THIS IS FOR YOU TO READ

AN AMERICAN WRITER SAYS:—"The philosophy of trade forces prices to correspond with quality. No man can buy for a dollar that which is worth two dollars, nor can one man make for a dollar what another (an older man) cannot produce for twice as much money. There are prices and prices, and qualities and qualities, and every time they correspond. My advice to buyers, whether they buy washtubs or steamships, is to purchase of long-established houses with pronounced reputation. The manufacturer who has one price and maintains it, gives positive evidence of the standard value of his goods. It is worth something to know what you are going to get."

This is Sensible Advice. Bear it in mind when purchasing Engines, Threshers, Hay Presses, Clover Mills, etc., and call on or write to,

Victoria Hall, Winnipeg, Nov. 17, 1891. We, the undersigned, saw Mr. McCrossan's small Washing Machine working, and testify that it does grand, good work, making the clothes ready in ten minutes for boiling, and with the second suds so white and clean that they did not require boiling, and a small child can work it, and we will recommend it to our friends. The washing consisted of white and colored shirts, collars and cuffs, aprons, night dresses, tablecloths, table napkins, handkerchiefs, waists, towels, etc.
