In cases of severe injury to the fingers by laceration or contusion, put the entire hand into a very ample soaking-wet dressing. Do not even trim off a piece of flapping skin. Incision for drainage is all that is allowable until healing is very well under way or even quite complete. You may then look over the ground and see whether it is worth while to sacrifice anything. A half inch of *boneless* finger may be of incalculable value to its possessor.

**A Text Book on Nervous Diseases**—Edited by F. X. Dercum, M.D., Clinical Professor of Diseases of the Nervous System in the Jefferson Medical College, Philadelphia. In one handsome octavo volume of 1046 pages, with 341 engravings and 7 colored plates. Cloth, \$6.50; leather, \$7.50. Net.

This goodly-sized volume embodies the work of twenty-two leading authorities in neurology in the different and special lines of their individual fitness for the same. The general arrangement is systematic and practical.—*Medical Record*, New York.

**Diseases of Infancy and Childhood**—By J. Lewis Smith, M.D., Clinical Professor of Diseases of Children in the Bellevue Hospital Medical College, New York. New (8th) edition, thoroughly revised and re-written and much enlarged. Handsome octavo of 983 pages, with 273 illustrations and 4 full-page plates. Cloth, \$4.50; leather, \$5.50.

The leading position achieved by Smith on children as the standard text-book and work of reference on its important subject is shown by the demand for eight editions. In the present issue the subject of surgical diseases of children has been added. The new edition will be used by students and practitioners as a complete and authoritative guide to the surgical as well as the medical aspect of the diseases of children.—*Canada Lancet*.

**A Text-Book of Practical Therapeutics**—With especial reference to the application of remedial measures to disease and their employment upon a rational basis. By Hobart Amory Hare, M.D., Professor of Therapeutics and Materia Medica in the Jefferson Medical College of Philadelphia. With special chapters by Drs. G. E. DeSchweinitz, Edward Martin and Barton C. Hirst. New (5th) edition thoroughly revised and much enlarged. In one octavo volume of 740 pages. Cloth, \$3.75; leather, \$4.75.

The fifth edition of this valuable book in as many years indicates in a convincing manner the high esteem in which it is held by the profession in America. The editor has a high reputation, not only as a teacher, but also as an experimental pharmacologist. We find, therefore, as we might expect, that the physiological action of all the drugs as far as it is known is very clearly stated. Above all things, however, the work is a practical one and the busy practitioner will find that all information respecting practical therapeutics is here made easy of acquisition.—*Montreal Medical Journal*.

**The Pathology and Treatment of Venereal Diseases**—By Robert W. Taylor, A.M., M.D., Clinical Professor of Venereal Diseases in the College of Physicians and Surgeons, New York. In one very handsome octavo volume of 1002 pages, with 230 engravings and 7 colored plates. Cloth, \$5.50. Leather, \$6.50.

In the treatment nothing has been neglected. In its completeness the book leaves almost nothing to be desired. It is a veritable storehouse of our knowledge of the venereal diseases. It is commended as a conservative, practical, full exposition of venereal diseases of the greatest value.—*Chicago Clinical Review*.

**Dunglison's Medical Dictionary**—Containing a Full Explanation of the Various Subjects and Terms of Anatomy, Physiology, Medical Chemistry, Pharmacy, Pharmacology, Therapeutics, Medicine, Hygiene, Dietetics, Pathology, Surgery, Bacteriology, Ophthalmology, Otology, Laryngology, Dermatology, Gynecology, Obstetrics, Pediatrics, Medical Jurisprudence and Dentistry, etc. etc. By Robley Dunglison, M.D., LL.D., Late Professor of Institutes of Medicine in the Jefferson Medical College of Philadelphia. Edited by Richard J. Dunglison, A.M., M.D. New (21st) edition, thoroughly revised, greatly enlarged and improved, with the Pronunciation, Accentuation and Derivation of the Terms. In one magnificent imperial octavo volume of 1206 pages, with Appendix up to 1395. Cloth, \$7.00; leather, \$8.00.

Any book that from public demand and appreciation reaches a twenty-first edition may safely be recognized as a credit to both its author and publisher. Pronunciation is now for the first time introduced. It is indicated by a simple and obvious system of phonetic spelling, fully explained in the introduction. A vast amount of information will be found in the compiled tables, etc. The work should be in the hands of every student and physician, and will be found a most useful companion.—*Canadian Practitioner*.
