"The Round Table."

A MAGAZINE OF EMPIRE.

The only fault there is to be found ... in "The Round Table" is the fact ... that it is issued quarterly. It is ... known that one can find a periodical ... which gives such a clear and compre- ... hensive exposition of Empire politics, ... and of world politics in so far as they ... affect the British Commonwealth. The ... each number has just been received ... and its contents are worthy of the ex- ... cellent reputation which this publica- ... tion has gained since its inception. ... The most interesting article in this ... number is "A Programme for the ... British Commonwealth." This surveys ... the changes which have been brought ... out in the Empire by the tremendous ... happenings of the past seven years, ... and suggests a policy which might be ... followed with advantage. Another ... contribution which is of particular in- ... terest at the moment is a review of the ... conference at Cannes between Briand ... and Lloyd George, and an outline of ... the matters which will be discussed ... at the coming economic conference at ... Geneva and the probable results. To ... attempt to review the March number ... "The Round Table" at length, is ... impossible at the present time, but we ... go to publish extracts from some of ... articles shortly, so that our readers ... may be able to judge for themselves ... the value of this excellent publica- ...
