**Notes and Comments.**

Visitors to Harbor Grace tell us of the extraordinary revulsion of political feeling there. A large number of men who have hitherto voted for Tory candidates are so disgusted with the Morris Government, that they are openly up in arms against it and are expressing a firm determination to turn out the Morris Government and put in a Liberal Government in its place. The outlook for the Liberal candidates in Harbor Grace was never better than at present. Similar gratifying news comes to us from the District of Harbor Main. One correspondent writes: "Here, no doubt about it, nobody is wanted on this shore but Bond. They are downing the other fellows everywhere along the South Shore and the people are every where calling for Bond. I never saw such a revulsion of feeling as compared with 4 1/2 years ago. Woodford and Murphy are done, but Woodford is the worse case. People can't bear either. The election in the Harbor Main District will be a simple procession for the Liberal candidates."

In the Daily Mail of July 28th is the annual report of Furness, Withy & Company. The Directors report a record year and that they have increased the reserve by £1,000,000 sterling.

 The great prizes of the Medical Congress are awarded as follows:—Moscow prize to Prof. Charles Richer, Paris, for work on Apoplexy; Paris prize, Prof. A. Von Wasserman, Experimental Therapy on Immunity; and Hungarian prize to Prof. Weigert, London, for work on Apoplexy.

**COPENHAGEN, To-day.**  
 Capt. Koch, the well known Danish explorer, succeeded in crossing Greenland from east to west over ice and snow. Koch, who started in June 1909 with a number of prominent scientists, surmounted the dangers and difficulties of Queen Louisa Land and eventually reached Proven near Upper Navik in Baffin's Bay. Capt. Koch was a member of the Mylius Expedition in 1906.

**CORK, To-day.**  
 Deputation representing a large number of interests in Cork and Queenstown, started for London to protest against the decision of the Postmaster General to permit big Cunard's mail steamer to omit Queenstown as a calling port. The decision of Postmaster was rendered on the plea of the Cunard line that it is dangerous for such vessels as the Mauretania and Lusitania to enter the harbor, but the members of the Deputation deny this, and as a proof point out that the White Star Liner Olympic, which is much larger than Cunarders mentioned has no difficulty in calling at Queenstown.

**WASHINGTON, To-day.**  
 Henry Lane Wilson, furloughed Ambassador to Mexico issued a statement here yesterday attacking a recent statement credited to the Foreign Office, declaring that Britain had recognized the Huerta Government, as a Provisional Government only. Its recognition was prompted by a desire to contribute to the restoration of order, also it was Wilson's congratulatory speech on the occasion of the reception in Mexico City of the Diplomatic corps by Huerta. Wilson's statement was in substance that the British Foreign Office has maintained for two centuries. I doubt the genuineness of the statement as an impure subterfuge unworthy of the British Foreign Office," said Mr. Wilson in the discussion.

**LONDON, To-day.**  
 Another assault on the position taken by the British Government in regard to the Panama Pacific Exposition was made in the Commons today but failed to change the situation. Col. Gibbs, Unionist, John O'Connor, Nationalist, both urged that the authorities in San Francisco Fair might be induced to change their rules in favor of the United Kingdom being allowed to make a single collective National exhibit. The Parliamentary Under Secretary for Foreign Affairs Asland retorted, however this was only one of the reasons that made British participation inexpedient, and any way, he said, regulation as to scattered exhibits seemed to be a definite part of the Exhibition rules. O'Connor asked if this decision of a free trade government was a proper return to make States for a reduction of its tariff. The American tariff has not been reduced was the only reply made by Asland.

**ALBANY, N. Y., To-day.**  
 With Governor Sulzer impeached by the Assembly and date of his trial definite and Judges' Court Appeals fixed for September 18th, the spectacle was presented of two men claiming to be Governor of the State of New York. As soon as the articles of impeachment, adopted by the Democratic majority of the Assembly, were presented to Senate, Lieut. Governor Hartin H. Glynn announced his intention of occupying the Executive Chamber. The friends of Governor Sulzer declared the Governor intended to continue the office and use his powers to maintain the position on the ground that the Assembly had no Constitutional right to consider impeachments at an Extraordinary Session.

Stanley to the Dark Continent will ever be remembered, is taking part in an expedition which, it is expected, will result in some surprising discoveries and observations.
