leather. The Cloth Machine has a plain pressure-foot. The Leather Machine has a rolling pressure-foot. The difference in the feet adapts them, in a particular manner, for the performance of either cloth or leather work in the most efficient and durable manner. Its mechanical structure and workmanship is surpassed by none and equalled by few. It is also japanned and ornamented in first-class style. Tailors and shoemakers, also manufacturers of clothing and boots and shoes, would do well to examine and test our machine before purchasing any other. We are confident that a thorough test will satisfy all who are capable of judging that our machine is the best and cheapest in the market.
