BRADSTREET'S

Capital and Surplus, \$1,500,000.
Offices Throughout the Civilized World

Executive Offices:

Nos. 246 and 248 Broadway, New York City, U.S.A.

THE BRADSTREET COMPANY gathers information that reflects the financial condition and the controlling circumstances of every seeker of mercantile credit. Its business may be defined as of the merchants, by the merchants, for the merchants. In procuring, verifying and promulgating information, no effort is spared, and no reasonable expense considered too great, that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing the company at any of its offices. Correspondence invited.

Chicago Store: F. E. DONOHUE, Agent, 241 Madison Street.

Manufacturers will find it to their advantage to use the columns of the **ELECTRICAL NEWS** in making announcements.

THE COST OF STEAM

To decide which type of boiler will produce steam at the lowest cost, it is necessary to consider the cost of the boiler, the evaporation of water per pound of fuel and the expense of keeping the boiler in working order.

Compare our boiler, the "MUMFORD IMPROVED," with a water tube boiler, and it will be found that ours has the advantage in all these points.

COST: Our boiler costs less on account of its simpler construction.

EVAPORATION: Our boiler is internally fired and therefore more heat is absorbed by the water. The water circulation, an important factor in evaporation, is similar to and probably more rapid than that of a water tube boiler. Tests made by disinterested parties with the same coal resulted in favor of our boiler.

EXPENSE: The furnace of a water tube boiler requires relining with fire-brick frequently, a large item of expense which is not required with our boiler.
