THE GLOW OF COMFORT

The glow of comfort, warmth and cheer that you like to exist in your home on even the coldest and stormiest days of Winter will always be with you if you have a Pease Economy Hot Water heating system.

With a Pease Hot Water Boiler there are no Cold rooms—no drafty halls—no frigid bathrooms.

Let your wife and children be comfortable, happy and free from sickness and cold by installing the best heating system possible, keeping your home at an even temperature through the coldest weather. This means

Pease "ECONOMY" BOILERS and RADIATORS

"Pays for itself by the coal it saves."

Pease Hot Water Boilers with Pease Radiators, give greater warmth, and distribute it more evenly, penetrating every nook and corner. The water surfaces are so arranged that a constant flow of hot water is passing through the system all the time—also the water is heated quickly, utilizing every unit of heat possible from the Coal.

Because of this quickness in heating, Pease Boilers cost less to operate, burn less fuel, and are very easily managed.

For over Thirty-six years the Pease Foundry Company have made a study of heating systems, and have manufactured heating systems exclusively.

Now is the time to get in touch with your Steam-fitter and arrange to have a Pease Boiler installed in your home as early as possible, when the best work can be done.

Houses sell better when heated with a Pease System.

Let our Engineering department solve your heating problems free of charge, we are glad to have you write us and to give you any help possible. Write for free booklet to-day.

What Shall Your Barn Roof Be?

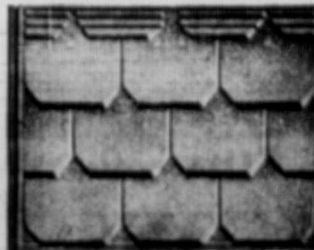

CORRUGATED IRON or

The "Eastlake"

The strangest result of the war's effect on Metallic Building Materials is that we can now supply enough Eastlake Shingles to cover a roof CHEAPER THAN THE CORRUGATED.

A corrugated roof is very good, BUT the galvanized Eastlake is VERY MUCH BETTER.

NOT A NAIL
TO BE SEEN
ALL THE
HEADS ARE
COVERED
UP

STILL LEADS
AS THE
FINEST ROOF
FOR A
BARN, SHED
OR HOUSE

Nobody knows how long they will last

We've been making them for over 30 years and

None of them are worn out yet.

Don't buy the building materials you need until you know the cost for METALLIC roof and sides.

WE MAKE A VERY FINE BARN VENTILATOR.
BEAUTIFUL METALLIC CEILING DESIGNS, ETC.
