Hammer a Sheet of Rubber And What Happens?

Hammer a Sheet of Glass And What Happens?

NOTHING — your hammer does not dent the rubber because rubber is elastic. And this is the characteristic that makes 51" Floor Varnish so durable — elastic.

WRECKAGE — the glass is shattered in a thousand places because it is brittle. And this is the thing in a lesser degree, is what happens to ordinary varnishes.

### Girls Friendly Society

The Girls Friendly Society Re-Union began with the Celebration of the Holy Communion in the Cathedral at 7 a.m. on Thursday, May 8th. There was an exceptionally large attendance. The Bishop was celebrant and addressed these present ladies as his subject, "The Parable of the Talents," showing the importance of little things, little sins, little duties and little prayers.

At the Synod Hall in the evening Lady Allardice, the Patroness of the Society, attended, and was received by a Guard of Honor of the G. F. S. Rangers. In charge of Lieut. Gladys Carter. The Bishop presided and invited Lady Allardice to present the prizes. Both His Lordship and Lady Allardice addressed the meeting.

A very pleasing entertainment followed, the principal item being a sketch, entitled "The Brown Paper Parcel," admirably acted by Mrs. H. LeMessurier and Miss Mary Ryan. Miss Harris sang, and Miss Rita LeMessurier contributed a whistling solo, and recitations were given by Mrs. Baird and Miss "Young Lady," all of which were much appreciated by the audience.

At the close of the entertainment refreshments were served.

### A New Crew Wanted

Editor Evening Telegram.

Dear Sir.—In reference to Pepys Behind the Scenes, where Mr. Harris says he would use his influence for a Woman's Government, Harris I agree fully with your suggestion. These good ladies have urged the "necessity" for relief for the poor, and it goes to prove they have the welfare of their country at heart. Should Mr. Harris' suggestion fail, I would suggest the importing of a few males or females to look after our country and show us honesty and plain dealing. Now, Mr. Editor, perhaps it would be a move in the right direction seeing that we had to import Mr. Hollis Walker, K.C. to put us right and to show a lot of us the real meaning of the L.O.U. system. Mr. Editor, this is the first time I have had anything to do in matters of this kind. Seeing our second Minister, W. F. Coaker, failed to right or keep the old ship afloat, we would suggest the putting of a new crew to the pumps even if they were of the female sex. Hoping, Mr. Editor, I have not trespassed too much on your valuable space, and as I am busy stowing away my cod traps and packing my grip for the land of Uncle Sam, as the boat is going to-day, I can't say any more at present.

Yours truly,

A DISGUSTED FISHERMAN

### A Complaint Against Half-Time Men

Editor Evening Telegram.

Dear Sir.—With your permission I would like to make a few remarks on Taxi driving and what is happening in regard to the same. We find men in all business who have cars for 3 or 4 years putting them on the stand on the 50-50 basis, to try to get clear of their junk at the expense of the general public. That is to say, they get the driver to get a Taxi License and drive for him, and on Sunday they will have the car for their own use or any other time that they may feel inclined, as long as the driver makes all expenses for him. This also does the Council out of \$18 or \$20 in taxes by getting a Taxi License. We even have foreigners doing the same thing. I now ask Councilor Outerbridge, the real friend of the honest fare taxi driver, to bring this before the City Council at the next meeting and stop those people that are trying to have a good time at the expense of the general public. In closing, I would ask the general public to give the real taxi men the preference—men who stand at your service through fair and foul weather, and stumpy the guys

## Worry is only Fear Fear of Self-Fear of Others- Fear of the Future

AND what is the cause of worry? Lack of nerve force, energy, vigor. The man or woman who has good health and is living a full, successful life does not worry.

It is when the nervous system gets run down that worry comes to sap vitality from your body and to torment your mind.

There is not much use in advising one not to worry unless you can also offer some means of restoring the depleted nervous system.

The most rational and most successful treatment available to all is Dr. Chase's Nerve Food.

It is popular because it does not merely afford temporary relief but gradually and certainly restores vitality to the run-down nervous system.

Dr. Chase's Nerve Food can make a better human being of you, mentally, physically—everyway.

The benefits felt will be in the way of new energy, new vigor and confidence.

The utility of worry will dawn on you and you will be able to see the bright and hopeful side of the future.

You will realize that you have the reserve force necessary to withstand the strain of life's work and ward off disease and discouragement.

But do not expect this change in a day. Some perseverance is necessary on your part.

The reconstructive process is slow but certain. The depleted nerve cells must be nourished back to health.

You will soon notice signs of improvement which will encourage you to keep up this treatment until the desired results are obtained. The important part is to get the building-up process started now—to-day.

Dr. Chase's Medicines are for sale in Newfoundland by all druggists and dealers in medicines.

If your local merchant cannot supply you write direct to Mr. Gerald S. Doyle, Water St., St. John's, as he is sole agent for the Dr. Chase Medicine Co., in Newfoundland.
