(Phone in house.) 0-5-12-10

have reached the lowest point for the present.

The market for butter has been fairly steady throughout the week, with sales being made freely at about 56c a lb., with very little money being made for shipment out of town. Dealers, however, who have managed to clean up their stocks pretty well are looking for still lower prices in the near future, and as receipts are increasing rapidly, and will soon be more than the trade can handle.

Dr. Bell's Veterinary Medical Wonder cures inflammation of lungs, bowels and kidneys. The most wonderful medicine used in every country. Write for a free trial 8 bottle. This offer only good 7 to 6 days. Limited to six bottles.

GOSSIP

AYRSHIRE AND CLYDES IN DEMAND

After having spent a very busy season in the old land, the New York Ayrshire Stock Farm, Howick, Que., writes that he has just landed a fresh importation of about 40 head of fine Ayrshire cattle, 12 of the choicest bulls from the best herds in Scotland, such as Osborne's, Auchenbraun's, Netherhall, Hargrove's, Barr of Holmhead and Mitchell of Lochfergus, all fit for service. Also in females, cows, 3 years old, 2 year olds and 20 choice 1 year old heifers. Also a few Leicester sheep and large Yorkshire pigs.

Mr. Ness states that it is something wonderful the demand Scotland has been and is experiencing for Clydesdale horses and Ayrshire cattle from all countries. Good female Clydes are very hard to get and Ayrshire cows and calves are in demand are held at figures almost impossible to touch. With the commotion on both sides of the water Mr. Ness feels sure that there are prosperous times ahead for good stock breeders.

FRUIT TREE SPRAYS—The apple scab

and codling moth cause more injury and loss to the apple in Ontario than any other pest affecting the fruit industry. Apple growers are coming to recognize this fact and are putting into practice the best means of combating these foes. In this connection a pamphlet entitled "Fruit Tree Sprays and how to use them," a spray book published by the Niagara Branch Spraying Co., contains articles which are timely and should be of much use to all fruit growers, who can obtain the same free of charge on application to the Company.

Mr. Norman Michener of Red Deer, Alta.,

has been lately purchasing a carload or two of pure bred Holstein cattle for the west. Mr. Michener does not hesitate to pay high prices for good animals, having paid \$200 to \$300 in some instances. This is his second trip east, his first trip having proved very successful. Mr. Michener intends exhibiting some of the stock he has purchased at practically all the leading western fairs next fall.
