ture, which is likely to decide the fate of the battle which has been in progress for ten days, began at dawn today, and has continued uninterruptedly up to the present time on a front fourteen miles long west of the railroad and on a line with the Shakheriver. The Japanese have also made a desperate attack on Bentziputze, and reports are arriving here that the fighting was renewed this morning on the extreme left of the Russian army.

Both sides are fighting with desperate which indicated strychnine poisoning, and that they would so testify at the

••••••• WAR SUMMARY.

(By Associated Press.)
For ten days the Japanese and Russian armies in Manchuria have been engaged in a mighty conflict, the issue of which has not yet been reached. Although the most of the news from the scene of battle comes from Russian sources, and consequently may be supposed to present the facts in as favorable a light as possible for the Russian arms, it is evident that the Japanese made some gain yesterday. St. Petersburg has an unofficial report that General Kuropatkin's centre has been broken and that thirteen guns have fallen into the hands of the Japanese. These guns, which are of six and eight inch calibre, were given permanent emplacements on the lines of the railroad near Shakhe station, the fact evidencing the con-(By Associated Press.) tion, the fact evidencing the con-fidence of the Russians that the Japanese could not penetrate thither. In St. Petersburg it is thither. In St. Petersburg it is generally believed that General Kuropatkin was yesterday fight-ing a rearguard action to cover his retreat, and that the night will have witnessed a large withwill have witnessed a large withdrawal of troops toward the Tie pass. All of the commander-inchief's ability, it is considered, will be required to extricate his army from its present predicament. The issue, it is expected, will be decided today, and much unquestionably depends upon the comparative ability of the opposing armies to resist the effect of hunger and fatigue, the limit of human endurance evidently having been nearly reached on both sides. Beyond the statement that the casualties exceed those of the battle of Liaoyang, there is little known as to the number killed or wounded.

Gen. Gerngross, of the East Siberian Rifles, towards evening has taken and held Tatchekiao. Here and to the northward the Russians many times attacked by columns and battalions, storming positions with the bayonet and without firing a single shot. Foreign correspondents and military attaches frund language inadequate to express their admiration of the heroism of the Russian troops. All last night and today Japanese prisoners have been arriving in Mukden from the west front. The majority of them are wounded and all appear dewncast and ravenous, many of them crying.

Hurricane Attacks.

Monday night the Japanese attacked

You can't make sweet butter in a foul churn. Every farmer's wife knows this. Your stomach churns and digests the food you eat, and if foul, torpid or out of order, your whole system suffers from blood poisoning. You will have foul breath, coated tongue, bad taste, poor appetite and a whole train of disagreeable symptoms. Dr. Pierce's Golden Medical Discovery, which is not a beverage composed of whisky or alcohol, being entirely free from intoxicants, is a great regulator and invigorator of the Stomach, Liver and Bowels.

"About a year ago I was ill with blood poisoned." Hurricane Attacks.

Monday night the Japanese attacked Yenhsitsun, Alanpu' and Erthtaitzu, and also made four furious attacks on Iuhuantan early this morning. On the fourth attack the Japanese were temporarily successful in driving out the Russians and rushed directly towards the field kitchens, where the morning meal was being prepared, and commenced to bolt the food. The Russians, however, with a shout of "save our dinner, brother," fell upon the Japanese like a hurricane and drove them from the village at the point of the bayonet. A captured Japanese said they had had nothing to eat since Sunday, and that they had been told this morning either to capture the Russians' dinner or starve. ach, Liver and Bowels.

"About a year ago I was ill with blood poisoning," writes Miss Eveline Louis, of 89 Walter Street, Buffalo, N. Y. "I had what seemed to be a small cold sore on my lip. It became very angry in appearance and began to spread until it nearly covered my face. I was a frightful sight and could not go outside the house because of my appearance. I used a blood medicine which did not give me any relief. Then I began to take your 'Golden Medical Discovery.' I was greatly benefited with the first bottle and after taking the second bottle was completely cured. The erysipelatous eruption disappeared and my blood was cleansed. My complexion is clear and fresh and I have felt better this year than I did for some time before. Dr. Pierce's Golden Medical Discovery is certainly a most remarkable medicine."

Don't accept a substitute for a medicine starve.

At Erdagou, on the centre, a regi-

ment of chasseurs made a night attack, but the Russians were caught by the Japanese flank and many of them were killed. fifty being captured. At Bentsiaputze the Japanese stormed as far as The Wire Entanglements.

The Wire Entanglements. An attack on the east front early this morning resulted in the capture of several Japanese positions near Oubenepusa and the seizing of two Japanese quick-firing runs. The Japanese made a counter attack and a long and desperate struggle. tack and a long and desperate struggle ensued, the Russians captured a third quick-firing gun and holding the posi-The cannonading in the neighborhood

tainly a most remarkable medicine."

Don't accept a substitute for a medicine which performs such cures and which has a uniformly successful record of nearly forty years to its credit. It's an insult to your intelligence for a dealer to try by over-persuasion to palm off upon you in its stead some inferior article with no record to back it up. You know what you want; it is his business to meet that want. of Katchenkiao is now increasing in intensity, the Japanese apparently having brought up reinforcements and are attempting to crush Gen. Gerngross. The Japanese are bringing up supplies by the Simintin road and apparently are using the railroad as a line of communication.

MRS. STANFORD'S DEATH.

San Francisco, March 7.-Albert Beverly, formerly a butler employed by Mrs. Jane L. Stanford, is said to have acknowledged to Mountford Wilson, at-torney for the Stanford estate; District Attorney Byngton and captain of de-

Fighting

tectives, that he had been in the habit of taking commissions of purchases for the Stanford hospital. It also is said that Beverly stated that Miss Berner, who now is in Honolulu, shared with him in these commissions.

Miss Elizabeth Richmond, formerly employed by Mrs. Stanford as a maid, is said to have declared to the police that it was Butler William McWhinney who opened the bottle of mineral water on the occasion of the attempt to ectives, that he had been in the habit

on the occasion of the attempt to poison Mrs. Stanford last January. She said she carried one of the bottles to Mrs. Stanford and that the other was intended for Miss Berner. McWhinney succeeded Beverly as butler, and had been in Mrs. Stanford's service for five

been in Mrs. Stanford's service for five weeks prior to the first attempt made to poison her.

Worried Over Chinaman.

It has been learned today that Mrs. Stanford had been worried for a number of weeks before the attempt was made to poison her on January 14 by an insane Chinese named Wong Toy. The fellow wrote her a letter in which he demanded that she give him \$30,000, which he said he had on deposit in the Leland Stanford University Trust Bank, a mythical institution. The manhung around till he was arrested. He hung around till he was arrested. He was sent to an insane asylum on Feb

ruary 9.

Both the private detectives and the

Stanford's stomach, had found a color which indicated strychnine poisoning, and that they would so testify at the inquest. He added that the chemists had found strychnine in the blearbon-ate of soda whereof Mrs. Stanford par-took on the night of her death, and that they would so declare to the coroner's jury.

The Coroner's Inquest. The inquest in the case of Mrs. Jane

L. Stanford was begun yesterday at the Moana hotel, where she died. The first witness examined by the coroner's lury was Miss Berner, who had been Mrs. Stanford's secretary for the last wenty years.

Attorney-General Andrews question d Miss Berner regarding the bottle of bicarbonate of soda. The witness said t was Mrs. Stanford's custom to take the soda only occasionally, and added:
"No one knew of this custom, so far as
I am aware, but myself, May Hunt and
Nora Hopkins, an employee at the
Stanford Residence.

The Suicide Theory. Questioned by Deputy High Sheriff Rawlins with regard to the possibility of Mrs. Stanford having committed suicide, Miss Berner expressed pity for anyone who could be driven to such a conclusion. "I nave not read the news-paper reports of this case," she said, because they would distress me."

Mrs. Stanford, she said in conclusion,
n a few occasions said she hoped
ome day to rejoin her son and husand, to whose memory she was always levoted, but this was not a frequent ppic of conversation with her

MRS. CHADWICK'S TRIAL. lanager of Bank Explains How Credits Were Passed in Lady's Favor.

Carnegie Will Not Testify.

Judge Wing said today: "It is not my present intention to put Mr. Carnegie on the stand, and I do not think he will be called upon to testify, unless his evidence should be needed in regard to something required by the bench."

Mrs. Chadwick came into the court today apparently none the worse for her illness, which caused the adjournment of court yesterday afternoon. Andrew Carnegie was in court.

E. P. Halter of Oberlin resumed his testimony as soon as the court opened.

E. P. Halter of Oberlin resumed his testimony as soon as the court opened. He was a director of the Citizens' National bank of Oberlin, and gave evidence covering the meetings of the bank. He said he knew nothing until Nov. 27, 1904, of Mrs. Chadwick's transactions with the bank. J. F. Randolph of Oberlin, also a director of the Oberlin bank, gave evidence similar to that of Mr. Holter. C. P. Doolittle, an instructor in Charlin college, and a director of the bank, testified that he never knew of any dealings between the bank and Mrs. any dealings between the bank and Mrs. Chadwick until the day before the bank closed. The Chadwick deals were not reported by Cashier Spear to the direc-

THE OGILVIE FLOUR MILLS COMPANY, LTD. MONTREAL.

CERTIFICATE OF THE REGISTRATION OF AN EXTRA-PROVINCIAL

"Companies Act, 1897."

I HEREBY CERTIFY that the "International Timber Company" has this day been registered as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects of the Company to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is either the company is citizen.

lative authority of the Legislature of British Columbia extends.

The head office of the Company is situate at the City of Seattle, King County, State of Washington.

The amount of the capital of the Company is five hundred thousand dollars, divided into five thousand shares of one hundred thousand shares of one hundred dollars each.

The head office of the Company in this Province is situate at Victoria, and C. A. Holland, whose address is Victoria, is the attorney for the Company.

The time of the existence of the Company is fifty years.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 27th day of February, one thousand nine hundred and five.

[IL.S.]

S. Y. WOOTTON,

Registrar of Joint Stock Companies.

The purposes and objects for which this Company has been formed, are as follows:

1. To buy and otherwise acquire, own or lease lands, timber lands or tide lands in the State of Washington and in the Province of British Columbia and elsewhere, and to sell, exchange, lease, rent or otherwise dispose of the same:

2. To build, construct, buy, condemn by the exercise of eminent domain, or otherwise dispose thereof:

3. To build, construct, buy, lease or otherwise acquire, and to sell, exchange, rent or otherwise dispose thereof:

3. To build, construct, buy, lease or otherwise acquire, and to maintain, operate, exchange, lease or otherwise dispose of saw-mills, shingle-mills and any other kind of lumber mills or other manufacture of humber whiteled down.

12. To buy, own or otherwise acquire capital stock in other corporations, and to sell, exchange or otherwise dispose thereof:

13. To do and perform any other act, deed or thing necessary, proper or conveni-ent for the complete earrying out or per-formance of the purposes and objects here-inabove specified as fully and completely to all intents and purposes as if the same were distinctly and clearly set forth here-

MANY STEAMERS CHARTERED. Will Carry Foodstuffs to Japan-Insurance on Seized Blockade Runners.

Of late a number of steamers have been chartered to load at various ports on the Pacific coast, their charters reading "for any two safe ports in Japan." These vessels are to carry foodstuffs and other stores for the apanese government. The steamer Colombo is coming to Victoria from Singapore for orders, the Norwegian steamer Guernsey is coming from Shanghai to Puget Sound, the Ocean Monarch, Nairn, Foreric and Elleric to Puget Sound and the Columbia. It is expected that other charters will be made.

No further attempts will be made to run the blockade to Vladivostok from the Pacific coast, at least while the various straits are blocked with ice. The underwriters were heavily hit by the many captures which marked the close of the ventures. The M. S. Bollar and Wyefield, both of which were Victoria steamers, were irsured. The M. S. Dollar was insured for \$150,000 and the cargo she carried at \$250,000. The Wyefield was insured for \$150,000 and the cargo she carried at \$275,000.

Bank Clearings.—The total bank Of late a number of steamers have been
