

The Weekly Colonist.

Tuesday, November 22, 1864.

GOVERNOR KENNEDY'S VISIT TO NANAIMO.

We have received a full and interesting report of the proceedings at Nanaimo in celebration of the visit of Governor Kennedy and family which we regret that the want of space precludes us from publishing in this issue.

From the Inhabitants. We, the undersigned, on behalf of the inhabitants of Nanaimo, beg to offer to your Excellency our most cordial greeting and welcome on this your first visit to us—much regretting that the unfortunate circumstances should have hitherto prevented the honor of personally offering our congratulations and tendering our loyalty and duty to Her Majesty's representative in this colony.

We humbly request your Excellency's consideration of our small but highly productive town of yearly increasing importance—our churches, schools, and literary institutions—the value of our coal field, its daily development and extending influence.

We have long looked forward to your Excellency's visit that we might thank your Excellency for the interest you have already evinced towards us, and to lay before your Excellency some of the necessary requirements of the town and its outlying settlements.

We humbly suggest to your Excellency the necessity of a Bell Buoy being placed off Light-house Point, and of distinguishing marks, or beacons, on two rocks known as "Governor" and "Walker," off Salt Spring Island, and the "Zephyr" between "Brice" and "Sidney" Islands, all in the direct track of vessels proceeding from the entrance of the Straits of Victoria, to this and other ports to the northward, which are dangerous to navigation from their being covered at high water.

The building at present used as a Jail is in every way unfit as a place of confinement, and it is dangerous to health from its limited accommodation.

The want of a petty debts court is much felt, this being a power not granted to our excellent debtors from absconding, thereby injuring the trade of the town and its commercial interests.

There is a pressing need of a suitable building for our colonial school. The Vancouver Free Company, with generous liberality having offered a highly eligible site, on condition that it be used for that purpose at an early date, we solicit Your Excellency's aid in accomplishing this important object.

The general progress and good order of the Indian, under efficient management and teaching, is worthy of Your Excellency's consideration, and should an opportunity occur for Your Excellency to address a few words of advice and encouragement to them it would materially aid in the labor carried on in their behalf.

The trail that has been out between Comox and Victoria is comparatively useless as regards this district, and we much feel the want of roads of communication from the productive farms in the neighborhood, which is another reason why it is so difficult to export to supply the grain for the town and for export.

Much has been done for the town by the liberality of the Vancouver Coal Company, but it is still inadequate to its growing population, and more especially its sanitary regulations, and we respectfully solicit Your Excellency's assistance, by a local act or otherwise, in promoting the general improvement of our streets and prevent the continuance of the present nuisance.

From the Members of the Institute. To His Excellency Arthur Edward Kennedy, Esquire, C. B., Governor of Vancouver Island.

Dear Sir, We have the honor to be informed by your Excellency's obedient servants, Charles S. Nicol, President, John Booth Good, Edward White, Campbell Kaylor, James Mackenzie, Henry Fowler, James Turner, Robert Donnan, George C. Denville, Harry Cooper, John Brydon, Cornelius Bryant, Nicholas J. Jones, John Davison, Alexander Meyer, committee.

THE SUPPERS' BEST FRIEND!

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach, and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels.

Ague, Dropsy, Indigestion, Stomach, Liver, and Bowel Complaints, Pleurisy, Diarrhea, Dysentery, Hemorrhoids, Hemiplegia, Paralysis, St. Vitus's Dance, Spasms, Rheumatism, Gout, Sciatica, Neuralgia, Headache, Toothache, Pain in the Back, Pain in the Limbs, Nervous Debility, Weakness, Fatigue, and all the various Disorders of the Digestive System.

THE MONEY MARKET.

The state of the money market continues most unsatisfactory.

The failure of the Leeds Joint Stock Bank for a very large amount, the bankruptcy which has already occasioned and will continue to bring about—the disclosures of the high rate of interest—continue all serve to produce want of confidence.

The half-yearly meeting of the directors of the Bank of England on Wednesday was somewhat stormy, and various opinions adverse to the management were expressed.

The Chairman, Mr. Kirkman Hodgson, however, was quiet and pacified the more robust spirits.

The opinion, however, begins to prevail that the Bank charter act must be modified, and hopes are already expressed that Mr. Gladstone may have the courage to repeat it.

News is received from the Province of the St. Lawrence.

But in the meanwhile trade is suffering severely, and the various opinions adverse to the management were expressed.

The Chairman, Mr. Kirkman Hodgson, however, was quiet and pacified the more robust spirits.

BENSON'S WATCHES & CLOCKS.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1852. "A sample of English Clockwork on a large scale, and of which we are not aware of any other made in this country, is shown in the Exhibition. It is a fine specimen of the art, and will follow up with the same spirit and accuracy as the watchmaker's art is generally conducted, and is a credit to the country." — Illustrated London News, Nov. 28, 1852.

Watch and Clock Maker, by Special Appointment to His Royal Highness THE PRINCE OF WALES. Benson's Illustrated Watch Pamphlet. Watson's Patent, March 1st, 1862.

OSTEO EIDON. WATERMAN'S PATENT, March 1st, 1862. For supplying Artificial Miners' Teeth with soft flexible gums, entirely dispensed with the use of springs, wire, or metallic retainers, and especially adapted for warm climates.

SUPREME COURT.

The plaintiff in this action sued defendant for \$2000 damages claimed as commander of the mail steamer for losses sustained by throwing overboard a number of slaughter cattle in Dece during the passage from Portland port.

Mr. McCreight, instructed by Peakes and Green, appeared for the plaintiff, and Mr. Cline, instructed by the defendant.

Mr. McCreight in introducing testimony, remarked that the view, his client sued the defendant, upon carrier, and that the cattle on his care were lost from gross neglect.

Mr. Cline—I shipped about 20 cattle on board the Pacific. Captain I had 18, and perhaps 1 more. I added that they were valuable intended for the Christmas market.

I proved them down to the wharf. I drove \$100 for some of the cattle, and the Captain to be careful of them, but they were placed longingly in the bay, and I never recovered them. I added that they were valuable intended for the Christmas market.

I proved them down to the wharf. I drove \$100 for some of the cattle, and the Captain to be careful of them, but they were placed longingly in the bay, and I never recovered them.
