CHICAGO, MARCH 4.—Speculative stagnation was a state of affairs existing in the grain pits today. Wheat existing in the grain pits today, and out of a shade lower. Provisions were quiet, and unchanged. Exports reported on 10 loads taken, while the seaboard clearance in wheat and flour were equal to 60,000 bu. Primary receipts were 1,026,000 bu, compared with 516,000 bu the corresponding time last year. The corresponding time last year, 1913, was 1,026,000 bu. World's shipments were 7,235,000 bu, 2,197,000 more than the previous week. Local receipts were 1,188,000 bu under shipments during the like period of 1913. The visible supply for tomorrow are: Wheat, 1,188,000 bu; corn, 415,000 bu; oats, 288,000 bu; hogs, 28,000 head.

THE LEADING FUTURES CLOSED AS FOLLOWS:

Table of leading futures prices for wheat, corn, and other grains.

FORECASTS—Today: Fresh to strong northerly to westerly winds; mostly fair and decidedly colder. Local snow flurries.

Wednesday: Fair and near to or below zero at most places.

WEATHER NOTES.

The cold spread into Ontario and Quebec during the night, and it will now shortly reach the Maritime Provinces. The cold wave is still centered over the Northwest Territories and is expected to reach the Maritime Provinces in the next few days.

TECHNICAL EDUCATION

A Bill to Make the Law More Workable.

Prof. Lochead's Report on the Fumigating of Trees—The Natural Gas Supply.

Toronto, March 5.—The sitting of the legislature yesterday lasted but twenty minutes, and was attended by barely a quorum of members. Premier Ross and Hon. Mr. Gibson were the only members present at the opening of the session. The absence of Hon. Mr. Harcourt acted as a check on the session. The budget debate will be resumed today by Mr. Hoyle, who will be followed by Mr. Graham. The Ontario library bill will be pushed on to a conclusion by Thursday night.

TECHNICAL SCHOOLS.

Hon. Mr. Harcourt introduced a bill to amend the technical school act. He stated in explanation that under the present act the board to be established was the Ontario technical school, but no center has been set up to take advantage of the provisions under that act. Every county in England, even the smallest of counties, had its board of technical education, and it was desirable that Ontario should follow in their wake and establish technical schools on some foundation prudently organized. It was desirable, therefore, to give to centers the liberty to say something as to the formation of the board. For instance, he had received a letter from leading citizens of one center saying that if the board of trade had something to say in the matter, and if the representation could be secured by them, a scheme which would meet the wishes of all would soon be formulated.

MR. RICHARDSON INTRODUCED A BILL TO EXTEND THE WITHDRAWAL OF FARM LANDS FROM TOWN LIMITS.

Mr. Richardson introduced a bill to extend the withdrawal of farm lands from town limits. Many farms were included in such limits at a time when it was thought that the towns would become cities, and their owners feel that they are now being treated as a burden of taxation.
