

- *Strengthening Ecotech and capacity building efforts*

Leaders recognize that in addition to promoting sustainable development and narrowing disparity, Ecotech helps to enable all member economies to achieve prosperity through activities that both directly support trade and investment liberalization and facilitation and strengthen the competitiveness of our economies. Leaders applaud the efforts undertaken this year to update the OAA Part II and call for greater integration of Ecotech efforts with all APEC priority goals. Leaders underscore the need to give a strong impetus to ensuring the effective implementation of various Ecotech initiatives, especially crosscutting issues such as human capacity building.

Leaders recognize the importance of substantially enhancing the profile of Ecotech and improving the coordination and management of Ecotech activities of all fora. In this context, Leaders welcome the review to be undertaken on the mandate and role of the SOM Subcommittee for Ecotech (ESC), and look forward to early progress. Leaders also recognize the need to encourage the incorporation of the priorities of micro, small and medium enterprises throughout the APEC agenda.

Leaders agree to further develop Ecotech Action Plans (EAPs), as an instrument to gauge and encourage Ecotech activities, drawing from the experience and lessons learned in the pilot phase. Leaders also call on all members to take part in this exercise on a voluntary basis. Leaders agree that APEC should strengthen ties with bilateral, multilateral, and private funding entities with a view to minimizing duplication and maximizing the delivery of capacity building programs. Leaders instruct Ministers and officials to intensify Ecotech activities and report the progress to the Ministerial Meetings next year.
