liquidation may not be quite over the  
holdings are more concentrated and the  
market should be in a better position to  
resist further decline. We are noting at  
this writing a give away great advance,  
but one in due and about the same price  
sign advance should get it. Our prices  
are altogether too low compared with  
the Northwest, where the wheat is  
selling at 60¢ each and go direct to  
millers. We understand the flour demand  
is better and at about the same price  
as before the decline here. For a good  
advance we need a crop scare, and are  
in hopes it will come.
