

10-Day Tube FREE

Mother! Be sure you get Pepsodent for your child's teeth

Do you want your child to have prettier teeth now, and better protection from tooth troubles in later life?

Mail the coupon then for a 10-day tube of Pepsodent, free. See what the world's leading dentists urge mothers to use as modern science's latest attainment in tooth care.

You will notice a film on your child's teeth. That's a frequent danger sign — an invitation for tooth troubles. The same stubborn film that you can feel by running your tongue across your own teeth. You must combat it. Ordinary dentifrices don't fight it successfully. Harsh, gritty sub-

stances are injurious to enamel.

Film is the greatest enemy of tooth health. It clings to teeth, gets into crevices and stays. Germs breed in it. The acid that leads to early decay forms. Old type methods failed to combat it. Men of science engaged themselves in discovering an effective combatant.

Now in Pepsodent, two new combatants are embodied — combatants approved by highest dental authority. It curdles the film, then gently removes it. It keeps the teeth whiter, cleaner, more sparkling. It is the modern scientific method for better tooth protection. Insist upon it. Get a tube today. Mail the coupon.

The Power of a New Hat Greater Than Warm Meals

A new hat, according to a report made by a national social service organization, will often raise morale more successfully than sermons and warm meals.

Thus is established the power of clothes — attractive clothes — over the well-being of both the body and the mind. Satisfying the subtle appetite for appearing attractive is more potent than mere physical food.

This bit of human nature applies alike to the Colonel's Lady and to Judy O'Grady. Every woman likes to be well dressed, and smart hats can inspire many moods.

A tiny tight-fitting hat with a perky little brim provokes sauciness. A large, drooping hat induces a fitting dignity.

The advertisements appearing in The Advertiser are a shopping guide to the best selections, the newest models and the right prices.

But no matter what the mood — if her chapeau is new, the dainty wearer looks on life with the feeling that "all's right with the world."

Summer and its multiple social activities call for variety in the style and colors of hats. London women will find them now on display in the millinery shops and department stores of London.

If she is wise — as most women are — and if she wants "something different" — as most women do — she'll do her shopping now while stocks and styles are so complete.

Wednesday Morning Men's Store Specials

EXTRA! "ARROW MADE" MEN'S

REPAIRS LIKELY TO CLOSE BRIDGE

Railway Board Order On
Ridout Street Matter Is
Expected Tomorrow.

Plans for repairs to York street bridge are not yet complete and, according to City Engineer W. P. Near, there is no assurance yet that it will be unnecessary to close the bridge during repairs. An order from the Ontario railway board is expected tomorrow. Until plans are complete regarding method of repair, no decision will be reached in connection with closing the bridge.

We could certainly hasten repair work if the bridge is closed during that work," Mr. Near declared today. "Leaving the bridge open throughout would be more convenient, but it might be better to route all traffic by way of other bridges and thereby speed up York street repairs."

Kent street bridge, a block west of York street, is closed during the approach to the bridge, but this will not be done until filling recently placed there has settled.

The engineer's survey of the city bridges has not yet been completed. This work will be done slowly and carefully. Ridout street is complete and York street is nearly finished. A report will be ready for the next meeting of the board of works. Mr. Near expects to have a report on the bridge ready for each meeting of the committee.

Owners of heavy traction engines or construction trucks may secure information regarding best routes of transportation at the office of the engineer, as the adaptability of bridges for heavy service capacity changes from time to time.

BRANTFORD TABERNACLE CLAIMS LONDON PASTOR

Rev. A. G. Doner Will Preach
Farewell Sermon This
Month.

Gospel tabernacle, Christian and missionary alliance, Brantford, has claimed a London pastor in the person of Rev. A. G. Doner, who organized a branch of the alliance here one year ago, and has since been in charge of the work. Mr. Doner will preach his farewell sermon to the local branch in St. George's hall on the last Sunday of the month.

Mr. Doner, who came to London from Peterboro, has specialized in organizing new branches of the alliance at different points in the province, notably Owen Sound, Toronto and London. The branch here was organized as the direct result of a tent campaign opened up by Mr. Doner last summer. Mr. Doner now feels that the work here is sufficiently organized for him to take on other duties elsewhere.

Rev. H. S. Hallman, pastor of the Gospel Tabernacle, Brantford, whom Mr. Doner will succeed, is giving up the work of the ministry to pursue with undivided energy his connection with the publication of church paper and tracts, to which work he has been more or less devoted for some time past.

Mr. Doner is taking up the question of supply for the local branch with the head office of the alliance at Toronto.

REV. DR. THOMAS EAKIN,
who, with Thomas McMillan and G. Tower Ferguson, will represent the Presbyterian church on the federal commission, which will decide the disposition of the general church property of the churches at-
tached to the formation of the United Church of Canada.

CADET MOVEMENT LAUDED BY DEAN

Fear of Militarism Groundless.
Rt. Rev. N. L. Tucker,
D. D. Declares.

The ever-increasing interest in the cadet work being carried out in London and Western Ontario is finding a growing favor among the clergy. Following a sermon preached before the cadets at St. Paul's cathedral, the Very Rev. Dean Tucker, D.D., St. Paul's cathedral, made the following comment, which appears in the St. Paul's cathedral magazine.

The parade of 800 cadets to the cathedral on Sunday morning, May 31, presented a sight that will not soon be forgotten. It is the first time that such a large body of boys in uniform joined the ranks of our congregation, and they taxed the seating capacity of the church to the utmost. The quiet and orderly way in which they entered the church, their smart and soldierly appearance, and the reverent and devout manner in which they joined in the service reflected the greatest possible credit on their training. As they left the church in as orderly a manner as they had entered it, someone was heard to say that Col. Gillespie was doing as fine a piece of work among the boys as any man in Western Ontario.

Fear Groundless.

It may with all confidence be said that the fear of militarism as the result of the training of cadets and boy scouts is a groundless fear. The system of training conceals no such latent purpose. The military men we know are not fire-eaters and swashbucklers, but the most peaceful and inoffensive men in the community. They no doubt hold what probably every sensible person in Canada holds, that the man who is not willing to defend his country when assailed is not fit to be a citizen. We are essentially a peace-loving people, fully engrossed in the tasks of peace. We are in the fortunate position of having no enemies in sight. Our neighbors to the south, with all their boundless energy and ambition, have not the remotest idea of invading our territory, and there is not a gunboat or a fortress between us. A far greater danger to the youth of our country is the joy-ride, the dance hall, and the place of amusement which is often a place of dissipation. Doing mothers can, in all confidence, entrust their boys to the cadet and boy scout movements, without the slightest fear that their darling sons will be imbued with the thirst for human blood.

Help Supply Need.

On the other hand, these movements help to supply a need which is sometimes felt in our educational system. Its first object is to develop physical fitness. Our baseball matches train a dozen semi-professional pitchers and batters and fielders and thousands of "rooters" who are more proficient with their voices than their muscles. Nearly one-half of the men who were called to the colors in the great war were physically unfit. Now the man who is unfit to march with his battalion in uniform is equally unfit to do any strenuous work on the farm or in the factory. To promote physical development is to promote efficiency in every department of the national life, and on the foundation of physical fitness the movements graft every form of manliness. They teach respect for law and authority. They inculcate unselfishness and a willingness to serve. The very essence of their spirit is "team play" and "to play the game." They frown upon all cowardice and meanness. They set up as their standard, truth, honor, faithfulness, and respect for all that is honest and of good report, and for all that is wholesome in mind and body; and the leaders are a class of men who train the boys by example as well as by precept. Instead of inspecting and hampering the movements as some do, all people of good will should unite in giving them their whole-hearted support. Indeed the whole community is deeply indebted to such men as Col. Gillespie for the admirable work they are doing among the youths of our land. The lieutenant-governor is reported to have said that one of the most impressive sights he had witnessed in his term of office was the 1,000 boys he had reviewed in cadet uniform in Victoria park.

ISLE OF SAFETY READY FOR SHRUBS AND FLOWERS

Richmond street's new safety island was completed yesterday by the city engineer's department, and is ready for planting of shrubs and flowers by the parks department. Wiring has been moved for a light standard and water service has been arranged. Paving at the corner has not yet been finished, but the works department hopes to have barricades removed and the street free from obstruction for Sunday's church demonstration at Victoria park.

BYNG SUCCESSOR SEEN IN ARTHUR

Duke's Eldest Son May Be
Canada's Governor-
General.

Associated Press Despatch.
London, June 15.—Tonight's Star suggests that Prince Arthur of Connaught might suitably succeed Baron Byng of Vimy as governor-general of Canada. It is felt here, however, that the suggestion is merely journalistic little-tattle, and that it is improbable that any definite selection will be made for some time.

Prince Arthur is the eldest son of the Duke of Connaught and from 1920 to 1923 was governor-general and commander-in-chief of the Union of South Africa.

HOUSE COMMITTEE FAVORS GRAIN ACT UNIFORMITY

Canadian Press Despatch.
Ottawa, June 16.—Concurrent legislation to make provisions of the new grain act uniform throughout Canada and place them beyond question on the ground of constitutionality should be asked of the provincial governments, especially those of the western provinces. This is the tenor of a resolution adopted last night by the agriculture committee of the house of commons.

Teachers Are Far In Lead In Night Matric Classes

For those who like to believe that the young people of the present generation are not less ambitious than those of former days, there is comfort in the annual report on evening matriculation classes presented by Principal E. A. Miller of the London Collegiate institute at a meeting of the executive committee of the board of education yesterday afternoon.

The report showed the encouragingly large number of 107 young Londoners who, having failed for various reasons to obtain their matriculation before leaving collegiate, are now endeavoring to complete their education by attending night classes. The occupations of these ambitious ones, as given in Mr. Miller's report, are as follows: Teachers, 29; stenographers, 5; bank clerks, 3; office clerks, 18; store clerks, 10; bookkeepers, 5; mechanics, 8; electricians, 3; other occupations, 16; without occupations, 10.

The total expense of the night classes for the year was \$3,810, and the total receipts \$2,074.64, made up of grants from the department of \$986.66 and students' fees amounting to \$1,087.98. This left only the comparatively small sum of \$1,735.36 to come out of the tax rate.

The executive committee, besides passing a number of accounts, also decided on a slight rearrangement of the Pottersburg school district to relieve as far as possible overcrowding there.

UNITED CHURCH ORCHESTRA WILL PLAY AT ST. MARTIN'S

The Wesley United church orchestra will play at St. Martin's Roman Catholic church garden party on Wednesday, June 24.

The orchestra, of which Dr. James J. Smith is the director, offered its services for the occasion to those in charge of the fête free of charge, and the offer was promptly accepted by Rt. Rev. Monseigneur McKeown, rector of St. Martin's church, in the same spirit in which it was made. W. H. Walsh, clarinet, and Ed. Mullins, cornet, both Roman Catholics, are members of the orchestra, which has played at different church affairs in London and district for two or three years past.

KILLING OF BRITISHER TO HALT NEGOTIATIONS

Associated Press Despatch.
Shanghai, June 16.—Foreign officials today expressed opinion that the circumstances surrounding the assassination of W. W. MacKenzie, a British subject, here yesterday indicated a deliberate attempt to interrupt the progress of the negotiations with the Chinese government and to revive waning animosities.

They emphasized the necessity for the Chinese authorities to control the lawless agitators operating around the borders of the foreign settlement.

SOLDIER-FARMERS GET CONCESSIONS

Federal Bill Provides For Large
Rebate on Live Stock
Payments.

Canadian Press Despatch.
Ottawa, June 16.—A resolution to provide for an amendment to the soldier settlement act, authorizing the soldier settlement board to credit with certain reductions the accounts of settlers who have not repaid their indebtedness to the board, or who have not abandoned their lands, or whose agreements with the board have not been terminated or rescinded, was introduced in the house of commons yesterday.

The resolution provides that a reduction may be granted of 40 per cent of the purchase price of all live stock advanced to the settler and purchased prior to October 1, 1920, and 20 per cent of the purchase price of all live stock advanced to the settler and purchased on or after the first day of October, 1920, and prior to October 1, 1921. It further provides that settlers' accounts should be credited with the total amount determined on the above basis as on the standard date in 1925.

The resolution carried, and a bill based on it received first reading.

The Greatest Value Ever Offered

Your Choice of Any

MARSHALL MATTRESS

For  Balance Weekly

DOWN

There Are Four Grades of Marshall Mattresses

The Marshall
"SPECIAL"
Mattress
\$29.50
Single Size, \$26.50.

The Marshall
"HAIR TOP"
Mattress
