Neway Notes

GLEANED FROM VARIOUS SOURCES. Chicago has passed the 3,000,000 population mark.

The Halifax Ship Yards Co., Ltd., have recently purchased the King Edward Hotel, Halifax.

The provincial government last year received from theatres and cinematographs the nice little sum of \$20,447.37.

Reports from Winnipeg say indications are that the acreage devoted to raising grain will be much less than last year.

More than 2,000,000 tons of shipping were added to the British Navy during the war, at a cost of about £300,000,000.

The Sunday Base Ball Bill has passed the New York State Assembly by 82 to 60, so all New York State can now legally play base ball on Sunday.

The manufacture of the ribbon for the men in Great Britain who have served abroad during the war is no small business. No less than 300 miles are required.

A trial shipment of three cartons of butter to New York from Saskatoon, Saskatchewan, indicates the possibility of a regular business with New York, which could bring \$40,000 annually.

Canada is not alone in the improved road movement. In fact she is far behind. The U. S. Government will have over \$775,000,000 for building roads, and will employ returned soldiers first.

Michigan rolled up a majority of something like 100,000 against the proposal that wine and beer licenses be issued in that State, and the result is pretty generally ascribed to the women vote.

That the total population for Ontario in the year 1918 was 2,578,177 an increase of 17,734 over the previous year, is shown in the second municipal bulletin of the bureau of municipal affairs, which has just been issued.

An airplane express service has been started between Toronto and Hamilton by F. G. Ericson, the first trip being made on Tuesday. The first load of merchandise was a motion picture 6.5 m. The return flight occupied 45 minutes.

The first concrete ship built in San Francisco, the Fifth, has turned up in New York after a voyage of three months and a half to the tropics. She is now to be sent to Copenhagen with a \$2,000,000 cargo. She has given her builder every satisfaction.

Defendants under the M. S. A., and persons convicted of sedition by treaty, are disqualified during the war, are disqualified from voting or from holding public office in Ontario for a period of ten years, under a measure introduced in the legislature Wednesday afternoon by Attorney-General Lucas.

The construction of three submarine tunnels has been agreed upon by Great Britain, two of which will connect Europe with Africa. One tunnel will connect England with France, the one linking Europe with Asia will be placed under the Bosphorus, and the third will be between Gibraltar and Africa.

Canada is making plans for an elaborate increase in her production of eggs and poultry, and to that end a meeting was held at Ottawa recently which was largely attended by farmers from all over the Dominion.

Among the leading speakers was Prof. E. B. Hildorf of the Dominion Experimental Farm, who advocated the policy of 100 hens for every farmer in Canada, or 75,000,000 head by the next census in 1921. Canada, at the rate of six dozen eggs per year, should then produce 450,000,000 dozen annually.

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had headaches, my back ached all the time. I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."

Mrs. ANNE M. B. LYNCH, 105 Main St., Providence, R. I. Backache and nervousness are symptoms of nature's warnings, which indicate a functional disturbance of the blood, which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous food and herb remedy, Lydia E. Pinkham's Vegetable Compound—and for special advice write to Lydia E. Pinkham M-F Co., Lynn, Mass.

Minard's Linctum Cures Colds

The Famous 13th.

The 13th Battalion, of Montreal, has won a splendid record overseas. Promoting overseas with 45 officers and 100 other ranks, under the command of Lieut-Colonel F. O. W. Lewis, it has been in all the big battles from Ypres to Mons.

Eight thousand men have passed through the ranks, and practically none of the original returns with the unit. Of the original officers only two are with it now.

The battalion's casualties have been: Killed 756, died of wounds 147, wounded 5211, prisoners 238. Of the original officers only two are with it now.

More than 2,000,000 tons of shipping were added to the British Navy during the war, at a cost of about £300,000,000.

The Sunday Base Ball Bill has passed the New York State Assembly by 82 to 60, so all New York State can now legally play base ball on Sunday.

The Yankees Won the War?

A subscriber to the Toronto Globe writes to that paper calling attention to an article on the war in the Saturday Evening Post by Mr. Samuel G. Blythe, in which it is stated:

"The great outstanding success of our part of the war—indeed of the war itself—was the American buck private. He won it. The reason Germany will not see any other reason than the American soldier, the private."

In reply to the above the Globe suggests that as the Saturday Evening Post is devoted largely to fiction, it is possible that through a printer's error, a bit of fiction got mixed up with the Globe's article. Continuing the Globe says:

"Our native modestly might be reluctant to appear like boasting about one's own share in the glorious struggle, and it might be tedious to distinguish between others. Particularly we have the testimony of Marshal Foch, who had a pretty good idea of what was going on, especially during the final months in which the Americans participated, and at a luncheon at British head quarters, Nov. 17, he said:

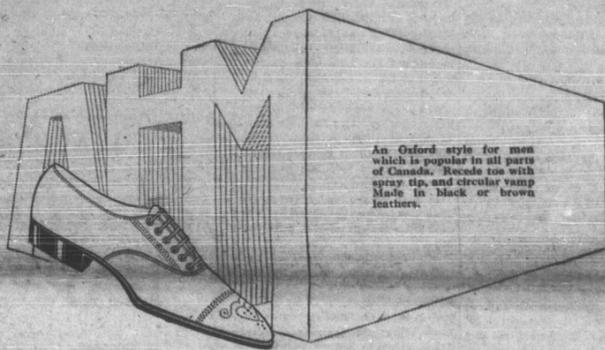

"The hammer blows of the British were decisive factors in the final crushing defeat of the enemy."

The New York Sun says: "King George told someone that the historical truth when he said that without the British fleet the struggle could not have been maintained. Of course we all know this. It has been plain from the first, but it will not do to forget it when peace terms and final settlements come. Let us always remember that but for the British sailors and the French army Germany today would rule the world and we would be slaves."

The Oldest Monastic Retreat in the World.

In one of the loneliest regions in Judea and had by the Jordan Valley lies a strange old monastery the oldest and most remarkable religious refuge in the world. It has been standing for hundreds of years and is a point of special interest to the traveler in Palestine for it furnishes one of the oldest links in connecting early Christianity with the present age.

It contains a library in which are some precious manuscripts and also some valuable manuscripts which are so jealously guarded that they may never see the light. And as many of the inmates of the monastery cannot read these literary treasures are of little service to mankind. It is said that a renova-

An Oxford style for men which is popular in all parts of Canada. Recedes toe with spray tip, and circular vamp made in black or brown leathers.

How to Judge Values

WHEN you select a type of shoe which pleases you, you will probably find that it is made in different grades and different leathers—selling at different prices. But if the shoe is stamped with a maker's name which you know, you may be sure of good value for your money no matter what grade you decide upon.

Go to a dealer in whom you have confidence, and look for the manufacturer's trade mark on the shoes you buy. The dealer's advice and judgment will be of great assistance to you, and he will see that the shoes you select are properly fitted, so that you will get full service value from them. The manufacturer's trade mark is your best assurance of high quality in material and workmanship, for the manufacturer's business reputation is behind it.

Our booklet "How to Buy Shoes" will be sent with our compliments to any address in Canada, upon request to our head office at Montreal.

The Crucible of The Future.

The world's ingredients have been thrown into the melting pot of war, material, spiritual, commercial, political, financial, humanistic, and what is going to come out of it when the process is over—who can tell?

On the other hand, the fusion of the great nations in a common loyally, coupled with the steaming fire of the dross, may, if properly handled and treated, produce a true metal for carrying out the work of the world on a nobler scale than heretofore.

There is an immense and unprec-

deated possibility for good if we, and those who are coming after us, are prepared to utilize it.

Many, however, and high purposes with some democracy will do it.

But the war has shown how dangerously close under the surface of our vanquished civilization still lie savagery, blindness, and insane license.

The war is not over, the victory is not finally won, even though the fighting on the battlefield may be finished. There is yet a dangerous and anxious time before the Nation, as there is before the world, while the metal forged by the war is being fashioned for use. Sir Robert Baden-Powell.

"I Am So Short of Breath"

"I MUST be your heart, Grand Dad."

"Yes, I suppose it is. I am getting old, you know."

"Oh, you are not so old. You have got run down after the cold you had and will be all right when you get your blood built up again."

"Well, I hope so, dear."

"You remember how weak my heart was, Grand Dad, when I used to be pale and anemic. It was no joke for me to climb these stairs then."

"You are all right now, aren't you?"

"I never felt better in my life, Grand Dad, and if you will use Dr. Chase's Nerve Food for a while you will get strong and well, too. That is what cured me."

"But do you think that the Nerve Food is any good for old men like me?"

"I am sure it is. I often read letters in the newspapers from old people telling about what a great benefit it has been to them by enriching the blood and increasing their vitality."

As an example of what Dr. Chase's Nerve Food does for people of advanced years, here is a letter from Mr. James Richards, 73 Dundas St., Belleville, Ont., who is 82 years of age. He writes:

"I was suffering from a weakness of the heart, shortness of breath and frequent dizzy spells which used to force me to go and lie down for a time. I secured Dr. Chase's Nerve Food and received such splendid results that I continued its use until I am now feeling fine and am not troubled with these symptoms any more."

Dr. Chase's Nerve Food, 50c a box, 2 for \$2.75, all dealers or Edmondson, Bates & Co., Ltd., Toronto. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author.
