EX-POLICEMAN'S REMARKS When You

About Police of Today and a Quarter Century Ago.

Heavy Work Before the Advent of

the Patrol Wagon in London.

Three well-known citizens were standing on Richmond street this morning discussing the fair, its success, and all it meant to London. The conversation finally drifted back to the

old days, and one man remarked that fair week nowadays was not characterized by the rowdyism of years gone "Why," said this citizen "I remember when the police used to double up fair week-used to hunt in couples because it was dangerous for one man go around alone.'

Just then a policeman hove in sight and was called into the conversation. "Oh, well," said ne, "a policeman nowadays is worth two of the policemen of 25 years ago. They're better men as a rule, today.' Just as this remark was made, the iged Patrick Wallace, who for many

years was a policeman in London

the twentieth century policeman had ENTRAL CORNER LOT, 75x110, WITH frame cottage, rented for \$12. Will sell of us," he said, with unconcealed for price of land. J. F. Sangster, 112 scern. Terms finishing touches to the rumpus. myself that has often been called upon to carry a man under each arm to the police station, long before a patrol wagon was known in London. One of you, as good as two! Eosh!'
There was a hearty laugh as the exoliceman concluded, but all that Mr. Wallace had spoken the ernment. Sir Wilfrid said that a mestruth. Indeed, when "Paddy" Wallace sage had been received recently from as in his glory as "one of the finest," he was a terror to evil doors and had his work cut out for him. He was a man of magnificent physique and when once he got hold of a prismer the man was as good as in jail, And it is no wonder he disputed the assertion that one policeman of ro-

day is as good as two of a quarter of century ago.

POTATOES \$1.00 A BAG Tubers Took a Jump on the London

Potatoes took a jump on London market his morning. On Tuesday 80 cents a bag was considered a good price, and the tubers opened up at that figure this morning. There was but a small amount offered, however, and it was not long until farmers asked and secured readily DOMINION HOUSE - ADJOINING \$1 a bag. The potato rot is seriously affecting the price, and as pointed out n The Advertiser some time ago, fully

one-quarter of the crop is a failure this year.

JOYES AND THEIR JOYS The First Truancy Case of the Sea-

mater, if Truant Officer Weir has anything to say bout it.
This wide-awake chaser of hookey-player is already making out his list of truants and there will soon be trouble around some people's firesides. Albert Joyes and his wife are the first two he intends to summon for neglecting to send their children to school. The joy of the Joyeses may be

turned to sorrow when the case tried Saturday at the police court.

FIRST DAY NOT SABBATH

Plead Not Guilty. Frank Lane, Edward Wassell and Edward McKeown were charged in the fanation of the Lord's Day. They

was made until tomorrow. Miss Edith Myers, a young lady who works at the same place as the men, was the witness. She gave evidence to the effect that they were working on the Sunday in question, Sept. 3. The factory is that of the Health Gazette. Food Company, on the corner of Grey and Adelaide streets, and is owned by Mr. Thomas Robinson. Mr. Robinson on behalf of his employes said that they did not deny working on the Sunday, but they refused to recognize the first day of the week as the Sab-

bath. The fight may prove an interesting affair.

MORE FAMILY JARS Third Case of Non-Support by Hus.

For the third time this week a case of non-support of wife by husband will come before the police magistrate. Two the "Gun Club," is unique because of the cases have been dealt with, as reported precautions its proprietor takes to keep in these columns, and today an informatiaking thought as to within the law and prevent brawls on his tion was laid by another woman against her husband of neglecting to support

Rubbed softly into the face with the tips of the fingers, the cold cream will take up every atom of dust or soot from the skin, and with a soft cloth, gently wipe the face over and over. Then have a look at the cloth. You will be amazed to see how grimy it is, realizing that your face had not had the proper sort of bath, despite soap and water used so freely.

World's Largest Brick Field.

Peterborough, England, makes enough bricks in the course of a year to put a girdle four times around the earth. It is estimated that the busy brickmaking yards, which have ground up in great number round the ancient city in the last twenty years, turn out 800,000,000 bricks annually. As the length of a brick is about 8 inches, then, if Peterborough's annual output were laid out in a single line it would stretch over 100,000 miles. The brick industry has revolutionized trade in Peterborough. Such is the wealth of clay and the profit to be drawn from it that one part of the brickmaking dis-trict has been fitly named "Klondike." It lies in beds of enormous area and depth, and some of the experts say they could go on taking out the easily accessible clay for the next century.
