WILL NORTHUM-
BERLAND BE
REPRESENTED

In discussing the probable line-up of Premier Veniot's new cabinet the Telegraph-Journal staff correspondents say:

"Recently the labor leaders in the province have been booming John S. Martin. Independent Labor member for Northumberland, for a place in the cabinet. Mr. Martin is a new comer in politics, but he has a strong Labor support in the province. He, too, is an Irish Catholic; but he has not had the same experience in public life as Mr. Scully and in Northumberland county by election last fall did not, openly at least, support the candidature of W. B. Snowball, M.P. Whether that slight lapse on the part of Mr. Martin who has consistently supported the legislature which concluded its fifth session yesterday will oust him of the running as a cabinet possibility is a matter which only future will decide.

Then there is Charles J. Morrissey of Northumberland, another veteran political campaigner who has certain claims for cabinet recognition. Mr. Morrissey, after losing the Federal nomination in Northumberland last fall, went into the fish-wholeheartedly and was a big factor in securing the election of Mr. Snowball, who defeated him in the Liberal convention.

Lt. Col. H.S. Murray
Now Commanding
North Shore Regt

Mayor H. S. Murray, B. C. L., of Chatham has received notice of his promotion to the rank of Lt. Col. He will now be commanding officer of the North Shore Regiment. The new commanding officer is one of the youngest in the Canadian Militia a point of years but he has had considerable military experience both with the militia prior to the war and with the Canadian forces overseas.
Lt. Col. Murray went over with the 55th. N B Battalion. He was wounded at Vimy in 1917. After his return to France he was given the rank of Captain. Upon the reorganization of the Canadian Militia after the war he was given the rank of Major and commanded B. Co., of the North Shore Regt. Lt. Col. Murray is a barrister and a member of the firm of Murray and Murray, Chatham.

74,000 PEOPLE DRANK
612,180 GALLONS OF
LIQUOR IN YEAR 1824

Premier Veniot Gives Statistics For Importation in Reply to Query From W. E. Scully—Figures Rum Favorite in Old Days

Replying to an inquiry made in the Legislature at Fredericton Wednesday by W. E. Scully, M. L. A. for Saint John City, Premier Veniot informed the House that in 1824 there was imported into New Brunswick 612,180 gallons of liquor. The estimated value of this liquor, based on present day prices, was \$1,262,584.61, to which must be added the estimated duty paid of \$8,191,437.94 making a grand total of \$9,454,022.54.

Mr. Scully asked if any records were available showing the quantity of intoxicating liquor imported by the province of New Brunswick 100 years ago and further as to the quantity brought in through the different ports.

GIVES DETAILS.
Premier Veniot, in reply, gave the following interesting figures:
Saint John, 14,722 gallons of wine; 29,682 gallons of brandy and gin; 310,879 gallons of rum, making a total of 355,333 gallons.

Miramichi 6,493 gallons wine; 23,538 gallons brandy and gin; 186,977 gallons rum, total 117,018 gallons.

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. Toussaint, Ste. Sophie, Que., writes: "I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health."

The tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Labor Wants To
Study Affairs
Of Dominions

Labor M. P.'s who are not already members of the Labor Commonwealth group at Westminster have been invited to support the movement for the study of Empire questions.

George Lansbury is Chairman and Dr. Haden Guest is Secretary of the group, whose object is to promote within the ranks of the Parliamentary Labor party interest in the welfare of the British Commonwealth of Nations as a whole. The group considers that the Labor party should take a more active and positive share in the criticism of Conservative proposals regarding Empire questions.

No resolutions on policy and no decisions on votes have been taken by the group. Its procedure is to hold meetings at which addresses are given by persons representative of Australia, New Zealand, Canada, India and other Dominion points of view.

The general feeling of the group is that the gigantic unused resources of the Dominions and tropical dependencies should be used in helping to raise the standard of life of the workers and not merely to increase the profits of limited liability companies and private capitalists.

S. Peters, 61 gallons wine; 1,078 gallons brandy and gin; 10,821 gallons rum, total 11,899 gallons.
Richibucto, 968 gallons of wine; 3,581 gallons brandy and gin; 10,821 gallons of rum, total 15,370 gallons.
Shediac, 120 gallons brandy and gin 20 gallons rum, total 140 gallons.
Restigouche, 972 gallons rum, total 972 gallons.
S. Andrews, wine from Madocria; pipes, 36; hogsheads, 46; wine quarter casks, 38; wine half-quarter casks, 10; rum 104,269 gallons total 111,397 gallons.

LAUGHTER AND COMMENT.
The foregoing figures indicate quite plainly that 100 years ago the favorite beverage of the people was rum and this entire quantity of 612,180 gallons of intoxicating liquor was consumed by a population of 74,000 people.
Mr. Scully's inquiry created quite a laugh when submitted, but the figures, as announced by the Premier have caused not a little comment about the corridors of the House

RED BANK SCHOOL
APRIL REPORT

Grade IX—1st Pat Lawlor 67; 2nd, Gerald Kehoe 65; 3rd Beryl Parks 64

Tories Are Ready
For An Election

Officials of the various Conservative associations in Toronto met at the Albany Club to extend a welcome to Right Hon. Arthur Meighen, leader of the Conservative opposition in the House of Commons, to give him assurance that, as far as Toronto is concerned, the Conservative organization is ready for an election at any time the Liberal Government chooses to grant. Party officials said that the tone of the gathering, as which the situation in the city was outlined, was cheering to the Conservative leader, and the opinion was freely given that the next election means a solid Conservative Toronto. R. J. Clarke, President of the central organization acted as chairman.

CANADIAN TRADE
IN PAST WEEK

Retail Business Well Up to Average.

Dispatches to Dun's Review from branch offices of R. G. Dun & Co. in the leading cities of the Dominion of Canada state that retail trade, as a whole, is well up to the average; although the weather in some districts has not been wholly propitious. In wholesale departments cautious buying continues the rule, but some centers report the receipt of a fair volume of orders and an active demand for all kinds of sea-seasonable commodities is expected confidently to appear with the advent of settled warm weather.

Retail trade is about normal in volume for this period at Montreal and wholesalers report a gradual increasing number of orders for spring and summer specialties, with prospect thought favorable for a substantial improvement in demand with the appearance of warmer weather. Collections are slightly better.

Quebec reports that the opening of navigation has helped business in numerous lines, but merchants say that settled warm weather is needed to bring about a full measure of activity in most departments. Collections are still somewhat slow.

Although weather conditions have not been entirely favorable, there is a steady retail demand for seasonable commodities in Toronto, and business in most wholesale departments is showing slow, but steady improvement. Labor is well employed and with normal weather from now on, prospects for an active movement of all kinds of Mercantile are thought to be very encouraging. Collections are moderately better.

Advices from numerous centers in the Far West and Northwest note a fairly steady retail demand for seasonable commodities, but in wholesale departments the operations of buyers continue to be featured by general conservatism. At some points an increasing number of orders in moderate amounts are being received, and prospects for at least an average spring and summer business are regarded as favorable. Collections still drag.

Dominion Roads
Convention In
September

The twelfth annual convention of the Canadian Good Roads Association will be held on September 22, 23 and 24, next, at Quebec City; according to an official announcement by president, Hon. P. J. Veniot, Premier of New Brunswick.

In recent years the convention has been held in the spring of the year, but the question was raised at the St. Andrew's-by-the-Sea convention last June as to whether this was the most suitable time for highway engineers, Government officials, road contractors and municipal delegates to at-

Collins' Body Is Recovered From The Cave

and the body of Floyd Collins, taken from the bottom of the shaft lies in Cave City underground parlor. Burial was crawling from the depths of a newly discovered pit, was removed last night by miners employed by the victim's brother. The body was freed for the first time since last January 30 when the falling rock caught Collins and held him fast while hundreds of volunteer workers struggled in vain for seventeen days to free him.

The miners after removing the rock brought the body through the new lateral off the seventy foot level of the shaft and left it there over night until equipment could be arranged for hoisting the dead explorer to the surface.

They attached a hook to a rope fastened about the body and raised it by means of a hand hoist. Wrapped in cloth the body reached the top of shaft while several score of curious visitors watched. After being placed on a stretcher, an improvised sack was removed from the head and W. H. Hunt, miner in charge of the recovery work, asked the spectators to walk past and view the victim.

"Pass by and look at the body closely" Hunt said. "I don't want anybody to go away and say we brought up a chunk wrapped in rags." One of the miners, J. S. Smith, asked that the group kneel while Rev. R. B. Neel of Bowling Green, Ky., offered a prayer.

A hearse from Cave City then backed to the scene and the body was lifted inside and taken to town seven miles away, where it was embalmed.

Don't Judge Entirely by Appearance
You can't judge the real value of Clothes simply by the outside appearance. It's the inside workmanship, the concealed parts that determine the ultimate wear and service of the garments. Many fine looking clothes do not wear well because of poor or indifferent tailoring
O'Brien's standard of tailoring assures long service and entire satisfaction as proven by wearers.
Suits and Topcoats \$18.50
