HALIFAX DEFEATS MAYOR HAWKINS

Halifax, May 28—(U. P.) (14) elected Mayor J. S. Parker in the 1919 election for the municipality of 422. The figures were: Parker 2,343; Hawkins 1,921. The defeat of Hawkins by a comparatively unknown man is remarkable and is the result of the tremendous amount of criticism on account of bad arrests, great dust and general backward state of city affairs. The revolt of the aldermen, who nearly all resigned on account of Hawkins' eight months ago is another contributory cause.

Allies Have Reply Of Germans

New York, May 29—The Associated Press tonight issues the following: The representatives of the Allied and Associated Powers at last have before them the answer of Germany to the terms of the peace treaty. Under the procedure adopted by the Peace Congress the reply of the Germans to the various clauses of the treaty, consisting mainly of counter-proposals seeking to lessen the severity of the Allied terms, the members of the Council of Four will digest the view of the enemy and report back their decision as quickly as possible. This decision will be final, and Germany then will be compelled either to sign or reject the treaty.

THIS WEAK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard something about Lydia E. Pinkham's Vegetable Compound and I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia, Pa.

PAINT is Life Insurance For Your Home

A house, covered by a "Paint Policy", is protected against wear and weather. Decay always starts at the surface. Decay cannot break through when the surface is guarded by paint.

"Save the surface and you save all" Paint & Varnish. Ask for copies of our books—"Town and Country Homes" and "Floors—Spic and Span". Free on request.

- "100% Pure" Paint For buildings, outside and in. Senour's Floor Paint Paint today—walk on tomorrow. "Varnoleum" beautifies and preserves Oil Cloth and Linoleum. "Marble-ite" The one perfect floor finish. "Wood-Lac" Stains Improve the new—renew the old. T. "Neu-one" The sanitary, washable Flat Oil Paint for Interior Decorations.

The most reliable "Life Insurance Policies" you can put on your house and your furniture, are

MARTIN-SENOUR PAINTS AND VARNISHES

Their 100% purity makes protection complete. Their economy lies in the fact that they spread easier, cover more surface and last longer.

When you paint this spring, be sure to use the old reliable Martin-Senour Paints and Varnishes.

Growing Tomatoes in Alberta

The production of tomatoes in large quantities on the prairie does not appear to have been a success in the past, but prairie people are of a type who are forever doing something which was never done before. Messrs. G. O. Kerr and J. E. Terrill, of Lethbridge, Alberta, have observed for some years that tomatoes in small quantities were matured in the Lethbridge district and decided that there was no reason why the experiment should not be made on a commercial scale. As a result about two acres of tomatoes were set out last summer on land farmed by Mr. Kerr, a few miles east of Lethbridge. The plants were started under glass in Lethbridge and set out on June 7, 7, and 8, at which time they were from 6 to 8 inches in height. Three thousand five hundred plants were set in the plot, some of them three feet apart and some four feet apart. The experience of the season seems to indicate that the four foot plant is preferable. The soil secured was an old pasture which had since been in alfalfa and is protected by a wind break of trees on the western side. It is a very rich loam with a gentle south slope and, of course, is irrigated. The land was cultivated in the ordinary way and irrigated before planted and three times afterwards. The first of the ripe fruit was available seven weeks after setting out the plants, or about the end of July. During the month of August from five to six hundred pounds of beautiful ripe fruit was taken off the plot each day and this rate of production continued into September. The total yield of the plot is estimated at 25,000 pounds and a ready market was found for the product in the city of Lethbridge, the early ripe tomatoes bringing twenty-five cents a pound and the latter crop fifteen cents a pound. The gross price of \$5,250. According to Mr. Kerr, no difficulties were experienced in the production of this crop. The vines were trimmed early in July for the purpose of producing heavier fruit and also admitting more sunshine which ripened it very rapidly. The tomatoes were as large and as well developed as the best imported stock from British Columbia or Washington and, being local grown, they, of

Gathering Tomatoes in Alberta.

course, reached the consumer in better condition. The crop was so heavy that in many cases the support stakes which had been put in for the vines to climb on were broken down. One vine was noted which had eighty-three tomatoes on it. Up to the middle of September no damage had been experienced from frost, although as a precautionary measure flax straw had been dumped about the plot, so that smudges could be started if necessary. Mr. Kerr points out that the essential thing in the production of this crop was the irrigation, which not only increased the amount of fruit but by affording ample moisture at the right time resulted in early ripening. Without irrigation it is doubtful if the experiment would have been at all successful, and while it is not suggested that

U. S. Gets German Ships

Washington, May 26—Official advice reached Washington to-day that a full understanding had been reached by the council of four at Paris by which the United States will keep all the German ships seized in American ports when this country entered war. Great Britain had proposed that the 700,000 tons of German shipping seized in this country, as well as German ships seized in other countries, be placed in a common pool and allotted on the basis of tonnage lost through action of enemy submarines. The United States had refused to accede to this plan.

Will Ring Bells On Peace Day

London, May 27—The famous peal of bells in St. Clement's church, in the Strand, near the American Eagle Hut, will be heard again on Peace Day, after a silence of seven years. The bells are notable for their chiming the old rhyme "Oranges and Lemons," to which tune the children of England still play one of their favorite games. This tune is said to originate from the time when servants in the neighborhood visited all the lawyers' offices and rooms in Clement's Inn and presented oranges and lemons to the tenants while the bells were ringing. St. Clement's possesses a clock which strikes the hour twice, first on the tenor bell, and, after a pause, on the Sanctus bell, which was cast in 1588.

A CORRECTION.

At the dedication service at a country church the pastor found it necessary to make the following announcement: "The collections today will be devoted to the arch fund, not, as was erroneously printed in the morning paper, to the archfund."

A GOOD GINGER BREAD

Place in bowl one-half cup molasses, one-half cup brown sugar, four tablespoons shortening, one egg, two cups sifted flour, one-half cup sour milk, one level teaspoon ginger, one-half teaspoonful allspice, two teaspoons cinnamon. Beat to mix, pour in well greased and floured loaf-shaped pan and bake thirty minutes in moderate oven.

A Constipation Cure

A druggist says: "For nearly thirty years I have commended the Extract of Roots, known as Mother Selge's Constipative Syrup, for the radical cure of constipation and indigestion. It is an old reliable remedy that never fails to do the work." 30 drops thrice daily. Get the Genuine, at druggists.
