

AROUND THE LAW COURTS.

A Central Bank Seizure—The Injunction Against The Smallpox Hospital—Aber Holt's Motion Refused.

Mr. Winchester, acting master in chambers yesterday announced that he would allow Barrister Gordon to file by Wednesday next a further affidavit as to his property on the motion made in the action of Gordon v. Magistrate Denton for security for costs.

A motion was made for an interpleader order in the matter of the Central Bank v. Thomas McConnell & Company. The execution placed in the sheriff's hands for some \$10,000, and the sheriff's officers have since nine horses the alleged property of McConnell.

Mrs. McConnell was about to ship the horses to the North-west when the sheriff interfered. The motion will come up again this morning.

Mr. Winchester made an order in the action of Smith v. Toronto allowing the city to pay into court the amount of the costs of an appeal from the order of Mr. Justice Falconbridge in the Court of Appeal.

The order appealed against grants a perpetual injunction against the use of the old smallpox hospital as an isolation hospital.

Neville, McWhinney & Ridley on behalf of J. Aber Holt yesterday issued a writ of summons against Alkenbush & Crombie asking for an injunction to restrain them from interfering with his free use of certain rooms in the building occupied by them.

Holt had a lease of the rooms from the building from S. H. Jones, the owner, but the plaintiff's lease of the rooms did not expire at the same time as the defendant's lease.

The plaintiff was out of town when the defendant's lease expired, and on his return on Thursday evening found the defendant's men in possession of the rooms.

Mr. Holt, learning that the defendant's term did not expire till Thursday night at 12 o'clock, and he called to get possession of his rooms before that time, and armed with iron crossed the door of the rooms.

He was again refused to enter, and as he struck the midnight hour Mr. Holt took possession of his rooms.

A motion was made to Mr. Justice MacMahon for an injunction in accordance with the writ, but was refused on the ground that it would be unfair to try the whole building for an offence committed by one person.

Mr. Justice MacMahon, however, remarked that Mr. Holt had no doubt a good action for damages.

IMPORTANT EVENTS!

Often Recorded By The Press—Record Not Easily Forgotten.

Certain wonderful events that occur from week to week are recorded by the daily papers of Canada, and often create much comment and surprise amongst all classes of our population.

Many of these recorded events are soon forgotten—they pass away like a fitting cloud, and are remembered no more.

Some events, especially those that are of importance to our national well-being, are treasured in the minds of the thoughtful and intelligent of our people.

When noble works and grand deeds are thus borne in mind, our people know how to go on and act when our national emergencies arise.

Our people are quick to discern grand and worthy deeds and actions which show good results in the community.

They feel that in some degree men and women are made better by that notwithstanding the fact that the world is evil, there is still something worth living and working for.

The press of Canada has given to the public without stint some interesting events that have proved a blessing and brought comfort and cheer to many despondent hearts.

The newspapers have informed us of great and mighty cures wrought through the agency of that wonderful remedy, Pain's Colic Compound.

While often we have had proof of men and women, old and young, who were saved from the clutches of death through the power of that great and noble remedy, the popular medicine of the day.

With all classes it seems to be able to take hold of the worst cases—those for whom physicians have not hope—whereas when administered, beyond all earthly help, the weak, nervous, sleepless, dependent, morose, dyspeptic and anxious are given a new life, and anxious parents and relatives are filled with joy.

All these things have been accomplished by Pain's Colic Compound. Truly, these are events which must sink into every reader's heart, and cause serious thought and reflection.

Such grand and noble works benefit us as a nation, and future generations will bless the name of the great discoverer of the grandest remedy ever given to suffering humanity.

OUR PUBLIC SCHOOLS.

Extension of the Kindergarten System—A New School Wanted.

There were two committee meetings of the Public School Board yesterday. The Printing and Supplies Committee met first, those present being Mrs. Macdonnell and Messrs. Whiteside, Gandy, Clark and Kerr.

A considerable amount of important business was transacted, a number of accounts being passed. The most important resolution was one to furnish the Kindergarten room in Cottingham-street school, while Mr. Hodson's motion to provide lounge in the teachers' rooms was lost.

The Schools and Sites Committee met at 4 p.m. There were present Mrs. Macdonnell and Mrs. Dr. Sturgeson, Messrs. McPherson, McPherson, Whiteside, Hagerman, Mings and Dr. Hodson.

The first business was the question of increased office accommodation for the inspection of buildings for reporting.

Some time ago there were negotiations started for the purchase of a Municipal property on the corner of Madison-avenue and Market-street.

It was, however, decided to build upon the old site, and a deputation of ratepayers, headed by Mr. Fries, spoke before the committee, saying that they would prefer no new school at all to one on the old site.

The committee took no action. Mrs. Downard was appointed caretaker at Manning-avenue School, in place of her deceased husband. A number of accounts were then passed.

The repairs and alterations sub-committee met after the meeting to arrange the program of visits to the various schools.

FRADING FREIGHT CHARGES

At the Western Cattle Market—The Commissioner Will Investigate.

A deputation of cattle dealers and railroad officials waited on the Markets and License Committee yesterday. They asked that the caretaker of the Western Cattle Market be given instructions to hold the stock until the freight charges are paid.

It has been the custom of both parties to hold the stock until the charges are paid, and it is proposed to be unloaded as soon as it arrives and before the charges are paid, instead of keeping it in the cars over night.

In some cases the irresponsible shippers sell their cattle, pocket the proceeds and let the railways to go to a better claim for their money.

It was decided to ask Commissioner Gow to write the Solicitor to report at the next meeting, and in the meantime no stock will be given out until the freight has been paid.

The repairs and alterations sub-committee met after the meeting to arrange the program of visits to the various schools.

MRS. POINTRY PERRIN.

THE AGE OF REASON.

Woman's Potent Influence, Whether as Daughter, Wife or Mother—This Influence is Inseparable From Her Sex—It is a Power.

In former times, both ancient and modern, women in general occupied a secluded state, and it was only in the extreme privacy of the home circle that she exerted a potent influence.

Thanks to the efforts of educators, scientific educationists, physicians and others interested in higher female education, the position of women, especially in Canada, is all that can be desired in many respects.

The women of Canada, well educated and refined, are noted for their common-sense views on all matters pertaining to health, and are now in a position to think and act for themselves.

In this respect, Mrs. Pointry Perrin of 135 Bloor-street, Toronto, is a notable example. She has for two years a terrible sufferer from nervous prostration; her limbs tremble and cold, and she feared that she would lose the power of walking.

Mrs. Perrin, knowing what Pain's Colic Compound had done for others of her sex, and finding other remedies useless, commenced to use the great remedy, and was perfectly restored to health.

She tells us that she has taken a new lease of life, and is able to perform all her duties as a wife and mother, and with faith in his powers she used it. A well-known Toronto gentleman, H. H. Pollard of 40 King-street, vouches for Mrs. Perrin's statements.

In her letter of testimony, Mrs. Perrin says: "I feel it both a privilege and a duty to acknowledge the merits of Pain's Colic Compound. For about two years I was laid up with nervous prostration, so badly that I could not walk again. From my knees down, my legs were perfectly useless and cold. In despair I got a bottle of Pain's Colic Compound; and, after taking about six bottles, I am in perfect health. My friends say I have taken a new lease of life. In fact, I am a walking advertisement for your Compound."

Reader, let us call your attention to the fact that this grand and glorious agency is able to do the same work for you, if you suffer in any way. This wonderful preparation is not an untold article. It has done for me, and I desire to see it do for you. It is a true medicine, and cannot fail in your case. Be assured of the fact that it is your only true medium of escape from suffering, woe and pain.

James Gullon, Foot's Island, N.F., writes: "I have been watching the progress of Dr. Thomas' Electric Oil since its introduction into this place. I have used it in various cases of rheumatism and neuralgia, and with much pleasure state that my anticipations have been fully realized. It is the best article of my kind that has ever been brought before the public. Your medicine does not require any longer a sponsor, but if you wish to see it act on a case, send me only too happy to have my name connected with your precious oil."

Receipts for the month ending March 31, 1892, were: Spirit, ex warehouse, \$48,228.96; Salt, ex warehouse, \$2,322.00; Tobacco, ex factory, \$1,231.25; Oil, ex factory, \$1,231.25; Glass, ex factory, \$1,231.25; Paper, ex factory, \$1,231.25; Lenses, \$1,231.25; Other revenue, \$1,231.25; Petroleum inspection fees, \$1,231.25; Total March, 1892, \$50,443.21; Increase for 1892, \$15,573.33.
