Business Office 43-45. Editorial Room 402.

FRIDAY, JUNE 21, 1907.

THE WATER QUESTION.

The letter from Jas. C. Weir, Secretary of the Waterworks Department, which appeared in last evening's Planet, contained no new arguments to show that the action of Commissioners in requiring meter for all lawn services was wise necessary. The Planet's argument is very plain explained. Some of the water users are abusing flat rate privilege. If the meter by-law is enforced, it will mean that many residents, who are not abusing these privileges, will have to tear up beautiful lawns and incur much expense installing meters. After these meters are installed the Commissioners would no doubt find public opinion so strong that they would reduce the rate for lawns to the lowest possible figure. As a result, the consumption of water by majority of water-users would be as great as it is now. Only a few would be effected by the rate. These would be the ones now abusing their privilege with the flat rate. Thus, in the end, the Commissioners would punish the innocent with the guilty. The Commissioners know who are the guilty party. Instead of saddling expense on the innocent, why not enforce the waterworks by-law and let the present guilty ones pay for the law. In this way all could be stopped. The Commissioners would then be just as head as they would be if they let the meters on everyone. Weir unintentionally pays a compliment to this Great Home by saying that as a result of Planet's articles recently published, the waterworks by-law will be strictly enforced. If there were done long ago there would be no talk of meters now. Unfortunately that the Banner find out where it stands on the question. A couple of nights ago came out with an editorial attacking the arguments of The Planet. They gave an excuse for anything, that they had been to get into the discussion. The day they evidently regretted

having said anything—possibly some one complimented them for being found for once on the right side of the argument. At any rate they displayed their customary weakness last evening and actually made sport of themselves by poking fun at those who are advocating exactly what the Banner had supported the evening before. The Banner's "remarkable lapse of memory" is getting it into some ridiculously funny positions.

THE SOVEREIGN BANK.

The new management of the Sovereign Bank deserve great credit for the manner in which they have taken hold of the business of this institution. They have discounted the future of possible financial trouble by one surgical operation, and we now have in Ontario and Quebec a large and valuable business, making a fresh start in life with a cash paid-up capital of \$3,000,000, upon a carefully certified and investigated valuation, with deposits amounting to over \$12,000,000. The success of any business depends largely upon the courage of its management, and the courage to meet the exigencies at the outset will place the Bank on the roll of a known quantity and ensure confidence that otherwise would have been lacking. At the annual meeting held in Toronto it was decided to meet the losses from weak investments by wiping out the \$1,255,950 reserve fund, and by reducing the capital stock by \$1,000,000. This represents the outside limit of possible loss, and makes the prospect reasonable for a substantial portion of the contingent funds being ultimately transferred to a new reserve, or rest, account. To this bank belongs the credit for revolutionizing the banking business of Canada, and that is due to them through enterprise, and advertising, and placing the benefits which accrue to the depositor plainly before the people. Through their savings accounts they have secured many thousand depositors who otherwise would never have had an account, and we must give this bank credit for starting this movement in the way it is being carried on by all other banks. As a result of this action other banks have opened up thousands of accounts. The Sovereign Bank was the first to break away from the

old line of banking and have made it easier for the man desiring capital, who through his integrity has been able to get credit. This valuable asset has been put to good account, as has been shown by the substantial gains made by our financial institutions. The new president, Mr. Jarvis, is a well known financier, and has the entire confidence of every bank president in Canada, and he has associated with him Mr. Jemmett, a gentleman of wide experience, who has been closely identified with the success of the Canadian Bank of Commerce. Mr. B. E. Walker, president of the Canadian Bank of Commerce, has the following to say of the new Sovereign Bank management: "We have perfect confidence in the new administration of the Sovereign Bank, and believe that they have made a most careful valuation of the assets of the institution. Their valuation shows abundant capital, and would have been regarded as enough in fact for three ordinary banks doing business fifteen years ago. There is no reason why, with their present capital and conservative administration, the Sovereign Bank should not make a good record hereafter."

A Safe Investment

What Marshall Field Once Said
Real Estate in a good locality and in a growing village, town or city is the best investment a poor man or woman can make. It cannot run away, bust up or cheat. My advice to a young man or woman who can spare \$5 or \$10 per month from his or her earnings is to put it into a small piece of mother earth, even if it is only a small vacant lot. My first start in life was doing just what I now advise others to-day.

The above was the advice given by Marshall Field in an address given to young men and women on **How to Succeed in Life.**

The Elms Sub-Division

head of King Street opposite St. Joseph's Hospital, presents to you the opportunity of your life. Lots in first block east of our sub-division sells at from \$18 \$20 per foot. Ours at only \$11 per foot and some at \$7 and \$9 per foot, for lots at \$160 and upwards.

Pay as You Like

You can own a lot in the Elms Sub. by paying \$10 down, \$5 per month, only 5% interest, or you can pay whole, or any part just as you like. Per right, no mortgages or notes asked from purchasers, you get a land contract which you can bring into the Merchants Bank, Chatham and get credit thereon whatever you want to pay or whenever you want to pay a little or more.

CUT THIS OUT

When you have an hour to spare, take a walk up the Elms Sub-Division of No. 1, you can select your own lot. As every lot has a white stake in the center of lot and 22 feet back from the front lot line, which is known as the building line. On this stake you will find a white card, giving the No. of the lot, size and All sold lots have a red card marked sold.

Drop me a card to Garner House and I will call on you with full particulars or you will find my city salesman on the grounds every evening from 6.30 to 9. Don't miss this opportunity.

C. Beers, City Agent, Office on the Grounds in the Tent.

LETTERS

WHAT HE DID
To the Editor of The Planet:
My Dear Sir,—I am in the limelight, by of last evening calls is headed "An Unwarranted Attack on the Planet." It makes speaking of the report daily in the Planet, say "that the Planet is being misled by the reports of public meetings."
statements were made by you, you attribute them to a less to understand, no reference to the "reports" appear daily in the Planet. I that the reports and need in some specific instances were added, and I gave three examples of such inaccuracy. A touching on these you evade the issue which is the accuracy of these specific reports.
Regarding the first it is beside the mark to quote what I said or did not say about the college funds, the plain fact is, Dr. McLaren had to call attention to the inaccuracy, and the Montreal papers corrected the false impression given. Will The Planet say the Montreal papers are right when they themselves admit that they are wrong?
With reference to the second, the fact that the editor of the Globe is a commissioner to the General Assembly does not guarantee a correct report in the Globe. He is not the reporter.
And when you say that the Mail and Empire gave the real idea of the address of Mr. McDonnell, of Kingston, on moral and social reform, I can but leave it to those read the address to decide. Is saying there is a graft at Ottawa the same as saying we are not an honest people? The address touched on the deep and grave problem of dishonesty and graft in this age of commercial

ish, as seen in the social, commercial and political life of our land. The headlines of the Mail and Empire makes it more a question of party politics than a discussion of the greater and grave question raised. The latter part of your editorial and your clipping from the Sentinel-Review has no bearing on the point at issue, for again I would remind you, I am not "attacking the reliability of the press." It is unfortunate that you try to make me appear in such a role.
And it is not my opinion or criticism of other institutions. I merely made the statement that certain headlines and articles were misleading, and so they were.
If you have space, you owe it to me to publish this letter.
A. H. MacGILLIVRAY.
Chatham, Ont., June 21, 1907.

The point of this discussion, as far as The Planet is concerned, bears upon a statement made by Mr. MacGillivray last Sunday during his morning address. In speaking of the press he said, as quoted in last Monday's Planet:
"Their reports, he claimed, were often incorrect and misleading, especially in the headlines. He excepted none of the newspapers of the country in his sweeping criticism."
This report of Mr. MacGillivray's own remarks has not until the present ever been brought into question. What he now says he said, or perhaps more correctly speaking, what he intended to say, was that the reports and headlines in some specific instances were misleading. He says now that he was not attacking the reliability of the press. It is unfortunate, then, that he did not make himself sufficiently clear on Sunday. No specific newspapers were mentioned by Mr. MacGillivray then. On that occasion he was talking

about the press. The Planet accepts the present explanation, believing that it is tendered in good faith. It is too bad that Mr. MacGillivray did not volunteer this explanation earlier in the week. It might have saved considerable discussion and newspaper space. — Ed. Planet.

THE NEW REMEDY

Take It Now That Vacation Days Are Fast Approaching:
Thousands of men and women are anxiously looking forward to the vacation days that come in June, July and August—not so much for the pleasure or enjoyment as for the chance of getting rid of their ill health.
To thoroughly drive away troubles of the stomach most people think they have to make a business of it with dieting, exercise, and perhaps a vacation.
But Mio-na stomach tablets taken with regularity, in a very few days will drive away indigestion, dizzy spells, distress after eating, headaches, sleeplessness, and the many other symptoms of bad digestion and sluggishness of the digestive organs that keep people from enjoying themselves.
Day after day, at work behind desks or in the factory with poor sunlight and air, soon results in sluggishness of the entire physical and mental apparatus. The first slight symptoms of indigestion can be easily cured, but when they are allowed to increase without any help, then the stomach complaints become hard to shake off.
Strengthen the whole digestive system with Mio-na and you will soon find that both stomach and bowels do their work as they should.
O. H. Gunn & Co. sell Mio-na in 50 cent boxes and guarantee to refund the money if the remedy does not give complete satisfaction.
Charity is generally kept in the family.
