

ANTI-KAMNIA.—This is a combination of elements belonging to the coal-tar group, and is an American product. It is a white crystalline powder, odourless, and has a slightly burning taste; soluble in hot water and in diluted alcohol, but not in cold water. It acts as antipyretic, analgesic and anodyne. The importance attached to this drug, I think, is due to its anodyne and analgesic power, and the celerity with which it acts. As an antipyretic in fevers, it acts more slowly than antipyrin, but is not attended with as much depression of the cardiac system and cyanosis. Whenever a sedative and an analgesic together is indicated, this remedy meets the demand. In severe headaches it is the remedy *par excellence*.—C. A. JULIAN, M.D., Louisville Medical College, in *N. C. Medical Journal*.

NERVOUS DYSPEPSIA :

R Tinct. nucis vomica ℥ij.
 Elix. calisayæ val ℥xxij.
 Elix. aromatic ℥xxij.

M. Sig. — Teaspoonful before each meal.

The entire medical staff of the Brazilian Navy, which has been loyal up to the present time, has joined the forces of the insurgents, and placed itself under the orders of Admiral Gama. *Lancet-Clinic*.

The *International Medical Magazine* will hereafter be edited by Dr. H. W. Cattell, under the supervision of Dr. John Ashhurst, jun., and Dr. James T. Whittaker.—*Medical News*.

NEURASTHENIA :

R Zinci valerianat gr. xx.
 Quin. valerianat gr. xx.
 Ferri valerianat gr. xx.

Mix for twenty pills. Sig.—One three times daily.

RHEUMATISM, ACUTE :

R Sodii salicylat ℥vi.
 Aquæ ℥i.
 Syr. toltan, q.s ℥iij.

M. Sig. — Teaspoonful every two hours.

Private Sanitarium . . . for Inebriety

No. 1 Clarence Square, TORONTO, ONT.

THIS INSTITUTION possesses facilities for the successful treatment of the drink habit on modern principles.

It is situated on the corner of Spadina Avenue and Clarence Square, and facing a beautiful park; is only one block from street cars, only a short distance from the Brock Street boats, and five minutes' walk from Union Station. All the rooms are large, well furnished, and house is heated by furnace and gas.

The medical treatment is superintended by DR. GOODE, whose assistants are competent. As the residence of patients will be from three to four weeks, and as occupation or amusement is almost necessary, it will readily be seen that a first-class place where gentlemen may be treated in the city has great advantages over a like institution in the country.
