

# WILD STORMS ARE RAGING

## Europe and Eastern America Suffer From Bad Weather.

### Many Vessels Are Wrecked and Sailors' Lives Lost.

LONDON, Feb. 3.—The recent gales have been succeeded by heavy snow-storms in western Europe and the shipping along the coast of Spain has suffered considerable damage. Forty lives are reported to have been lost in shipwrecks on the Italian coast. Several persons were killed by avalanches in Italy, rivers there have overflowed their banks, a score of bridges have been broken and many towns are blocked by the snow. A village near Verona has been wrecked by the storm and certain districts adjacent to Rome have been flooded. There is three feet of snow at Turin and Milan.

A German bark stranded on St. Marin rock off the Sicily islands. There has been considerable minor damage to shipping on the Thames at London.

PARIS, Feb. 3.—The heaviest snow-storm of the winter commenced here early yesterday afternoon and continued until dark, covering the streets of the city to a depth of several inches, seriously impeding traffic and forcing the electric street cars to suspend service. The snowstorms continue at many points in the province, especially in the south and along the Riviera. The carnival at Cannes, which should have commenced yesterday, has been postponed on account of the weather. The violent gales prevailing along the coast of France have caused numbers of minor shipping casualties. Much snow has fallen at Madrid and elsewhere in Spain, accompanied by great cold.

The Alps in the neighborhood of the Simplon are covered with snow to the depth of seven feet, and many Alpine villages have been completely isolated.

LONDON, Feb. 3.—Reports of damage caused by the wind and snow storms on the continent and in Great Britain continue to be received. Carriage and street car traffic in Madrid has been stopped, and railroad trains are delayed. Some of the towns in Northern Spain are isolated and fruit trees have been destroyed.

In Switzerland many villages are cut off from communication. Telegraphic communication with Italy is interrupted. There is now more snow in Venice than at any time during the past 25 years. The river Tiber rose 35 feet. The lower portion of Rome is flooded, as well as the Forum, the Pantheon and the temple of Vesta. The water of the Tiber is now receding.

Several more wrecks off the British and French coasts are reported, and the crews of some of these vessels have been lost. Numerous ships are overdue.

NEW YORK, Feb. 3.—The gale which has been sweeping the coasts of Long Island and New Jersey for more than 24 hours and continues with unabated force tonight, has brought death and disaster to sailors and their craft. Several bodies have been washed ashore at the eastern end of Long Island.

Wreckage strewn the shore in the vicinity of Bellport, L. I., life saving station, and one body came ashore east of this station. One barge was thrashing about this afternoon near the Forge River station. The finding of two other bodies was reported later from the same point.

The crew of the American merchantman Scheppe, which went ashore on Long Beach early this morning are still on the vessel and all efforts on the part of the life savers have been unavailing.

The crews of the seagoing tugs John E. Derwick and E. S. Atwood, which were sunk on Sunday afternoon, had a narrow escape. They were rescued by the German steamer Barcelona. The tugs were absolutely helpless and gradually sinking when the Barcelona hove in sight and took the half frozen crews aboard. Within half an hour after this the two tugs went to the bottom with the damage of the men. The storms in the north and west parts of the state have played havoc with the schedule of through trains due to arrive at the Grand Central station. The Adirapack express, which was due at 3:55 o'clock this morning, has not yet arrived at a late hour. Other trains were similarly delayed. The delay has been caused north and west of Utica.

OGDENSBURG, N. Y., Feb. 3.—Two feet of snow has fallen here, and the prevailing high wind has drifted it badly. Regular trains on both the New York Central and Rutland railroads have been abandoned. Street cars are unable to move, and business is almost at a standstill.

BOSTON, Feb. 3.—The gale of last night and today caused much damage to shipping along the New England coast.

PHILADELPHIA, Feb. 3.—The wind storm which began yesterday afternoon, and which reached a velocity of 80 miles along the southern New Jersey coast and in the vicinity of Delaware Breakwater, has greatly diminished and tonight is blowing at the rate of about 25 miles and hour. Reports from South Jersey coast and Delaware river points indicate that vessels that were exposed to the gale weathered the storm fairly well. Several vessels are reported ashore.

LITTLE FALLS, Feb. 3.—The great storm of the year is raging in the Mohawk Valley. The country roads are

blocked, and no mails have been received from surrounding places. Eastbound through trains on the New York Central and West Shore roads are behind. No trains are running on the Little Falls and Dodgeville railway.

MONTREAL, Feb. 3.—The provinces of Ontario and Quebec are field up by the biggest snow storm and blizzard of years. Railway traffic is generally suspended. The few trains being operated are hours behind time.

### COPPER KEEPS UP.

Price Advanced Quite Sharply on New York Market.

NEW YORK, Jan. 31.—Copper is still the star feature in the metal trade. Prices were advanced about three-fourths of a cent, and it was said that no considerable quantity could be obtained for less than 13 cents for forward delivery. At the same time the quoted range yesterday was \$12.62 1/2 and \$12.87 1/2 for Lake, \$12.37 1/2 and \$12.50 for electrolytic and \$12.25 for casting. The London market was much higher at one time during the day, the advance amounting to £3 1/8 6d, but there was a reaction of £1 1/2 that spot closed at £54 5d and futures at £54 7s 6d.

Tin was about one-half cent higher here, with spot closing at \$23.50 and \$24, and London closed with a net gain of 2s 6d, with spot at £106 15s and futures at £103 10s.

Lead was quiet but steady and unchanged at New York at \$4.10, but at London prices were advanced 1/2d to £10 17s 6d. Spelter was two and one-half points lower, at \$4.25, but London was unchanged at £17 2s 6d.

### COPPER GETS LIVELY.

Good Business Done and Sharp Advance in Price.

NEW YORK, Feb. 1.—There was an excited copper market yesterday. At the metal exchange lots of from 100,000 to 2,000,000 pounds were bid for and offered, but no large sales were officially reported, though a considerable business was done by private deals.

One seller offered 2,000,000 pounds of electrolytic at \$13, but the best bid was \$12.75. Lake closed with spot quoted at \$12.75@12.85, electrolytic at \$12.75@13 and casting at \$12.25@12.37 1/2. Lake for spot for July delivery was offered at \$13.25, with \$12.75 bid, and electrolytic spot for July was offered at \$13, with \$12.75 bid, and for casting for February delivery \$12.12 1/2 was bid, with \$12.37 1/2 asked. The London market for copper was 15s higher, closing with spot and futures at £55.

Tin at New York was steady. Spot closed at \$23.90@24.10. At London prices were 2s 5d higher, closing with spot at £109 and futures at £105 10s. Lead was unchanged at \$4.10. Spelter was 5s higher at £11 2s 6d. Spelter was easy, but unchanged here at \$4.25. London was 5s higher at £17 7s 6d.

### THE METAL MARKET.

Prices in New York—Slump in Amalgamated Copper.

NEW YORK, Feb. 3.—Copper barely steady, 13 1/2 cents. Lead steady. Best silver 55 1/8. Mexican dollars 44 1/4.

LONDON, Feb. 3.—Close, lead £11 2s 6d.

NEW YORK, Jan. 3.—Close, Amalgamated Copper 75 1/2. The dealings in Amalgamated Copper were on an enormous scale, the number of shares sold being the largest for a single day in the history of the stock. It was under pressure throughout, with occasional rallies, and late in the day fell more than three points under Saturday's closing, with a net loss of 2 7/8. Profit taking was an important element in the weakness of the stock, but there was a disposition to discredit recent rumors of a combination with other copper producers. The weakness of the stock did not affect the early rise in the unconsolidated, but its depressing influence gained force later in the day.

### FIRE IN A MINE.

Two Coal Miners in Colorado Lose Their Lives.

DENVER, Col., Feb. 3.—A special to the News from Cerrillos, N. M., says: A fire at the Cook and White coal mine at Madrid, operated by the Colorado Fuel and Iron company, caused the death of two men and did great damage to the property. At last accounts the fire had burned to within 20 feet of a chamber filled with gas, and should this point be reached an explosion would follow that would wreck the property. All openings leading to the mine have been closed, the fans stopped and all available water turned into the mine, which, it is expected, will be flooded in three or four days.

### VENEZUELAN REBELLION.

MARACAIBO, Venezuela, Feb. 4.—The Venezuelan government has just been notified that one of General Mato's lieutenants, General Penaloza, is marching from Cucuta by way of Ocaña, Colombia, with an immense quantity of war material.

### THE DIAMOND DYE MAT AND RUG PATTERNS ARE POPULAR WITH ALL LADIES.

THE MANUFACTURERS SEND FULL RANGE OF DESIGNS TO ANY ADDRESS.

Mrs. Morton F. Palling, Winnipeg, Man., writes as follows: "The three mat and rug patterns ordered from you are received. They are lovely and far ahead of other designs I have seen. I shall show them to my friends, many of whom are desirous of making up rugs for their homes. Many thanks for your prompt attention to my order. I use your celebrated Diamond Dyes and find them the best."

Ladies who have not received sheets of new designs of the Diamond Dye Mat and Rug Patterns, will do well to send a postal card with address to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q. All designs mailed free to any part of Canada and Newfoundland.

# MATTE FOR GRANBY

THE VAN ANDA SMELTER SENDS ITS PRODUCT TO THE CONVERTER.

### INCREASING OUTPUT OF THE MINES IN BOUNDARY DISTRICT.

GRAND FORKS, Feb. 1.—The Van Anda smelter, Texada Island, B. C., following the example of the Greenwood and Hall Mines smelters, has signed contracts to ship its matte here for treatment in the converters of the Granby Smelter company. The matte will be shipped via Vancouver. The new plant here is now turning out over thirty tons of blister copper daily, besides the gold and silver values.

During the week ending today the Granby smelter treated 5,070 tons of ore. Total treated to date, 305,990 tons.

PHOENIX, Feb. 1.—Shipments of ore from the Boundary for this week totalled 7,824 tons, or 28,210 tons so far this year. This week's shipments were as follows: Granby mines, 4,558 tons; Mother Lode, 3,066 tons; Winnipeg, 30 tons; Golden Crown, 180 tons. The two Boundary smelters treated this week 8,094 tons of ore, as follows: Granby smelter, 5,070 tons; Mither Lode smelter, 3,024 tons.

After more than a year of inactivity the Golden Crown property in Wellington camp, near Phoenix, has rejoined the list of Boundary shippers. Shipments of ore have been started, part going to the Granby smelter and part to the Greenwood smelter. Thus far some four or five cars have been sent out and shipments will probably be maintained.

One which is now being shipped is taken from the new development work at the 100-foot level, the provincial legislature has done. At this level Superintendent Duncanson has had a force of men drifting in a good quality of ore for some time past.

When the Canadian Pacific railroad was first built into the Boundary district the Golden Crown shipped about 2,250 tons of ore to the Trail smelter, when the freight and treatment rate was about \$7.50 per ton. Later the property was closed and last fall the company was reorganized as the Golden Crown Mines, Ltd., when work was resumed. It is one of the promising claims of the Wellington camp.

### GRAND FORKS' REQUEST.

That Boundary District Be Given Separate Representation.

GRAND FORKS, B. C., Feb. 1.—The board of trade tonight adopted a strong resolution asking the provincial legislature to detach the Boundary district from Rossland riding and to grant parliamentary representation to the Boundary as a separate district.

### GRANBY SMELTER CLOSED.

Trouble Caused by Breakdown of the Flume.

GRAND FORKS, B. C., Feb. 3.—The Granby smelter has been closed down owing to a break in the bottom of the wooden flume, which conveys the water from the dam to the power house. The bottom of the flume for a distance of 37 feet dropped out, having been gradually undermined. The repairs will occupy three or four days, after which smelting operations will be resumed.

### PHOENIX NOTES.

The Skating Carnival—Personal Gossip of the Day.

PHOENIX, Jan. 30.—Mayor Rumberger has left for an extended trip on the Pacific coast. Alderman Marshall is acting mayor.

David Whiteside, the well known barrister, who goes to Rossland to take over the practice of his brother, W. J. Whiteside, was given a dinner by Snowshoe Lodge, I. O. F., on Wednesday evening. Many felicitous speeches were made by prominent citizens and general regret was expressed at the departure of the guest of the evening.

The annual masquerade carnival was held at the Phoenix skating rink last evening. There were many merry maskers, and a general good time ensued. Prizes were awarded as follows: Best lady skater, Miss Hawthorn (Morning); best costume, Miss Richards (Gelsa Girl); best sustained character, Mrs. Abbott, (Nun); best comic character, Mrs. Johmie Bjordan, (Washerwoman); best gentleman skater, W. E. Henderson, (Coo); Greenwood; best costume, W. J. McMillan, (Knight); best sustained character, Jack McRae, (Hod Carrier); comic character, Danny Ross, (beer barrel); Dill of Greenwood won the mile open skating race, and Johnnie Graham won the race for boys 16 and under. The ladies' and gentlemen's race was won by Mr. Dill and Miss Clara Hackett. A troupe of comedians up from Greenwood and added greatly to the enjoyment of the evening, their singing being something immense.

Mr. George E. Ewing, the popular accountant of the E. T. bank here, was presented with a beautiful chain and locket by the members of the Phoenix hockey club, of which he is a most active member on the eve of his departure for Grand Forks, whether he has been moved. Mr. Ewing's absence will be much felt here, as he has always taken a great interest in the athletic life of the town.

Mr. Ewing's wife has a visitor in town. Thursday, Mr. Stanley Mute of the Ingran-Muir company, was up seeing the firm's customers this week.

### MONTREAL MAYORALTY.

MONTREAL, Feb. 1.—Mr. Cochrane was elected mayor of Montreal today defeating Mr. Wilson-Smith by about 1,000 majority. The election was stubbornly contested on both sides.

Rev. Canon George Rogers of Winnipeg was a visitor to the city this week.

# CITY NEWS

MADE MONEY—The city sanitary department's receipts in excess of expenditure are steadily growing. At last night's council meeting, Inspector Long reported that for January he had taken in \$318.75 and expended \$236.80, leaving a balance of \$81.95. It is expected that during the year the sanitary department will earn net profits of \$800 to \$1000.

KNOTTY POINTS—The finance committee of the city council has two problems of importance to solve between this and next meeting of the council. One of these is as to financing the school board, whose estimates for the year are now in hand. The other question is the application for a grant by the Winter Carnival committee. The committee asks \$150, and the request is modest.

CAN'T DO IT—Since the first of the year applications have been received by the city council from the city band and Graham's orchestra asking permission to use the library at the fire hall for practice purposes. The matter was handed over to the fire, water and light committee, and at last night's meeting the committee recommended that the requests be refused on the ground that the library was required for the exclusive use of the fire department at the present time. The recommendation was adopted.

SMELTER ALMOST READY—The Miner is informed that the new crusher at the Trail smelter will be in shape to operate within the next few days, and that the smelter will be prepared to accept gold-copper ores for treatment on the 11th instant. It is understood locally that the exact date of the resumption of shipments by the War Eagle and Centre Star mines rested with the smelter, and as this is now definitely known it may be taken for granted that the ore will start moving to the smelter within a few days of the date mentioned.

HOCKEY AT THE CARNIVAL—The carnival committee has received word that the Lethbridge, Alta., hockey teams desire to enter for the hockey contest, but in view of the heavy expense involved it is unlikely that it will appear on the scene. The tournament may therefore be expected to be left to the Nelson, Sandon, Phoenix and Rossland teams, and as each of these will be exceptionally strong, the spectators are assured of a more than usually interesting exposition of the great winter game.

AMONG CURLERS—The curlers are taking full advantage of the admirable weather for the pastime, and the rink building is the scene of exciting matches daily. Among these was the contest between the McQueen and Gray rinks, which was among the closest of the season. The players were: Nelson, Bruce, McMillan and McQueen, skip; Lynch, Robinson, Milloy and Gray, skip. After the first six ends the rinks were within a point of each other constantly, but in the eleventh the McQueen rink scored a four and won out by 13 to 8. It took three hours to finish the match.

HOME AGAIN—Alfred L. Ruff, son of E. W. Ruff, local representative of the Sullivan mining machinery company, has returned from a three months' sojourn at Claremont, New Hampshire, whither he went to enter the company's manufacturing plant for the purpose of acquiring mechanical knowledge regarding the Sullivan drill and other mining machinery manufactured by the well known company. Mr. Ruff donned the machinist's apron and took up the study of the machines from a practical standpoint. At their Claremont plant the Sullivan company employs 500 men, and the experience gained will be very valuable.

TO THE COAST—Rossland lost one of its oldest and most esteemed citizens last night, when William James Whiteside, barrister, etc. left for New Westminster, where he will be identified in practice with Anlay Morrison, K. C. M. P. Mr. Whiteside has resided in Rossland for six years and is therefore entitled to be classed among the pioneers of the Golden City. During this period he has enjoyed an extensive legal practice and has been more or less identified with various local movements. A wide circle of friends will join the Miner in extending to Mr. Whiteside hearty good wishes for the future success and happiness on the coast.

MASONS COMING—The regular monthly meeting of Rossland Preceptory, Knights Templar, A. F. & M. U., on Saturday next will be enhanced by the presence of a delegation of the brethren from Nelson, including Mayor Fletcher and other well known members of the Preceptory resident in the city by the lake. The meeting was to have taken place earlier, but was postponed on account of the sudden death of the late Brother J. Roderick Robertson. The only drawback to the approaching reunion of the Preceptory is the recollection that at the last gathering of a similar nature the late Mr. Robertson was in attendance and was the life of the social exercises following the business session of the fraternity.

A. E. OSLER & CO. STOCK AND MINING BROKERS 35 ADELAIDE STREET EAST. TORONTO.

the white man's "joy-producer," are not displayed so prominently, but they are never out of reach. As usual the Chinese stores on the Ross avenue will be the centre of the celebration and the usual quota of white people will probably visit the celestials during the day.

INSPECTOR HERE—David Wilson, inspector of schools for the district, is in the city. A special session of the school board will be held this evening for the purpose of meeting the official. The conference will be private.

LEFT ROSSLAND—Frank Vaughan, ex-chief of the police force, left last night for Vancouver, where he will reside for the immediate future. Mr. Vaughan spent yesterday in bidding his acquaintances farewell and in receiving many good wishes for his future prosperity.

FAIR HOCKEYISTS—The Rossland girls' hockey club has been organized and is practicing regularly at the skating rink. Eldon S. H. Winn, captain of the Vic's, is coaching the fair hockeyists, who are developing considerable skill in the popular winter sport.

INAUGURATED—Rev. J. Burt Morgan, B. A., inaugurated his pastorate of the Baptist church on Sunday, preaching morning and evening. Mr. Morgan proved to be all that was expected of him, an earnest pulpit orator with the style and energy that appeals to western congregations.

NEW CLASS OPEN—The Kootenay avenue school will be re-opened this morning for the accommodation of the primary class, comprising the 50 pupils who were crowded out of the Central school. Miss Shrapnel, who has just arrived from the coast, will be in charge of the class, and the building has been refitted to serve the purpose.

SHIPS TOODAY—The Le Roi resumes shipments today, and the ore is to be sent out in considerably larger quantities than has been the rule heretofore. The minimum shipments for the future will be 25 cars per diem, and as the new steel dumps have a minimum capacity of 35 tons, this will entail a substantial increase in the output.

NO EXTRA FEE—The ladies in charge of the St. George's church entertainment to be held in the opera house on Monday evening have decided that no extra charge will be made for the reserving of seats. All the expense to patrons will therefore be the price of 50 cents for tickets. It has also been decided that a dance will be held after the program is finished.

WEDDED—There was a pretty wedding at the residence of Mr. H. B. Jones, St. Paul street, yesterday, 3rd inst., when Ray Caldwell, of this city, and Miss Anna Zedler, of Nelson, were made man and wife by Rev. Dr. Robinson, pastor of St. Andrew's church. Only the immediate friends of the contracting parties were present. The happy couple proceed to their future home at Elko today.

IN THE OPERA HOUSE—The entertainment to be given under the auspices of St. George's church on Monday evening next is to take place in the opera house. Further notice is to be given of the program. An error in regard to the price of tickets appeared in the first notice. The general price of tickets is 50 cents, but those who wish to reserve seats can do so at Rolls' drug store for 25 cents extra.

SOME CHANGES—Her Kirchner has severed his connection with the International music hall after struggling manfully for several months to place the theatrical venture on a profitable basis. The circumstances were apparently not propitious, for Mr. Kirchner was compelled to relinquish the task on Saturday night. On behalf of the ex-manager it may be stated that since he took charge of the International he and his family have labored continuously, practically without salaries beyond expenses. The theatre will run as usual for the present.

METAL PRICES—The quotations on the markets of the world yesterday on the metals in which Rossland is particularly interested were as follows: Copper, electrolytic, 127-8; silver, 55-1-4; lead, (London), £11 10s. There is a slight drop in copper, but the market is decidedly more stable and producers are looking confidently for a rise at an early date. Lead is several points stronger, and nothing is in sight to indicate that the course of the market will be other than upward. Silver is stationary.

THE CHINAMAN'S DAY—There is joy in Chinatown, for Thursday is the Chinese New Year's day. The celestials are already making preparations for the annual event, and when the red letter day arrives it is to be celebrated with all the pomp and pageantry of a Chinese New Year. The usual and endless rounds of visiting and interchange of felicitations. This is the one day of the year when the festive Chinaman takes a day off and relinquishes all ideas save those pertaining to his pleasure. At the Chinese stores ordinary merchandise is placed on the shelves and the places of honor are given to freecrackers blung in hundreds on long strings, Chinese confectionery, sugarcane and other delicacies dear to the oriental palate. The supplies of samsey, and incidentally of

# THE STOCK MARKET

A SMALLER VOLUME OF BUSINESS TRANSACTED IN THE LAST WEEK.

MOST STOCKS FAIRLY FIRM, BUT WITH REACTIONS IN SOME CASES.

Business was not quite so brisk during the past week on the local exchange, though some of the days showed a good volume of trading. Generally prices were fairly firm, though with slight reactions in some cases.

The strongest stock on the list for the week was Cariboo McKinney. The announcement of the dividend and the statement made at the annual meeting had a bracing effect on the price, which on Wednesday went to 34, or about 20 cents above the lowest figure reached.

Rambler-Cariboo has changed very little during the week, though the last day saw a slight decline in the sale, prices being 32 and 31 for small lots. There appears to be no reason to fear any substantial falling off, since the lead price is somewhat stronger and silver is holding firm.

Centre Star fell off to 41-1/2 on the last day of the week, or about 3 cents from its highest point. The transactions in the stock for the past few days have been light.

Winnipeg is also weaker, selling down to 4 and 3-3/4 on the exchange. Payne, on the other hand, is strong, the sale price yesterday being 31, or about 16 cents above the lowest point reached.

War Eagle was fairly strong through the week, chiefly on account of the Toronto demand.

Black Tail is also firm, holding the advance recently made. Other Republic stocks keep up fairly well.

The following shows the daily sales for the week:

Thursday	14,500
Friday	12,500
Saturday	5,500
Monday	3,000
Tuesday	7,500
Wednesday	16,000
Total	59,000
