

BUTTER

W

WE WANT every pound of Fresh Dairy Butter that Manitoba can produce from now on. We will allow the highest price (quality considered) that can be made by any Wholesale Commission House in the trade here. We have a big daily consumption to supply in filling orders for customers in this city, and also lumber and railway construction camps north, south, east and west of this big centre. We also have a special advantage over all other commission houses, by having a large demand for our own well-known meats; and customers at country points give us the preference, owing to the fact of our being able to fill complete orders for Butter, Cheese, Eggs and Meats. We can sell your consignments promptly, as we give this department special attention.

CAPITAL AND LABOR

New York, Feb. 10.—The first meeting of the legislative committee of the thirty-six appointed members of the National Civic Federation to arbitrate labor troubles was held today with Senator Hanna in the chair. The subject of the gathering was to receive report on a working plan of means by which strikes, lockouts and other forms of disputes between capitalists and the laboring class may be settled.

This plan was presented by a sub-committee. In the form of a set of laws which provide that the members of the legislative committee of the federation shall appoint a committee on conciliation to consist of two members, three of whom shall be selected from each group of the legislative committee representing capital, labor and the general public, whose duty it shall be at the request of the chairman on information of a threatened strike or lockout of more than local magnitude, to use its good offices in restoring harmonious relations, supporting its action to the legislative committee. Should the efforts of the conciliation committee prove ineffective and should both parties to the dispute desire the service of the legislative committee, it is directed that they may be invited to select two employers and two wage-earners from the legislative committee to serve as an arbitration board.

Should the four find it necessary to appoint an umpire to finally decide the dispute, they may select a fifth member from the division representing the public. Should a controversy seem of such magnitude as to justify such action, the officers of the legislative committee shall be authorized to call a meeting of the entire legislative committee to consider the situation and take such action as may in its judgment be required. The legislative committee may appoint an auxiliary committee to deal with local disturbances, the rules governing the same to be in harmony with the general purpose of the industrial department.

At the close of the meeting, Senator Hanna said: "The meeting was very satisfactory. Thirty out of the thirty-six members were present and the spirit displayed was splendid. We feel delighted with the results of our efforts toward utter harmony between capital and labor."

Among those who attended the meeting were: Senator Hanna, Charles H. Bliss, Oscar Straus, Chas. Francis Adams, of Boston; Archbishop Ireland, Bishop Potter, Chas. W. Elliott, president of Harvard University, John G. Milburn, of Buffalo; Chas. J. Bonaparte, of Baltimore; Chas. A. Mace, H. H. Vreeland, Marcus Marks, Jr., A. Chambers, Wm. Fisher, Saml. Comers, president of the American Federation of Labor; John Mitchell, president of the United Mine Workers of America; Frank P. Stearns, grandmaster of the Brotherhood of Locomotive Firemen and Theodore Shaffer, president of the Amalgamated association.

John A. Pillow, head of The Pillsbury Manufacturing Company Ltd., of Montreal, manufacturer of milk, horsehoes, bolts, etc., died in Montreal on Sunday afternoon.

The Dominion government, with a view to encouraging the manufacture of several articles in Canada, has placed a number of materials used as the free import list. These articles which will be admitted free when imported by manufacturers for use in their factories, are as follows: Hemp bleaching compound for the manufacture of rope, silver tubing for the manufacture of cutlery, yarn of jute, flax or hemp, for the manufacture of iron and steel castings, the rough for the manufacture of axes and hand shears. All articles used in the construction of iron-ore mines has also been included. An order-in-council has also been passed providing for the construction of iron-ore mines. The tariff was passed last session for the free entry of such machinery and structural iron and steel as the subject of this order is to place the Canadian manufacturer of this article in as good a position as his foreign competitors.
