

*Proceedings on Adjournment Motion*

mentioned, I think that that is an overpessimistic view of the situation and interpretation of the facts. Last year, despite the disastrous forecasts from many corners of the House, and some articles, there were more than 190,000 starts during the year. Far more significant than what I call the numbers game is the fact that in excess of 50,000

of these starts were financed for low-income housing through CMHC.

**Mr. Deputy Speaker:** Order. I am sorry to interrupt the minister but his time has expired.

Motion agreed to and the House adjourned at 10.22 p.m.
