Haying Waits For No Man

TO GUARD against possible loss be prepared to mow, rake, ted and load your crop from hayfield or meadow at the proper moment.

For years you have been cheerfully complying with Government request to save materials by repairing your old machines rather than making replacements. Now that the need for this has passed, would it not be real economy to buy new machines and be assured of uninterrupted service at a time when a break-down would mean serious embarrassment and loss.

Deering and McCormick Mowers, Rakes and Tedders and International Side Delivery Rakes and Loaders

are doing satisfactory work on thousands of farms. The combined side-delivery rake and tedder is a winner. International loaders lift hay 10 feet without injury to blossoms and leaves. Sweep rakes, stackers and combined sweep rakes and stackers clean up big fields in a hurry, making haying time paying time.

And hand in hand with every haying tool goes service. The local agent is always in close touch with one of our 16 branch houses, whose resources and facilities are at your service.

Opfer Got \$160 for 48 Hours Work

In every locality there's plenty to do. You'll be busy 7 to 10 months in the year. The income is from \$15 to \$20 a day, the expense little. Mr. Opfer is only one of many of our friends who are making that much and more with a

"A Perfect Trench at One Cut" BUCKEYE Traction Ditcher

With one helper you can dig more ditches each day than can fifteen men by hand. You make a perfect ditch at one cut. Farmers want traction ditching—it's better, can be done quicker and at less cost. When they know you have one, you'll be kept busy; you won't have to look for work, it will come to you. Many Buckeye owners have six to twelve months' work ahead. \$15 to \$20 daily is the net average earnings of hundreds of Buckeye owners. Here is a proposition that will give you a standing and make you a big profit each year.

Send for Free Book

A book of solid facts, tells how others are coining money, how they get the work, how much it costs to do it and all the details of operating.

Our service department is at your call to get you started and keep you going, to tell you the prices to charge and how to make big money with a BUCKEYE. Send now for this book, you can make big money too.

READ THIS LETTER
I excavated a trench 16,000 feet long, average depth 25 inches. I received 10¢ per lineal foot, or \$160 for the job, and operated the machine just 48 hours. The manager of that company had a length of 2,200 feet which he said would hold me down for the day. I just laughed at him. I tightened the governor to grain speed and in 2½ hours had the 2,200 feet finished. Average of 800 feet per hour at 10¢ per foot is \$8.00 per hour. JOHN C. OPFER, Sandusky, O.

National Railways

Are You Thinking of Going to Western Canada?

Wonderful opportunities await the Business Farmer or the Merchant who is seeking wider scope and Greater Rewards for his energy, in Western Canada, along the lines of the Canadian National Railways.

Information of value to intending settlers and to others interested is given in Free book, "Selected Farms." And comfortable, through trains from Ontario and Eastern Canada traversing Lake Superior's Hinterland, and the Great Clay Belt of New Ontario, afford an intensely scenic, and the logical route for Canadians. Enquire—nearest Canadian National Railways agent, or write
