Rye Whiskey is steady at 81 to 85 cts.

NAVAL STORES.—For spirits of Turpentine there has been an active demand, and the price has advanced to 65 cts. Rosin. Seal Oil—A cargo sale of steam refined was made at 52½c. and Straw Seal was sold at 45c., the outside quotations being 62½c. and 50c. respectively; Olive Oil \$1 12½ to 1 25; Crude Whale Oil is nominal at 53½c.

TORONTO MARKET.

TORONTO, July 13th.

Business has not generally been very brisk during the past week, the grocery and provision Trades being, perhaps, the only exceptions to the usual summer dullness. Reports from most parts of this Province with regard to the crops continue much as last reported, or if anything a trifle more favorable. Remittances to meet paper maturing are about the average, and fully up to expectations. The money market remains tolerably easy at present, but the demands the banks will be called upon to meet when the grain begins to come to market will probably reduce their available resources exceedingly.

BOOTS AND SHOES.—Trade has continued quiet during the past week, and there is nothing new to note as to prices, which are steady and firm at quotations.

DRUGS.—Business is gradually becoming inactive, but has been to a fair extent for the season of the year. There is no special alteration to note in prices.

DRY GOODS.—There is nothing new to note either as to business or prices.

FREIGHTS.—There is very little doing. Prices of produce are too high here as compared with other markets, and consequently little is going forward, except some parcels of flour to the lower provinces by Grand Trunk. Steamer freights for flour are to Kingston 12½; to Brockville or Prescott, 15c; to Montreal, 20c. Grain in bags taken at 10c to Kingston; 12½c to Brockville or Prescott; and 15c to Montreal. By Grand Trunk the rates now in force are as follows:—To Halifax, 85c for flour, and 43c for grain; to St. John, 80c for flour and 40c for grain; to Kingston, 25c and 13c for flour and grain; to Prescott, 30c and 15c; to Montreal, 35c and 18c; to Point Levis, 55c and 28c; to Portland or New York, 75c and 38c; and to Boston, 80c and 40c.

GROCERIES.—The business of the past week has been quite considerable, so far as the regular trade is concerned, although very few round lots of any sort of goods are reported as having changed hands. Coffee is in fair request at late prices, which continue firm. Fish—little or nothing doing, and quotations nominal for all kinds. Fruit—Layer Raisins are in light demand, and with full stocks prices are somewhat easier. Holders would now sell readily at \$1.75 to \$1.90, and for round lots even lower figures might be accepted. M. R.'s are quoted at \$1.60 to \$1.70; Valentias are steady at 7½c. to 8c. for new and 6½c. to 6¾c. for old. Rice—Stocks have become low, and good samples are especially scarce, and prices tending upwards. Holders are now asking \$4.60 to \$4.75 for Arracan, and \$4.50 to \$4.60 for Rangoon. Spices are without special enquiry, and there is no change to note in prices. Sugars—Raws have been in good demand during the week from the general trade, and although no large parcels are reported as having changed hands, sales of ordinary lots will foot up pretty considerably. Prices have continued firm, and holders have realized fully late rates. The New York market has advanced ¼c. on standard grades within the past ten days, and although sellers here have not been able to obtain a corresponding advance, still they have profited in so far as to find buyers more willing to accede to their demands. In refined goods there has also been a fair business passing, but present high prices have to some extent checked the demand. Stocks, however, are now not large, and it is likely that a fair demand will ere long be experienced. Teas continue in good demand for desirable quantities of Young Hysons, especially the higher grades, for which full prices have been obtained. Gunpowders and Imperials are in ordinary request, as are also Uncolored Japans. Blacks are fairly active at fully maintained prices. Tobaccos are moderately active and prices are without change.

HARDWARE.—Trade has become quite slack, and prices are entirely without change.

HIDES AND SKINS.—Slaughter Hides are coming in more freely, but the supply is still unequal to the demand, and prices are fully maintained. Calfskins are dull, but unchanged as to rates. Sheep's Pelts are in good supply but all arriving are readily taken at current quotations. Lambskins are wanted, and all receipts find ready sale at 40c.

LEATHER.—The market continues very dull, and in the absence of any outside demand, notwithstanding light arrivals, stocks here are beginning to accumulate. Prices, however, are so far unaffected, and there is no present prospect of any market decline.

LUMBER.—This week's shipping has been light, one million two hundred thousand feet having left. There has also been some shingles shipped, all 18 inch No. 1. Vessels are plentiful, and freight is unchanged. There is a great deal of lumber being shipped to Charlotte, which place is getting to be of some importance as a lumber market, several new folds having been opened there this season. New lumber comes to hand very slowly as yet. Clear \$24, Common \$9 to \$11, Culls \$6 to \$8; Flooring, 1½ in., \$10 to \$12; Shingle, No. 1, 18 inch, \$3 1½, 16 inch, \$2 to \$2.25; Lath, \$1.70.

PAINTS AND OILS.—There is not much demand for either Paints or Oils, nor many changes to make in the price list. Spirits Turpentine are a shade lower, now quoted at 63c. to 70c.

PETROLEUM.—In the early part of the week there was a better enquiry from the trade than for some months, but within the past few days the demand has fallen off. Prices have been looking upward, and a further advance is expected to be made within the next few days. Standard white is now quoted at 25c. to 26c.

PRODUCE.—Business has dragged very greatly during the past week, and transactions have been of an exceedingly limited character. Flour, Superfine has been steady during the week, the consumptive demand being sufficient to prevent any accumulation, but the higher grades are somewhat less firm than at the close of last week. The principal sales since last report consisted of 200 brls. spring wheat extra at \$5.35 f.o.c.; 100 brls. No. 1 Superfine at \$5.15 f.o.c.; 300 brls. Extra at \$5.65 at Weston; 300 brls. Fancy \$5.40; 300 brls. No. 1 Superfine at \$5.10 at Guelph; 170 brls. Extra at \$5.70 f.o.c.; and 100 brls. do. at \$5.65 at Weston. Wheat—Receipts have been very light, but, in the almost entire absence of any demand the market has given way, and holders could not obtain last week's prices. The only reported sale consisted of 1 car of No. 1 fall and 1 car No. 1 spring at \$1.20 all round at an outside point. Barley—There has been scarcely anything doing, but prices remain unchanged. A small sale of No. 1 was reported at 70c. Oats—With small offerings on the track prices have tended upwards with sales of cars during the week at 47c 50c 51c and 53c and the last named price would probably still be given. Peas—There are none in market and notwithstanding reports of a large yield from the growing crop, prices are firm, with buyers at 75c. to 80c. Hay—Receipts of the week have been small and full prices are asked; the range being from \$16 to 20. Straw is very scarce and readily commands \$10 to \$12.

PROVISIONS.—There has been a good deal doing during the past week, and at prices generally firmer, especially for hog products. Butter—There has not been much coming in lately, but a good deal is held at outside points. Holders are now asking 18c. for choice dairy, but buyers are unwilling to pay over 17c. at most, and sales in consequence have been limited. Store packed is held at 15c. to 16c., but with not much doing at these figures. Cheese—Receipts have been ample to meet the existing demand, which has been chiefly of a retail character to supply the local wants, and at quotations. For round lots at the factories not more than 9c. to 9½c. would be offered. Eggs—The warmth of the weather prevents any speculation, and few lots are arriving. Prices are without change. Lard meets only a light demand at previous rates. Bacon—There has been considerable demand both for Canada and Cumberland Cut, with sales in lots of two, three and four tons at 8c. to 8½c. for the former, and 8½c. to 9c. for the latter. Hams—Considerable sales have been made at 12½c. to 13½c. for canned. Pork—Buyers have offered \$17 for round lots of Mess, but holders are firm at \$18, and no sales have been reported.
