**DIRECT LEGISLATION**

The Initiative and Referendum will put into the hands of the people the power to make their own laws. It will bring to an end the graft that lowers the standard of our public life. It will enable the people to veto unjust laws that are passed by our legislators. Some persons say that it is not safe to entrust law making powers to the common people. But if the common people can do any worse than their representatives have been doing since the world began then they should not even have a vote. The more power the people have, the less power will the politicians and corporations have. Direct Legislation will put a loaded gun into the hands of the people and the era of misrule will end.
