

### No. 241 Two-knee Bobsleighs

**T**HESE meet a demand for a lighter and lower set than we have heretofore been supplying.

#### WOODWORK

Same description as No. 242, but 20 inches from ground to top of bolster.

### No. 242 Three-knee Bobsleighs

#### WOODWORK

Choicest second-growth stock throughout; runners have special bend, made to go through snow lightly; height from top of bolster to ground, 21½ inches; size of knee at shoulder, 1 x 2.

#### IRONWORK

All braces, T's, etc., are made extra strong and serviceable.

#### PAINTING

Carmine, nicely striped.

#### SHAFTS

We can supply bobs with or without shafts, as ordered. When shafts are ordered we supply them as illustrated above. These are made very substantial and of the choicest material.

**IMPORTANT NOTE**—Quoted regularly without shafts or pole. Supplied regularly to fit a body 38 inches wide over all.
