

TURK CORDON AROUND LEBANON HAS SHUT OFF FOOD SUPPLIES

Half the Christians and Druse Tribesmen in the Zone Died of Starvation.

A despatch from London says: Information received from authoritative quarters, says the Reuter Telegram Company, shows that the Turks have surrounded the entire region of Lebanon with a military cordon, thus preventing any food from getting through, with the result that about half the Christians and Druse tribesmen in the zone have died of starvation. Syria and Palestine have been devastated and the olive and orange gardens ruined. Large numbers of the most illustrious Arab families have been deported.

BUT ONE REASON FOR MANIFESTO

Germany Intends to Sink All Hospital Ships Encountered.

A despatch from London says: An editorial in the Times says: "Signs of increased ruthlessness and intensity of the German submarine campaign accumulate. There can be only one reason for the manifesto of the German Government with respect to the hospital ships which the Foreign Office made public recently. It has all the familiar marks of a German document designed to prepare the way for inhuman deeds. It is based on the lie that British hospital ships have been used for transport of munitions and troops.

"The sinking of hospital ships by German submarines is, of course, no new outrage. There have been several flagrant attacks on Russian Red Cross Vessels in the Black Sea, and on our own hospital ships and those of the French. Certainly we owed the comparative immunity in home waters more to measures of precaution than to any forbearance of the enemy. The fate of the Britannic and Braemar Castle, both sunk in the Aegean in November, proves that well enough, but the Admiralty is probably right in saying that the new German manifesto means that the German Government intend to attempt to add other and more unappealing crimes against the law of humanity to the long list. The most recent of those crimes is among the worst. On Saturday during a heavy easterly gale the Artist, a British steamer, was torpedoed 48 miles from land. Of the crew, who were forced into open boats utterly without means of reaching land or succor, sixteen survived. In this case, too, the Admiralty does not mince words. It says: 'Those who perished in those three days of bitter exposure were murdered.'

IRELAND PROSPEROUS IN EVERY DIRECTION

A despatch from London says: Robert Colvill, president, at the meeting of the Bank of Ireland in Dublin, said that trade in all departments of Ireland's industrial life was extraordinarily active. It was difficult to realize in this favored island we were in the middle of the third year of the great war. The flax industry in the North was prosperous. Exports of Irish linen the past year were 22,000,000 more in value than the preceding year. Shipbuilding and agriculture were prosperous. The prices of cattle, horses and livestock were extraordinarily high. The price of oats, barley and wheat were more than double those of normal years.

POTATOES IN AUSTRIA SCARCE AS GOLD PIECES

A despatch from Amsterdam says: The Vienna Arbeiter Zeitung declared on Sunday that the cold of the previous nine days has shown an intensity that no one expected. The harvest is half frozen. Frost is restricting the provisioning of markets, causing an increase in the difficulties of housewives. The journal says: "Potatoes, unfortunately, belong to the treasures. How much acuteness people apply to obtain this food despised in peace time not infrequently, is shown when one reads of some well-off woman exchanging a beautiful dress for two hundredweight of potatoes. If the cold continues potatoes will be sought like gold pieces."
