Sarnia, April 22.—About ten o'clock this morning, as Samuel Hitchcock and Dr. Bell were speeding an automobile along Christina street, an unfortunate accident happened.

Just as the auto came to the intersection of the London road, a little 5-year-old lad named Joseph Scroggie, who was playing on the side of the street, ran out on the pavement directly in front of the fast moving automobile.

Mr. Hitchcock, who was driving the machine, put on the brakes in an effort to stop the speed of the auto, but the wheels slipped on the newly watered pavement. The front wheel struck the little lad a glaneing blow, which knocked himdown and rendered him unconscious.

He was picked up and conveyed in the East Buffalo, April 23.—Cattle—Firm; prime steers, \$5.75 to \$6.25. Veals—Receipts, 100 head; active and steady; \$5 to \$7.25. down and rendered him unconscious.

He was picked up and conveyed in the automobile to the general hospital, where Dr. Bell attended him. He regained consciousness soon after being taken to the hospital. Fortunately no bones were broken, but the lad was bruised about the face and head and was pretty hadly shakface and head and was pretty badly shaken up. How serious his injuries are can-not as yet be ascertained.

## Vegetable Crop Reports.

The crop correspondents of the Ontario Vegetable Growers' Association re-port that market gardeners are planning for a good season this year. Weather conditions so far, however, have not been conductive to active work. For work with hot beds, the weather has been particularly bad. The season, as a whole, has been late. Not much plowing has been done. Even greenhouse crops have done as well as usual, but there is a good demand, especially for radishes, lettuce and rhubarb.

It is probable that onions will be planted extensively this spring, the acreage will be increased on account of seed prices. A large acreage will be planted as usual, but it is rather early to estimate the extent of the crops that will be grown.
