

RELIEF

derstood by the general public, and by their very virulence have served to more prominently call attention to the good work of the "Royal" Company.

Ordinary adulterations such as are found, in coffee, spices, etc., although they are swindles in a commercial sense, are often tolerated because they do not particularly affect the health of the consumer. But when an article like baking powder, that is relied upon for the healthful preparation of almost every meal, is so made as to carry highly injurious if not the market is full of poisonous alum and other rankly poisonous elements into our daily food, it is the duty of the public authorities to take how strongly endorsed by " commercial " cognizance of it.

In this fight for pure food made by the "Royal " Company, it is to be noticed that the most trustworthy scientific authorities are emphatically upon its side. In all the contests of this company with the alum and other impure baking pewders the result has proved food what baking powder they shall use.

that every statement made by the Royal Baking Powder Company, both as to the purity of its own and the "adulteration of other baking powders of the market, was fully authorized by the most competent chemical and medical and medical authorities of the country.

In this contest two facts have been pretty conclusively settled in the minds of the public -- the first that the Royal Company has found the means, and uses them, to make a chemically pure article of food ; and the other that adulterated baking powders which, no matter chemists, are to be studiously avoided.

A pure baking powder is one of the chief aids to the cook in preparing perfect and wholesome food. The recent controversy in the press has left it no longer a question with those who desire purity and wholesomeness of

RADWAY'S READY

UURES AND PREVENTS

Colds, Coughs, Sore Throat, Influenza, Inflammation, Rheumatism, Neuralgia, Headache, Toothache, Asthma,

DIFFICULT BREATHING.

## About Boiling Clothes nd/Disease-Breeding Germs

Dr. H. M. Lassing, in an article in American Analyst, says: "The dirt and all soap must be entirely removed from the interstices of the clothes, and all microbes must be destroyed. The only and easiest way to do this is by heating the water in which the clothes are contained to the boiling point. The boiling water,

by constant self-agitation, is forced through the interstices of the fabrics, and thus cleanses them from dirt and disease-breeding microbes as they can be cleansed in no other way, and without in any manner injuring the fabric."

James Pyle's Pearline will wash in hot or cold, hard or soft water, and by any of the so-called "new labor-saving methods ;" but for the easiest and best way of washing, refer to the directions for washing by boiling given on back of each package of Pearline. Hereware of Initations. JAMES PYLE, New York.

ware of Imitations.

ANTINA

Montreal, Winniper. more nutrition than a cup of coffee.

Will cure a Cold more thoroughly and speedily than any other preparation in use. This mellcino is especially beneficial in all affections of the Throat and Lungs, and affords effectual relief even in the advanced stages of Consumption. Thousands of cases of Pulmonary diseases, which have baffled every other expedient of human skill, have been completely cured by the use of Ayer's Cherry Pectoral. \*\* For fifteen years I was afflicted with Lung troubles. Ayer's Cherry Pectoral relieved the distressing symptoms of this disease, and entirely cured me. It is the most effective medicine I have ever used. - C. M. Fay, Prof. of Anatomy, Cleveland, Ohio.
