AUTOMATIC SEED GRAIN PICKLER

For the Prevention of Smut Germs, etc.

(Patented Jan. 17th, 1911)

The fastest and most economical Grain Pickler on the market.

This Seed Grain Pickler is a self-operating machine, supplying its own power by the force of the grain as it leaves the hopper, falling on the turbine situated in the lower hopper, causing a quick revolution of the turbine.

Cut No. 1 is the complete machine. Cut No. 2 is the turbine and sprayer and lower hopper.

The pipe, which is shown in the centre of the hopper in cut No. 2, delivers the liquid to the interior of the turbine, and it is then forced by gravity to pass through openings in the bottom outer edge, spraying the grain.

Full capacity: Wheat, 135 bushels per hour; peas, 115 bushels per hour; barley, 100 bushels per hour; oats, 90 bushels per hour, and other grain accordingly, but can be regulated to lessen the capacity as required. The machine can also be used for mixing grain.

We guarantee this machine to give perfect satisfaction or money refunded. Prices on application.

Directions for using.—Use 16 ozs. of liquid formaldehyde to 36 gals. of water, and thoroughly moisten the grain with the solution. Oats, barley and millet will require more water than wheat or peas. The best method is to apply it at night. Throw the grain in a heap, cover with a blanket, and bag in the morning. This method gives the gas a chance to penetrate the grain. Manufactured by

SEE AND TRY A DE LAVAL CREAM SEPARATOR

Be Your Own Judge

We cannot believe that there is a sensible man living who would purchase any other than a DE LAVAL Cream Separator for his own use if he would but SEE and TRY an improved DE LAVAL machine before buying.

It is a fact that 99% of all separator buyers who do SEE and TRY a DE LAVAL machine before buying purchase the DE LAVAL and will have no other separator. The 1% who do not buy the DE LAVAL are those who allow themselves to be influenced by something other than real genuine separator merit.

Every responsible person who wishes it may have the Free Trial of a DE LAVAL machine at his own home without advance payment or any obligation whatsoever.

Simply ask the DE LAVAL agent in your nearest town or write direct to the nearest DE LAVAL office.

DE LAVAL DAIRY SUPPLY CO., LIMITED

173 William St., MONTREAL

128 James St., WINNIPEG

Our sole business is the manufacture of Spramotors

That's the big reason why you only hear of **Spramotors** and ordinary spraying outfits now-a-days. The supremacy of the **Spramotor** in every class is unquestionable. It would be marvellous if we couldn't produce more efficient, economical and durable machines than our competitors—since they look on the manufacture of spraying outfits as a side line—while we have concentrated our capital, energies and brains on the perfecting of **Spramotors** for 17 years.

It does not matter what your spraying needs may be, there's a **Spramotor** specifically built for your purpose—a machine that will do more and better work than any other spraying outfit in its class—a machine that will give you

endless satisfaction, because it is built to endure.

Prices range from \$6.00 to \$350.00.

State requirements, and we will forward interesting facts without placing you under obligation to buy.

SPRAMOTOR LTD., 1562 King St., London, Can.
