Even if It Be Emotional Insanity, Let Un Have Plenty of It.

Some English scientist has reached ity. He regards a fit of laughter as an emotional insanity of short duration.
All right, then, give us a little more insanity. There is not laughter enough tion better to break out into laughter It makes the corners of the mouth turn apward instead of downward. It gives. the wrinkles of the face a pleasing outline, quickens the action of the heart and gives new life to the nerve centers. Yes, we can afford to let the English man look wise and idiotic if he wants to. He can stare with fish eyed big-otry whenever a joke is perpetrated, never allowing a ripple of merriment to disturb the placidity of his countenance. He can do all these things that he wishes to, but let us go on laugh-This kind of insanity mixes very well with sanity and prosale life. WORK FOR SYLVIA

By Joanna Single Copyright, 1906, by E. C. Parcella

Sylvia Maine stretched out a gaun arm and slammed down the window of her little dressmaking shop.

"Looks like spring wanted to git in here, too," she remarked precariously through the mouthful of pins which she was deftly transferring to the folds of the gleaming white satin gown draped on the lovely girl who stood patiently before her. She continued:

"The laycock buds is all bustin' out, and the wind smells good enough to eat, but I can't have it blowin' your hair into my eyes and settin' these folds skewin'. You'd have a conniption fit if your weddin' dress didn't set good, and so would I. It would disgood, and so would I. It would dis-grace me. I've made every weddin' dress in this village for fifteen years, all except Mandy Butler's, which was city made, though I don't just say that had anything to do with her bein' di-vorced in a year's time." Nelly laugh-ed as she replied:

"I'm not sure that I'd know it if it didn't fit, Sylvy. Is it silly to be so happy? Here Harry and I've been en-graced only a year, and our folks all

gaged only a year, and our folks all like it, and now his grandfather leaves him all that money, and everything's perfect." She blushed with shy pleas-ure to the roots of her beautiful blond the conclusion that laughter is insan- hair. The withered little spinster dressmaker sighed. Her only love had in anger married another woman and had been unhappy till his early death.

"It's silly not to be as happy as the in the world—at least the right kind of laughter. We will let the Englishmen myself git too old to forgit that. You keep their faces straight if they want to, but it befits the American civiliza-be good. There—ain't that sleeve sweet? I got to git this dress of yours once in awhile. Laughter is good for the facial muscles of the neck as well as the face. sweet? I got to git this dress of yours done this week so's I can git at Annie Paine's. Her weddin's in June too. It's the Lord's own month for weddin's. the Lord's own month for weddin's, and there had ought to be another besides yours and Annie's in this village." Nelly's resplendent image in lage." Nelly's resplendent image in the glass made her ask absently:

"What other wedding do you mean?"
"John King's and Alice White's." Nelly considered the fit of her little girdle before she said carelessly

"Why, they've been engaged forever. Everybody's used to it. I guess they are themselves, or they'd do something about it. I know Harry would not wait that way for me—he—he cares too

Nelly at twenty saw no romance in a Nelly at twenty saw no romance in a ten years' engagement, but Sylvia knew that no woman gets used to being always engaged and never married. She took the last pin from her mouth and explained:

"It's his mother and her father that stand in the way. They are selfash old cooks to stand in the way of the chil-

coots to stand in the way of the chil-dren's happiness. Even if Alice's fa-ther had any one to look after him I doubt whether Alice, who is the sweet-est thing that ever lived, could get along with John's mother. She's a heady old piece if she is smart and handsome, and she likes her own way too well to want a daughter-in-law to have first place in the house John has earned and built with his own hands. His father was no earthly account, and folks do say all Mrs. King married him for was to spite Cornelia Jones, who was dead in love with him and was never married on that account, they say." Sylvia took the soft satin carefully off over the girl's pink shoulders. Nelly's sympathy was aroused. As she ressed she made a laughing proposal.

"Well, something ought to be done, and it's work for you, Sylvy. You're always setting things straight for peo-Why don't the old folks get themselves out of the way? Why, they might get married—they might marry each other! You attend to it-you've done harder things-and I'll help you

at Alice's father, and I hope she cap at Alice's father, and I hope she gets him, so Alice can come here with you and John. She would take the work off your hands, and she's so sweet! But I'll be rather sorry for Mr. White. Cornelia is such a desperate old maid and no cook or housekeeper at all, and he's so good looking and well off that he deserves a better woman to take care of things. Well, men are oneer, and she certainly must have

seemingly unconscious of the storm of wrath she awakened in the widow's wrath she awakened in the widow's bosom. John's mother knew he would marry some day in spite of her, and she dreaded the day.

Toward evening Sylvia went to see

Alice White, though she knew perfect-ly well that the girl would be at choir practice. She lingered a moment on the porch, where Alice's father sat smoking. He was a straight, blue eyed old man. Sylvia sat down on the steps to rest.

"I been awful busy," she remarked "Folks will get married, and that means weddin' dresses. I'm just fin-ishin' Nelly Dean's, and next it will be Annie Paine's. If what I hear is so perhaps it'll be your Alice's before long." The old man squirmed and asked what she meant. He wanted no son-in-law, though he could not object to John.

"Why, you won't believe it, but that half blind, hobbling old Judson is mak-ing up to the Widow King, they say. She's handsome and young lookin' and well heeled, the best cook in town and economical too. She's good tempered, except about John's marryin' Alice, and I kind of hate to see her throw her-self away. But Judson's a sly old coot. Anyhow, I hope she marries and leaves John free. He and Alice have waited long enough—it ain't right! Well, I got to be goin'. You tell Alice I was here." She walked off, leaving the old man with a new fear—and with a new idea in his head. That Judson! He and Judson had always conflicted.

He grunted and lit his pipe.

Spring passed into early summer, and in June Nelly and Harry and Annie and Richard were married. Alice, sweet and grave and dark eyed, sang at the weddings. Her rich soprano was indispensable. John watched her in love and despair and began to wonder if, after all, prudence and caution were not sometimes vices as well as virtues. Would he never be free to take Alice to his own home? Would never leave her father to come to him? He went to see her much oftener than had been his habit, and, strange to say, of evenings her father disappeared, no one asked where, and left them to themselves. John and Alice were again almost the boy and girl lovers of ten years ago. They took twilight walks and long drives unmo-lested and unquestioned and were very

with surprise John began to realize that his mother no longer nagged him about his engagement nor had fits of weeping, during which she declared

that he was going to make her a stran-ger and a dependent in her own house. Then one evening he took courage and masterfully laid before Alice and masterfully laid before Alice a plan to brave everybody. Finally she yielded, though she dreaded the ex-planation that would have to follow. One soft September evening John, with a license in his pocket, drove to her door and told her father he was

going to take her for a drive to Lynn-ville, ten miles away, and that they would not be back till evening. The old man was used to their driving and said nothing. In fact, he seemed almost anxious to have Alice go,

Late in the evening they returned man and wife. John tied the horse and went in to have it out with Alice's father. But the old man, strangely enough, was not to be found. They waited awhile, and then John left her to go tell his mother.

In half an father could possibly be. In hair an hour she heard John's quick, eager footsteps. He swing in at the gate and almost ran to take her in his arms. He kissed her, and he laughed—actually laughed-like a boy. Then he ex-

plained: "He's at my house—your father. It seems they took advantage of our absence to marry each other, Alice. How's that for sly? They braved me to my face, but they were so afraid that we would be angry that positively relieved when I told them what we'd done. They are coming over here tomorrow, dearest, and then

our home will be our own." Then John, being a man, could not Meantime Nelly sauntered toward the just see why Alice could declare that she was perfectly happy and still should weep on his shoulder. But Sylvia was a woman—she would have

The World's Water Supply. A German scientist predicts that the time will come when there will not be water enough remaining on this globe to support human life. We are left to "Good morning, Mrs. King." The old lady came along, with her trowel, to amile at the pretty girl. She was extremely fond of any girl who was entremely form caverage in its interior into which form caverage of any girl who was entremely form caverage in its interior into which form caverage in its interior into which form caverage in its interior into which form ca without. Besides, nature has provided this planet of ours with a rather large water supply. Nearly three-fourths of the earth's surface—or 144,712,850 square miles—are covered by the ocean, which is reckoned to be of an average depth of at least two miles. The globe must contract enormously and leave some huge cavities before our oceans disappear. At present its crust by no means resembles a rigid arch. It is a man to take care of things. Well, men are queer, and she certainly must have been awfully pretty once."

Mrs. King snorted.

"She was never a mite pretty, to my mind. She set her cap at John's father when we were girls, but she didn't get him. Oh, must you go?"

Itched All the Time and Hair Began to Fall Out - Wonderful Result

APPLICATION OF CUTICURA REMEDIES

"I am never without Gutieura Soap and Cutieura Ointment since I tried them last summer. About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humours; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out, but I continue to use the Cuticur on my scalp. It keeps all dandruff out and scalp is always clean. I alwar's use Cuticura Ointment on my face afte shaving, and have fourd nothing to equal it. I will never be without it." D.E. Blankenship.
