"Clarke's" Mitts

Clarke's mitts are made from the best hides and skins, tanned in our own tannery and finished in our own factory.

Our celebrated "Horsehide" mitts are made from genuine horsehide—not cowhide, which is found in most mitts, and called horsehide. This mitt is soft, tough, pliable, neat-fitting, warm, heat and wet-proof, and will stand more hard wear than any other mitt made.

We also make mitts from Peccary hog, which is one of the toughest leathers that it is possible to tan; muleskin, buck, elk, sheep, and all other leathers suitable for mitts. Every mitt is branded, so that you know exactly what you are buying.

Sold by enterprising dealers everywhere.

Save the Middleman's Profit

Buy Direct at Wholesale Prices: Coiled Spring Fencing and Wire, Farm Gates, Ornamental Gates and Fencing, Field Fencing Machines and Supplies.

Many successful concerns of the United States have already demonstrated that the middleman is unnecessary in the Wire Fence Business. We have also crossed the rubicon, and henceforth we too will give the farmer the benefit of manufacturer's prices, and thereby enable him to purchase fencing in much greater quantities.

Briefly, our decision is to deal strictly for cash, at close prices, avoiding credits and bad debts, cutting out the large commission of the middleman, the expense of travelers, bookkeeping, etc.

Absolutely fair, honest dealing, and an absolute guarantee of quality is our motto. We have, during the past six years, established a wire-fencing business second to no other in Canada. We have our reputation to maintain, and shall maintain it under all circumstances.

Our facilities are such that all orders, small or large, will receive careful attention and prompt shipment. We want your trade. We want to demonstrate to you personally how well and how quickly we can serve you, and how much we can save for you. We pay freight on all orders over 50 lbs. in weight, to Western Ontario ports. Our large catalogue, also terms, prices and complete information for ordering will be sent free on request.

THE FARMERS' MFG. AND SUPPLY CO., Limited,

Capitalization, \$100,000. Shares, \$20.

Farmers, consider your own interest and become a shareholder in this practical co-operative company.

We handle implements of all kinds, stoves, harness, twine, cutters, robes, blankets, furniture, windmills, pumps, wire fence, etc., but do not handle groceries, dry goods, boots and shoes, or any perishable goods.

We have our own factory where we manufacture the Oxford Cream Separator, and we intend to manufacture other lines of implements also, and from this source a good profit will be made for our shareholders.

We have already a store in Durham and Galt, and are opening in Millbank and Paris in a few weeks—also other places. This is for the benefit of shareholders who can see what they are buying. The shares are \$20 each—and no shareholder can secure more than five—consequently no one will get control of stock.

You should become a shareholder at once and save from 15 to 40% in buying your goods.
